I. About AEPA

Welcome to The Association of Educational Purchasing Agencies (AEPA) annual bid solicitation. AEPA is a unique school procurement consortium established in 2000, and incorporated in 2007 under the state laws of Nevada. We are consortium of non-profit public agencies representing twenty-eight (28) states. We joined to issue simultaneous Invitations for Bids (IFB) generating sales for vendor partners in forty-nine (49) states. AEPA’s mission is to cooperatively serve our members though a continuous effort to explore and solve present and future purchasing needs. Our goal is to secure multi-state volume purchasing contracts with benefits for our public members that are measurable, cost-effective, and exceed members’ expectations for customer service and value. AEPA is committed to accomplish this mission lawfully and ethically, using leading edge technology and contemporary business practices.

The advantage for vendors to work with AEPA is that you respond to one bid that is legally performed across as many as 28 states, which have the potential to sell nationwide. You are working with up to 28 agencies with a long and trusted history with their public membership. Through our partnerships, AEPA vendors have access to thousands of public agencies across the country. We are a multi-million-dollar procurement group through our current awarded vendors and are growing.

AEPA designates one Member Agency per state that is operating legally under the rules and regulations of that state. Any additional agencies that wish to participate will negotiate with the authorized Member Agency and participate through them in a manner in which they mutually agree is not in conflict with AEPA procedures. The Member Agency will be the only agency allowed to represent that state at AEPA and will be the only communication link between AEPA and that state.

Each Member Agency, along with the awarded Vendor Partner, represents, supports and promotes the AEPA contracts within their respective state. While the consortium was initially created to support educational entities, the Member Agency for each state determines which public entities (higher educational institutions, cities, counties, townships, states, etc.) can utilize the competitively bid contracts (see the Summary of State Participation by Bid Category Table). Participating entities may include Public and Private School Districts, Educational Service Agencies, Intermediate School Districts, Higher Education Institutions, Federal Agencies, State Agencies, Local Public Bodies and Nonprofit Non-Public Corporations, Organizations, other entities contracted to conduct business on behalf of a participating entity provided they are required to follow member state and local procurement regulations, etc. that have authorizations to utilize the AEPA Member Agencies' Awarded Contracts.

AEPA has an elected President, Vice President, Secretary and Treasurer. Operations are overseen by the Executive Director. The AEPA Board representing 28 states meets twice per year, and operates otherwise through a sophisticated committee structure.

II. Bid Procedures

A. Issuing Agency

The great benefit to the Bidder is that one response may be prepared for approval by AEPA and awarded by multiple AEPA Member Agencies and utilized by their Participating Entities located throughout many states. Bidders responding to this IFB will submit their response in the required formats (PDF, Word, Excel) of all files requested along with complete catalogs via Public Purchase, a free online bidding platform, by the due date and time of this IFB. Bidders selected in response to this single IFB have the potential to provide products and services to local education agencies serving over 36,000,000 (excludes non-represented AEPA states) students.

Each AEPA Member Agency will individually publish notice of the IFB. Bidders will submit their response online, electronically via Public Purchase (www.publicpurchase.com). Responses will be evaluated by bid category committees comprised of AEPA Member Agencies representatives who have indicated they will participate in the category of products and services being solicited, and after AEPA approval, individual AEPA Member Agencies may award contracts to the AEPA Approved Vendor Partners or reject their offers.

The procurement activities of AEPA are limited to document preparation, distribution of the IFB, initial evaluation, and recommendation for possible approval to AEPA Member Agencies. AEPA consists of agency officials who have agreed to assist one another in meeting the public purchasing needs of local school districts and other political subdivisions.

Contracts awarded through cooperative purchasing must meet the procurement laws of the states of each AEPA Member Agency. When these laws are satisfied, an individual entity using these contracts is deemed in compliance with bidding regulations. As allowed by specific state statutes, they can issue purchase orders for any amount without the necessity to prepare their own IFB, Request for Proposal (RFP), or Request for Quotations (RFQ). This saves the entity time and allows for economical and efficient purchasing.

AEPA requires that Bidders only respond if they are able to offer prices equal to or better than what they ordinarily offer to individual entities or cooperatives with equal or lesser volume. State laws that permit or encourage cooperative purchasing contracts do so in the belief that it saves the participants both time and money. Time is saved by having access to volume discounted contracts publicly solicited and being able to purchase what is needed without having to wade through the solicitation process (write solicitation, advertise the IFB, open each response, evaluate and make a selection). Money is saved in procurement cost and lower prices will be the result of volume purchasing. Therefore, a contract issued by a cooperative can be used by hundreds of separate political units; but if it has the same or higher prices than what a single agency or state contract can get through its own bid, a cooperatively bid contract may not be attractive to these members. We request that bidders respond with an advantageous package so that together we can attract members to prefer the cooperatively awarded contract.

The AEPA policy for membership permits new agencies to become AEPA Member Agencies upon approval of existing members. If additional Agencies are added, they and their members may procure from existing contracts upon approval of the awarded Vendor Partners and in accordance with their state laws.

B. Questions

All questions from Bidders must be submitted online through Public Purchase, AEPA will not accept questions in any other format during the bid process. All questions received during the IFB process will be available via Public Purchase. All Bidders will be automatically notified through email when AEPA responds to a question asked by a Bidder. It is the Bidders responsibility to check Public Purchase for any questions and answers prior to the bid deadline. Questions received after the question deadline date will not be answered.

Should AEPA issue an addenda during the solicitation process, all Bidders will be automatically notified through email of the released addenda. AEPA is not responsible for Bidders not acknowledging the issued addenda and not submitting a response according to those changes.

Questions regarding this IFB after Bid Opening, but prior to the approval of the contract, should be submitted to questions@aepacoop.org.

Questions regarding this IFB after Notification of Approval should be submitted to bid-committee@aepacoop.org.

C. Bidder Qualifications

An essential part of the bid evaluation process is an evaluation to qualify the company being considered. All bids must contain answers, responses and/or documentation to the information requested in the Bid Documents. Any Bidder failing to provide the required information/documentation may be considered non-responsive, this includes submitting a response not in the proper format.

Bidders, within their response, must demonstrate their ability, capacity and available resources to provide the proposed products and services to 90% of the AEPA Member Agencies indicating an interest in participating in the categories being solicited, unless otherwise noted in Part B – Technical Specifications of the category being bid. The Bidders are required to communicate and demonstrate within their response they have extensive knowledge, background and at least five (5) years of experience with manufacturing, obtaining, delivering, installing, maintaining and/or supporting the product lines of products, equipment, services or software offered. AEPA and/or its Member Agencies reserve the right to accept or reject newly formed companies or companies failing to demonstrate their abilities or capacity solely based on information provided in the bid response and/or its own investigation of the company.

D. Bid Security

If required, bids shall be accompanied by a satisfactory bid security. This will vary by category and will be noted in Part B, Technical Specifications.

If a bid security is required, a hard copy of the bid security must be in the actual possession of AEPA at Oakland Schools, 2111 Pontiac Lake Road, Waterford, MI 48328, on or prior to the exact due date and time. Original copies of the bid security, must be submitted in a sealed envelope properly addressed to the Association of Educational Purchasing Agencies, with the Bid Number, Bid Category and Bidder's name and address clearly indicated on the envelope or box. Bid securities received late will not be opened and will be deemed non-responsive.

A bidder must also include a PDF copy of the bid security with their response on Public Purchase. If a Bidder fails to submit a copy of the bid security via Public Purchase and/or fails to submit the bid security by the due date and time, its response shall be deemed non-responsive and will not be considered.

An acceptable bid security will have the principal being the Bidder and the Association of Educational Purchasing Agencies listed as the Agency of Record. Bid Security may be a one-time bid bond underwritten by a surety company licensed to issue bid bonds in the state of Nevada and said surety to be approved in federal circular 570 as published by the United States treasury department or the equivalent in cash or an irrevocable letter of credit from a FDIC financial institution. The bid security shall remain in force for one hundred twenty (120) days of bid opening.

 - f. It is the responsibility of all Bidders to examine the entire IFB package, to seek clarification of any item or requirement that may not be clear, and to check all responses for accuracy before submitting a bid.  - g. The Bidders' ability to follow the bid preparation instructions set forth in this solicitation will also be considered to be an indicator of the Bidders' ability to follow instructions should they receive an award as a result of this solicitation. Any contract between the AEPA Member Agency and a Bidder requires the delivery of information and data. The quality of organization and writing reflected in the bid will be considered to be an indication of the quality of organization and writing which would be prevalent if a contract was awarded. As a result, the bid will be evaluated as a sample of data submission.

Failure to submit a copy with the response and to send the official bid security to AEPA will result in the Bidder being deemed non-responsive and will not be considered. Bids and bid securities not meeting the due date and time will not be accepted.
- c. If the designated location for receiving the bid security is closed due to an unforeseen circumstance on the day the bid security is due (due date), the bid security will be due at the same time on the next day the building is open.  - f. In preparing a proposal, the Bidder's inability to follow the proposal preparation instructions set forth in this solicitation and its inability to provide written responses, narratives, requested and support documentation relating to the Bidder's qualifications; abilities; capacity; products; specifications; delivery, installation, setup, maintenance; support services and pricing utilized by AEPA evaluators may result in the Bidder's response to be deemed non-responsive.
2. **Non-responsive Bid:** Any bid that does not conform to all material requirements of the solicitation including, but not limited to: bids received after the deadline; bids that do not contain required items and/or provided in the format required, such as proper and/or signed forms, pricing, catalogs, electronic files; bids that do not contain the proper bid bond where required; failure to meet the specified qualifications, product specifications, stipulated documentation or pricing equal to or better than individual entities or cooperatives with equal or lesser volume. Bids deemed non-responsive bids will not be considered for approval and award.
3. **Responsible Bidder:** A responsible Bidder is a firm or person with the qualifications, capability and capacity to perform the contract requirements with integrity and reliability, which will assure a good faith performance. AEPA's approval of a Bidder's response will make the Bidder available for consideration to the AEPA Member Agencies for contract award. If a Bidder is approved by AEPA, the AEPA Member Agency reserves the right to determine if said Vendor Partner is responsible in their respective state. Factors to be considered in determining whether the standard of responsibility has been met may include but is not limited to whether a Bidder has:
 - a. Submitted a responsive bid;
 - b. The qualifications stipulated herein that may include but are not limited to adequate financial resources, production or service facilities, personnel, service reputation and experience to make satisfactory delivery of the products, services, or construction, described in the invitation for bids to those AEPA member states who have indicated their participation;

- c. Methodology used by AEPA and its AEPA Member Agencies to approve prospective Vendor Partners and award contracts;
- d. Line Item Bid: Lowest responsive, responsible Bidder(s); or
- e. Catalog Bid: Lowest responsive, responsible Bidder(s) is/are determined based on the price evaluation criteria; and by a “Core List” and/or by creating a “Market Basket Study” to compare overall pricing between Bidders. A “Market Basket” is a list of items typically purchased by AEPA Member Agencies and their Participating Entities that represent a cross-section of the types of those items purchased. The selection and quantity of line items evaluated will be at the sole discretion of the AEPA evaluators;
- f. The evaluation committee may consider such factors as life-cycle costs, total cost of ownership, quality, and the suitability of an offering in meeting AEPA members' needs.
- g. Based on the cost evaluation, a recommendation will be made to approve a single Bidder or make a multiple Bidder award.

G. Contract Award and Implementation

An AEPA category committee will perform initial bid response review and evaluation and will prepare and make a recommendation to AEPA for its consideration and approval. Those selected Bidders who are approved by AEPA will then be considered by the individual AEPA Member Agencies for contract award. It should be noted that once AEPA has approved the bid response, a Bidder becomes a “Vendor Partner” for AEPA.

Recommendations for approval by AEPA will be posted to Public Purchase and the AEPA website.

Once the approved Bidders have been notified, it is their responsibility to contact those AEPA Member Agencies (up to 28) who had indicated an interest in participating and send Part C (if applicable), Part D, E and F to each of the participating AEPA Member Agencies. Each AEPA Member Agency will review, evaluate and determine which, if any, it will award contracts to.

The approved Vendor Partner and the AEPA Member Agency will hold final contract negotiations, if necessary, to work out state specific details of contract implementation including:

1. Acquiring additional information and having discussions on how the awarded contract will be executed.
2. Signing the contract with the AEPA Member Agency.
3. Jointly develop marketing strategies and a plan for contract roll-out activities to the AEPA Member Agency's Participating Entities (Advertising, flyers, website access, etc.).
4. Establish how orders will be processed, handled and reported.
5. Contract management: Establish how and by whom the day-to-day contract management will be handled and who will be the AEPA Member Agency's representative.

It is not guaranteed that each AEPA Member Agency will enter into a contract with AEPA approved Vendor Partners. The final decision as to the appropriateness of a contract for a Member Agency rests solely with that AEPA Member Agency.

III. Responsibilities of A Vendor Partner

A. As an approved AEPA Vendor Partner, the following is expected in support of the contract:

1. Designate and assign a dedicated senior-level contract manager (one authorized to make decisions) to each of the Member Agency accounts. This employee will have a complete copy and must have working knowledge of the contract.
2. Train and educate sales staff on what the AEPA cooperative contract is including pricing, who can order from the contract (by state), terms/conditions of the contract and the respective ordering procedures for each state. It is expected that Vendor Partners will lead with AEPA contracts.
3. Develop a marketing plan to support the AEPA contract in collaboration with respective AEPA Member Agencies. Plan should include, but not be limited to, a website presence, electronic mailings, sales flyers, brochures, mailings, catalogs, etc.
4. Create an AEPA-specific sell sheet with a space to add a Member Agency logo and contact information for use by the Member Agencies and the Vendor Partner's local sales representatives to market within each state.
5. On a quarterly basis, complete the sales and administrative fee report (see PDF template) and submit to each Member Agency along with the respective administrative fees to be paid. If there are no sales, a \$0 report is required.
6. Report sales and administrative fees by participating state if requested by AEPA.
7. Have ongoing communication with the Category Committee Chairperson, AEPA Member Agencies and the Member Agencies Participating Entities.
8. Annually attend two (2) AEPA meetings: Annual meeting which is typically in April and the Winter Meeting which is typically the end of November or early December and has historically been held in conjunction with the Association of Educational Service Agencies (AESAs) annual conference. At the Annual meeting, Vendor Partners participate in a round table meeting with each of the AEPA Member Agencies. Vendor Partners that have paid the registration fees can participate in the meetings.
9. Trade show support: Strongly encourage participation in national and local conference trade shows to promote the AEPA contracts such as, but not limited to, the Association of School Business Officials (ASBO), the National Institute of Governmental Purchasing (NIGP), and the National Association of Educational Procurement (NAEP).
10. Increasing sales over the term of the contract with all participating AEPA Member Agencies.

IV. Responsibilities of AEPA Member Agencies

A. In support of the Vendor Partner and respective contract, each AEPA Member Agency should provide the following support:

1. Designate a staff member(s) that will serve as a point person for the AEPA program within that state.
2. Provide a staff member to work collaboratively with the Vendor Partner to determine the best marketing plan for the respective Member Agency state. Marketing efforts may include but not be limited to the education and use of sales force, a website presence, electronic mailings, brochures, mailings, etc.
3. Develop marketing materials for the Member Agency to use that would include representation of the awarded contracts. Materials may include, but not be limited to, a website presence, electronic mailings, sales flyers, brochures, mailings, catalogs, etc. as determined by the respective Member Agency and what works best within their state.
4. Assist the Vendor Partner to jointly market the contract to potential Participating Entities within the state.
5. Work with the Vendor Partner to identify eligible Participating Entities within the state possibly including providing a list of potential customers.
6. Work with the Vendor Partner to identify and help manage costs associated with fulfilling this contract.

7. Attendance at the two (2) AEPA meetings which provides for opportunity to interact with Vendor Partners.

V. General Terms and Conditions for All Agencies

For the purposes of this INVITATION FOR BID, the following terms shall be defined as indicated below, and constitute the general terms and conditions for all AEPA Member Agencies:

Administrative Fee: The percentage of sales that each Vendor Partner pays the Member Agency for sales in their respective state or states that they extend the AEPA pricing to. Administrative Fees shall be paid to each Member Agency on a quarterly basis. See the Summary of State General Overview for the administrative fees by Member Agency (state).

Advertising: Vendor Partner shall not advertise or publish information concerning this contract prior to the award being announced by the AEPA Member Agencies. Once the award is made, the Vendor Partner may advertise to the individual Participating Entities that products/services are available. Vendor Partner shall submit ad copy to the AEPA Member Agency for review and approval prior to issuing the advertisement.

AEPA Bi-Annual Meetings: AEPA holds two general meetings each year: one in the Spring (usually in the months of April or May) and the other in the Fall (currently the week after Thanksgiving). AEPA requires that all successful contract holders attend both meetings and participate in the vendor round tables at the Spring meeting. AEPA request that all vendor partners register in advance and stay at the AEPA official hotel if rooms are available. All registrations for the meetings are required by the official registration due date as announced by AEPA.

AEPA Member Agency: Refers to the entities identified in the table in Part I of this document. Member Agencies participating in a particular bid category are listed on the table presented in Part B - Specifications, Item 3: Anticipated Member Agency Participation. "Direct or Indirect Participation" may include their involvement through the formulation of any part of a procurement activity; the influencing of the content of any term, condition and/or specification; the evaluation, investigation, auditing and/or the rendering, of advice, recommendation, decision, approval, disapproval and the award and implementation of procurement contract. Not every listed entity may elect to participate in this bid once the responses are reviewed and approved.

Affirmative Action: An Affirmative Action Plan, Certificate of Affirmative Action, or other documentation regarding Affirmative Action may be required by AEPA Member Agencies. Vendors must comply with requirements and/or requests for information regarding Affirmative Action by Member Agencies.

Amendment of Bid: A bid may be amended up to the time of opening by submitting a sealed letter to the place where the bids are received as indicated on the front of this solicitation.

Applicable Law: The laws of the state of the respective AEPA Member Agency shall govern any resulting contract of this bid. Suits pertaining to this contract may be brought only in courts in the County and State as prescribed by the AEPA Member Agency. Both parties agree that the Uniform Commercial Code, as adopted by the State of the AEPA Member Agency, shall fully apply. The Vendor Partner shall comply with any and all laws, whether local, state, federal or otherwise, applicable to any aspect of the work to be performed in relation to the resulting contract. It shall be the Vendor Partner's responsibility to identify, make themselves aware of and determine the applicability and requirements of any such laws and to abide by them.

Approval and Awarding of Contract: AEPA and its AEPA Member Agencies reserve the right to approve and award a contract to one Bidder, to make multiple approvals and awards, to reject any or all bids in whole or in part, to waive any minor formalities or irregularities in any bids, and to accept

bids, which in its discretion and according to law may be in the best interest of the AEPA Member Agencies and their Participating Entities. A response to this solicitation is an offer to contract with the AEPA Member Agencies based upon the terms, conditions, and scope of work and specifications contained in this invitation. A solicitation does not become a contract unless and until it is accepted, recommended and approved by AEPA and awarded by the individual AEPA Member Agency. A contract is formed when an AEPA Member Agency administrator and, if required, an AEPA Member Agency Board approves and signs the Acceptance of Bid and Contract Award Form (see Form E) document, eliminating the need for a formal signing of a separate contract.

Assignment: No right or interest in this contract shall be assigned or transferred by the Vendor Partner without prior written permission by AEPA and its AEPA Member Agencies, and no delegation of any duty of the Vendor Partner shall be made without prior written permission by the AEPA Member Agency. AEPA and its AEPA Member Agencies shall not unreasonably withhold approval and shall notify the Vendor Partner within fifteen (15) days of receipt of written notice by the Vendor Partner.

Audit Rights: In accordance with applicable law of the State of the AEPA Member Agency, the Vendor Partner's books and pertinent records related to this contract may be audited at a reasonable time and place.

Authority: This solicitation, as well as any resulting contract/agreement, is issued under the general authority of the State laws of the AEPA Member Agency and those identified within the AEPA Member Agencies' Specific Terms and Conditions, Part C, (see also Procurement Code). Internal or external Cooperative Purchasing Agreements between the AEPA Member Agency and Participating Entities may exist.

Bid Opening: Bids shall be opened in the manner designated in this document.

Bidder/Vendor Partner Definitions:

Bidder, Offeror and Vendor Partner are interchangeable and are used to identify the person(s) or firm(s) submitting a response to an Invitation for Bid.

1. Prospective Bidder: has notified AEPA of a desire to bid by registering on the AEPA website. "Bidder" has submitted a bid to AEPA in response to an Invitation for Bid (IFB).
2. Recommended Bidder: has been approved by AEPA for its AEPA Member Agencies for contract consideration.
3. Vendor Partner: has entered into a contract with a participating AEPA Member Agency or subsequently a Participating Entity.

Bidder Acceptance Period: In order to allow AEPA Member Agencies the opportunity to evaluate the bids, AEPA requires that a bid in response to this solicitation be valid and irrevocable for one hundred twenty-days (120) after opening time and date.

Bonding (required for construction projects): The Vendor Partner agrees to provide all performance and payment bonds executed by a surety company authorized to do business in the individual AEPA Member's state and said surety to be approved in federal circular 570 as published by the United States treasury department, the state or the local governing authority, in an amount equal to one hundred percent of the price specified in the contract; when required by an AEPA Member Agency or Participating Entity at the time a contract is executed. If the Vendor Partner fails to deliver any required performance or payment bonds, the AEPA Member Agency or Participating Entity shall not execute the contract with the Vendor Partner and the appropriate AEPA Category Committee shall be notified of such failure and shall take the appropriate action.

Brand Names: The use of the name of a manufacturer, brand, make or catalog number does not restrict the Bidder. Brand names and model numbers are used to indicate the character, quality and/or performance equivalence of the commodity on which bids are submitted. Bidders may submit alternates. However, the AEPA reserves the right to decide whether alternatives to the identified manufacturer and brand are in fact equal to the product, equipment and/or service described in the invitation. AEPA's decision shall be final.

Buyer: Identifies the AEPA Member Agencies and their Participating Entities that acquire and purchase commodities, supplies, materials, equipment and services under AEPA Member Agencies' awarded contracts.

Captions, Headings and Illustrations: The captions, illustrations, headings and subheadings in this solicitation are for explanation only and in no way define, limit or describe the scope or intent of the request.

Certification: By signature in the bid section of the Contract Award page, the Bidder certifies: the submission of the bid did not involve collusion or other anti-competitive practices; the Bidder shall not discriminate against any employee, or applicant for employment in violation of Federal and State Laws (see Federal Executive Order 11246); the Bidder has not given, offered to give, nor intends to give at any time hereafter any economic opportunity, future employment, gift, loan, gratuity, special discount, trip, favor or service to a public servant in connection with the submitted bid; and the Bidder agrees to promote and offer to AEPA Member Agencies and Participating Entities only those materials and/or services as stated in and allowed under resultant contract(s) awarded.

Christian Doctrine: Any federal, state and local governing authority's/jurisdiction's statutes, codes, rules and regulations referenced and/or govern the products, services and activities relating to and are part of this solicitation, whether or not physically noted or included, shall be complied with and adhered to as required. It is sole responsibility of the Bidder to perform and complete any necessary research and investigation required to make themselves aware of and comply with this item.

Clarification: As used in this solicitation, clarification means communication with a Bidder for the sole purpose of eliminating minor irregularities, informalities or apparent clerical mistakes in the bid. It is achieved by explanation or substantiation, either in response to an inquiry by the AEPA Member Agency or as initiated by the Bidder. Clarification does not give the Bidder an opportunity to revise or modify its bid.

Commercially Available Catalog: A published paper catalog or an online website that is widely distributed or accessible. It is made available to the general public or schools and contains a verifiable price, along with product descriptions, SKU numbers, and photographs. A commercially available catalog is distinct from a custom catalog or website, whose prices and offerings are tailored to niche audiences.

Competitive Range: AEPA and its AEPA Member Agencies reserve the right to establish a competitive range of acceptable responses as part of the evaluation process as defined herein. Responses below the competitive range will be determined to be unacceptable and will not receive further consideration.

Contract Documents: AEPA Member Agency will review proposed contract documents. Vendor Partner's contract document shall not become part of AEPA Member Agency's contract with Vendor Partner unless and until an authorized representative of an AEPA Member Agency reviews and accepts it.

Construction: Each AEPA Member Agency within their state statutes defines what constitutes construction, identifies the policies, rules, regulations and codes that govern construction projects.

AEPA has defined construction as building, altering, repairing, installing or demolishing in the ordinary course of business any road, highway, bridge, parking area or related project; building, stadium or other structure; airport, subway or similar facility; park, trail, athletic field, golf course or similar facility; dam, reservoir, canal, ditch or similar facility; sewage or water treatment facility, power generating plant, pump station, natural gas compressing station or similar facility; sewage, water, gas or other pipeline; transmission line; radio, television or other tower; water, oil or other storage tank; shaft, tunnel or other mining appurtenance; electrical wiring, plumbing or plumbing fixture, gas piping, gas appliances or water conditioners; air conditioning conduit, heating or other similar mechanical work; or similar work, structures or installations. Construction shall also include: leveling or clearing land; excavating earth; drilling wells of any type, including seismographic shot holes or core drilling; and similar work, structures or installations.

Cooperative Procurement: Some individual state procurement codes may contain cooperative purchasing statutes that state any state agency or local public body may either participate in, sponsor or administer a cooperative procurement agreement for the procurement of any services, construction or items of tangible personal property with any other state agency, local public body or external procurement unit in accordance with an agreement entered into and approved by the governing authority of each of the state agencies, local public bodies or external procurement units involved. The cooperative procurement agreement shall clearly specify the purpose of the agreement and the method by which the purpose will be accomplished. Any power exercised under a cooperative procurement agreement entered into pursuant to each state's procurement code shall be limited to the central purchasing authority common to the contracting parties, even though one or more of the contracting parties may be located in different states.

Cooperative Purchasing Contracts: The Bidder agrees that all the prices, terms, warranties and benefits granted by the Bidder to AEPA Member Agencies or Participating Entities through this contract **will be equal to or better than** those offered to any individual entities or cooperatives that have equal or lesser volume. If the Bidder shall, during the term of this Contract, enter into arrangements with any customer or cooperative providing greater benefits or terms that are more favorable, the Bidder shall notify the AEPA category committee chairman and offer said prices, terms, warranties and benefits to all AEPA Member Agencies. The following shall be noted:

1. AEPA and its AEPA Member Agencies reserve the right to accept or reject the Bidder's response if it is determined it does not comply with the above based on their knowledge, investigation, review and findings of Bidders' submitted prices.
2. In the event the Vendor Partner offers lower prices to another customer or cooperative, AEPA and its AEPA Member Agencies shall notify the Vendor Partner of the deviation and request written justification. Based on AEPA and its AEPA Member Agencies' investigation, review and findings, AEPA reserves the right to take the following actions: to request the Vendor Partner to immediately adjust its AEPA's offered prices to match the lower prices offered, to work with the Vendor Partner to mediate and resolve the situation; or to notify the Vendor Partner that it intends to suspend and/or terminate their contract.

Cost of Bid Preparation: Neither AEPA nor any AEPA Member Agency shall reimburse the cost of developing, presenting or providing any response to this solicitation.

Credit Hold: The Bidder must agree not to place the AEPA Member Agency and/or its Participating Entity on "credit hold" without 10-days advanced notice in writing, either by letter, facsimile or email to the AEPA Member Agency and the Participating Entity. The AEPA Member Agencies believe it is better for the Vendor Partner if the AEPA Member Agency places the slow-paying Agency Member on "credit hold;" if a Vendor Partner places the Participating Entity on credit hold, agencies that pay promptly are penalized. If, on the other hand, the Member Agency places the offending Participating Entity on "credit hold", payment is more likely to result and only the offender is disciplined.

Delivery Terms, Conditions and Requirements

1. **Delivery:** is to be made within the specified time identified in Part B Specifications for each bid category, unless otherwise stipulated in writing and accepted by all parties (Buyer placing order and Vendor Partner). The Vendor Partner agrees to notify Buyer if an order cannot be processed within the specified period and/or the agreed upon timelines.
2. **The title and risk of loss of material or service:** shall not pass to the Buyer purchasing the material or services until it actually receives the material or service at the point of delivery (FOB Destination) and they have been accepted, unless otherwise provided within this document or individual project's contract.
3. **Ownership of products and services:** happens only after receipt and acceptance of delivery by the Buyer. The Buyer will be the determining judge of whether materials and services delivered under the purchase order/contract satisfy the specifications and requirements as identified in the contract/order.
4. **Fungible Goods:** Title to an undivided share or quantity of an identified mass of fungible goods will not pass to a Buyer until a separation of the purchased share has been made, delivered and received.
5. **Shipping Terms:** (See Part B Specifications for specific instructions on shipping and handling costs for the individual category you are bidding on.) Vendor Partner shall retain title and control of all goods until they are delivered and received. All risk of transportation and all related charges shall be the responsibility of the Vendor Partner, unless other arrangements have been made between the vendor partner and the AEPA Member Agency. Shipping shall be F.O.B. destination. The Vendor Partner shall file all claims for visible or concealed damage. AEPA Member Agency, or the receiving Buyer, will notify the Vendor Partner and/or Freight Company promptly of any damaged goods and shall assist the freight company/Vendor Partner in arranging for inspection. No F.O.B. vessel, car or other vehicle terms will be accepted.
 - a. **Shipping Costs:** Products may be shipped without separate shipping costs. If shipping is allowed as a separate line item per Part B Specifications and charged, the actual cost of delivery may be added to an invoice. No COD orders will be accepted unless specifically requested by the AEPA Member Agency.
 - b. **Shipment under Reservation:** Vendor Partner is not authorized to ship materials under reservation and no tender of a bill of lading will operate as a tender of the materials.
 - c. **Shipping Errors:** Vendor Partner agrees that shipping errors will be at the expense of the Vendor Partner. For example, if a Vendor Partner ships a product that was not ordered, it is the responsibility of the Vendor Partner to pay for return mail or shipment.
6. **Stored Materials (Vendor managed inventory):** Upon prior written agreement between Vendor Partner and Buyer, payment may be made for materials not incorporated in the work but delivered and suitably stored at the site or some other location, for installation at a later date. An inventory of the stored materials must be provided to Buyer prior to payment. Such materials must be stored and protected in a secure location, and be insured for their full value by Vendor Partner against loss and damage. Vendor Partner agrees to provide proof of coverage and/or addition of Buyer as an additional insured upon Buyer's request. Additionally, if stored offsite, the materials must also be clearly identified as property of Buyer and be separated from other materials. Buyer must be allowed reasonable opportunity to inspect and take inventory of stored materials, on or offsite, as necessary. Until final acceptance by Buyer, it shall be Vendor Partner's responsibility to protect all materials and equipment. Vendor Partner warrants and guarantees that title for all work, materials and equipment shall pass to Buyer upon final acceptance. Payment for stored materials shall not constitute final acceptance of such materials.
7. **Improper delivery:** Unless contrary to other parts of this solicitation, if the goods, services or tender of delivery fail in any respect to conform and adhere to the terms, conditions, specifications of the resulting contract based on this solicitation and/or the individual Buyer's contract/order. The Buyer may reject the whole, accept the whole, or accept any commercial unit or units and reject the rest.
8. **Defective Goods:** Vendor Partner agrees to pay for return shipment on goods that arrive in a defective or inoperable condition. Vendor Partner must agree to arrange for return shipment of damaged goods.

9. **Liquidated Damages:** The Buyer may suffer financial loss if the project is not substantially complete or products or services are not delivered on the established date. The Vendor Partner (if applicable Surety) shall be liable for and shall pay to the Buyer, not as a penalty, the sums that may be hereinafter agreed upon as liquidated damages per calendar day of delay until the work and/or delivery is determined by Buyer to be complete and/or delivered. Liquidated damages will be determined on a project-by-project basis.
10. **No Replacement of Defective Tender:** Every tender of materials must fully comply with all provisions of this contract. If tender is made which does not fully conform, this shall constitute a breach and Vendor Partner shall not have the right to substitute a conforming tender without written consent of all parties involved.
11. **Default in One Installment to Constitute Total Breach:** Vendor Partner shall deliver conforming materials in each installment or lot of this contract and may not substitute nonconforming materials. The AEPA Member Agency reserves the right to declare a breach of contract if the Vendor Partner delivers nonconforming materials or services to any Buyer under this contract.
12. **Restocking Fees:** A restocking fee may only be charged on products ordered and that have been delivered to the Buyer's site in accordance with the order/contract. Restocking fees in excess of 15% will not be allowed. Restocking fees may be waived, at the option of the Vendor Partner. The Vendor Partner must identify, specify and justify any exceptions or deviations taken.

Deviations or Exceptions to Requirements: Deviations or exceptions stipulated in a Bidder's proposal may result in rendering of the response non-responsive. AEPA and its AEPA Member Agencies reserve the right to determine whether the deviation or exception does or does not serve the interest of or is not advantageous or acceptable to AEPA, its AEPA Member Agencies or Participating Entities.

Disbarment and Suspension: By signature accepting Terms and Conditions, it is certified on behalf of the company and their key employees that neither the company nor its key employees have been proposed for debarment, debarred, or suspended by any State or Federal Agency within the last five (5) years.

EDGAR Compliance: Bidders are required to complete Education Department General Administrative Regulations (EDGAR) compliance certification. EDGAR regulations govern all federal grants awarded by the U. S. Department of Education on or after December 26, 2014.

Eligible Entities: The individual AEPA Member Agency's state procurement code and statutes provides for cooperative procurement and identifies those types of agencies, entities and organizations that are allowed to participate in and take advantage of cooperative procurement contracts solicited and approved by AEPA and awarded by AEPA Member Agencies. Therefore, depending on the individual state procurement codes and statutes federal agencies, state agencies, local public bodies and Non-Profit/Non-Public entities may be allowed to participate in and utilize AEPA solicited, approved and AEPA Member Agency awarded contracts.

Estimated Quantities: In Part B: Bid Specifications of this solicitation AEPA and AEPA Member Agencies have indicated their anticipated volume for the products and services being solicited in this solicitation. It is anticipated that a considerable amount of activity will result from this solicitation; however, there is no guarantee of future order quantities due to the fact that this is an indefinite quantity contract. Usage depends on the actual needs of the AEPA Member Agencies, their Participating Entities and the marketing by the Vendor Partner.

Experience, Proven Track Record and Past Performance Information: has been determined by AEPA and its AEPA Member Agencies to be a major factor in consideration if a Bidder possesses the ability, capacity and resources to acquire, manufacture, deliver, construct, install, services and support all of the procurement functions and activities involved in a national contract of this nature. AEPA and its AEPA Member Agencies reserve the right to accept or reject an offer, if in its judgment, the Bidder

failed to demonstrate the following: a proven track record in the products and services offered (qualifications, knowledge and background); is willing and able to deliver the proposed products and/or services to ninety (90%) percent of those participating AEPA Member Agencies identified in Part B (unless otherwise noted in Part B.): Specifications; and has provided relevant information regarding its actions under previously awarded contracts to schools, local, state, or federal agencies. It includes the Bidder's record of conforming to specifications and to standards of good workmanship; the Bidder's record of containing and forecasting costs on any previously performed cost reimbursable contract schedules, including the administrative aspects of performance; the Bidder's history for reasonable and cooperative behavior and commitment to customer satisfaction; and generally, the Bidder's businesslike concern for the interests of the customer.

External Procurement Unit: means any procurement organization not located in a current AEPA Member Agency state which, if located in the state, would qualify as a federal or state agency or a local public body. Various state procurement codes allow external procurement units to offer their contracts and for agencies within those states to utilize those contracts to acquire goods and services.

Federal Agency [25] USC 3001 (4): Is defined as any department, agency, or instrumentality of the United States, any executive department, military department, government corporation, government-controlled corporation, or other establishment in the executive branch of government, including the Executive Office of the President or any independent regulatory agency established through legislative and/or administrative action.

Federal Requirements: Vendor Partner agrees, when working on any federally assisted projects with more than \$2,000 in labor costs, to comply with the Contract Work Hours and Safety Standards Act (40 U.S.C. 328 et seq.) and all applicable sections of the act and the Department of Labor's supplemental regulations (29 CFR parts 5 and 1926), the Civil Rights Act of 1964 as amended, the Davis-Bacon Act (Section 29, CFR Part 5), the Copeland "Anti-Kickback" Act (18 U.S.C. 874) as supplemented in the Department of Labor regulation (29 CFR part 3), and the Equal Opportunity Employment requirements of Executive Order 11246 as amended by Executive Order 11375 (Labor regulations (41 CFR Part 60)). In such projects, the Vendor Partner agrees to post wage rates at the work site and submit a copy of their payroll to the AEPA Member Agency for their files. In addition, to comply with the Copeland Act, the Vendor Partner must submit weekly payroll records to the AEPA Member Agency. The Vendor Partner must keep records for three (3) years and allow the federal grantor agency access to these records, upon demand. All federally assisted contracts to an AEPA Member Agency that exceed \$10,000 may be terminated by the federal grantee for noncompliance by the Vendor Partner. In projects that are not federally funded, Bidder must agree to meet any federal, state or local requirements, as necessary. In addition, if compliance with the federal regulations increases the contract costs beyond the agreed on costs in this solicitation, the additional costs may only apply to the portion of the work paid by the federal grantee. On all other projects, the prices must agree with this contract. Vendor Partner shall comply with all applicable standards, orders, or requirements issued under Section 306 of the Clean Air Act (42 U.S.C.) 187 [h], and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251 et. Seq.); and, Executive Order 11738 and Environmental Protection Agency (EPA) regulations (40 CFR Part 15), which prohibit the use under non-exempt federal contracts, grants, or loans of facilities included in the EPA list of violated facilities

Force Majeure: Except for payments of sums due, neither party shall be liable to the other, nor be deemed in default under this contract, if, and to the extent, that such party's performance of this contract is prevented by reason of force majeure. The term "force majeure" means an occurrence that is beyond the control of the party affected and occurs without its fault or negligence, including, but not limited to the following: acts of God; acts of the public enemy; war; riots; strikes; mobilization; labor disputes; civil disorders; fire; flood; blizzards; earthquakes; tornadoes or violent winds; hail storms; lockouts; injunctions-intervention-acts, or failures or refusals to act by government authority; and other similar occurrences beyond the control of the party declaring force majeure, which such party is unable to prevent by exercising reasonable diligence. The force majeure shall be deemed to commence

when the party declaring it notifies the other party of the existence of the force majeure, and shall be deemed to continue as long as the results or effects of the force majeure prevent the party from resuming performance in accordance with the contract. Force majeure shall not include late deliveries of equipment or materials caused by congestion at a manufacturer's plant or elsewhere, an oversold condition of the market, inefficiencies, or similar occurrences. If either party is delayed at any time by force majeure, the delayed party shall notify the other party in writing of such delay within forty-eight (48) hours.

Pricing: AEPA has identified and stipulated the type of bid and the pricing methodologies that are to be utilized to price and submit bid prices. The Vendor Partner agrees that the cost for any item bid or offered on this contract will be uniform for all states, and that any differences in pricing are due to state specific installation and labor costs, AEPA Member Agency's Administrative Fee, or other approved reasons. The Bidder must provide their pricing as requested utilizing the various pricing methodologies specified. **The Bidder/Vendor Partner must agree that they will not offer or provide a better price to any individual entities or cooperatives with equal or lesser volume than that through AEPA.** Please note the following that relate to pricing:

1. **Primary Pricing Strategies:** All Bidders will be required to submit "Primary Pricing" in the form of either "Catalog Pricing" or "Line-Item Pricing" or a combination of these two pricing strategies as defined in Part B, bid specifications. Bidders are also encouraged to offer OPTIONAL pricing strategies including "Hot List" and "Volume Discounts".
 - a. **Catalog Pricing:** Catalog pricing is utilized when the products and/or services solicited are clearly identified with set and specific characteristics, attributes and configurations that are identifiable as a stand-alone single unit and can be listed and priced as a single unit with options that can be added to enhance and/or improve its operation and functionality. The Bidder offers a fixed discount(s) off retail price, catalog price, published price or list price. The discounts may be for the entire commercially available catalog, for specific products, product lines, manufacturers or category of products as determined by the Bidder.
 - i. **Discounts:** Discount offers must clearly identify percent of discount to apply to a commercially available catalog, manufacturer, MSRP, retail or nationally published price lists. Bidders shall identify and stipulate if the discounts apply to the entire catalog/price list, specific product lines, manufacturers and/or categories of products. Bidder shall agree that there will be no reduction in discount(s) during the term of the contract.
 - ii. **New Catalogs/Price Changes:** New catalogs and corresponding nationally published price lists may be submitted throughout the term of the contract and

shall be submitted to the AEPA Category Committee for review prior to release to all AEPA Member Agencies. Prices may change based on manufacturer's price changes, new published pricing or price lists, but the original discount bid shall remain firm for the duration of the contract.

- iii. **Core List:** In a Catalog Priced bid, a category (i.e. office supplies) may include a "core list" which contains a selection of the most commonly used products/services with the expectation that a deeper discount would be bid for these items. If a new catalog and price list is published during the contract term, the original discounts shall be applied to the new published prices to establish the AEPA price for these core items.
 - iv. **Product Addition/Discontinuation:** New products, within the same scope of work, may be added at the established percentage discounts at any time. Discontinued products may be dropped at any time during the year. In the event a Core item is discontinued by the manufacturer during the term of the contract, Vendor Partner is required to add a functionally equivalent substitute at the same discount structure.
- b. **Line-Item Pricing:** Line-item pricing is utilized when products and/or services that are broken down in detail by element, component, product categories, product type and each product and/or service is presented as an individual item which needs to be combined with other items to make up a final project or solution. The Bidder offers firm pricing for specific line items in response to this bid; a project's cost is derived by the Vendor Partner preparing and providing a quote based on the project's terms, conditions and requirements based on the line item pricing provided in the bid. The information provided in this bid for each item includes: Product Category, Product Description, Manufacturer, Manufacturer SKU, Vendor SKU, Unit of Measure, Item List Price, AEPA Bid Price.
- i. **Fixed prices:** Prices bid shall be firm until each anniversary date of contract, unless there is an occurrence of one or more economic price adjustment contingencies outlined in the bid. Fixed price offers shall include prices for any and all items.
 - ii. **Routine Price Adjustments (Without Economic Price Adjustment):** Vendors may request adjustments to the prices by submitting a fully documented written request to the AEPA Category Committee Chairperson. The request must specifically detail and document the cause and/or reason for price changes and include any supporting documentation (manufacturer's letter, indexes, etc.). All price changes require approval by the AEPA Category Committee and Member Agencies.
 - iii. **Unpredictable Economic Price Adjustment:** If economic price adjustment contingencies occur, Vendor Partner may submit a fully documented request (manufacturer's letter, indexes, etc.) for price adjustment to AEPA Category Committee for review and approval by the committee and the AEPA Member Agencies. The documentation must substantiate the cause and/or reason for the requested price increase and demonstrate that it was unpredictable at the time of bid submittal and/or contract renewal and out of the Vendor Partner's control. Pricing will take effect thirty (30) days after approval and acceptance.
 - iv. **New Products/Services:** Vendor Partner may submit new products or technologies that are within the original scope of work for the bid, to be added to the contract pending review and approval of the AEPA Category Committee. Requests should be submitted to the AEPA Category Committee for review and written approval.
- c. **Automated System for Pricing (ASP):** The method consisting of an ASP and/or software application (e.g. RSMean) that is self-contained and consists of a turn-key solution that includes a complete line-item listing of all of the products, supplies, materials, equipment, services, accessories and options with their description, specifications, terms, conditions and associated pricing for each item, sub-assemblies and/or assemblies. The Bidder provides a percent of discount or fixed multiplier/factor to be applied to total project cost to allow for individual state conditions and requirements and to arrive at the AEPA price.

- d. **RSMeans (Construction Related Bids only):** It is important for Vendor Partners to breakout all costs (quantity and price) of all items listed under RS Means or an Alternative Pricing method. This includes all quoted items not on the approved AEPA bid submittal. The following are minimum requirements for using RSMeans for quoting projects to AEPA Member Agencies:
- i. The Contractors must use the current year and standard cost data. Only the following cost data titles will be excepted:
 - a. Building Construction Cost Data Book
 - b. Facilities Construction Cost Data
 - c. Facilities Maintenance & Repair Cost Data
 - d. Site Work & Landscape Cost Data Book
 - ii. All work proposed under RSMeans must use RSMeans format, even if subcontractors are used.
 - iii. An RSMeans spreadsheet must be submitted to substantiate the quote given to the AEPA Member Agency. The spreadsheet columns must reveal the full RSMeans number and a sufficient amount of the description. This also applies to change orders.
 - iv. Pricing must be done by Location codes. National Average will not be allowed. In order to choose the "closest" location code, the first three (3) numbers of the zip code will be used to determine the city location index in the AEPA Member Agency State.
 - v. The AEPA contract holder factor, bonding cost, AEPA discount and taxes if applicable must be shown as separate line items at the bottom of the RSMeans spreadsheet. This information can be shown on a separate summary sheet. The summary sheet must start with the RSMeans spreadsheet total and show the detail for each of the items stated above. This detail will be provided to that AEPA State Agency and the AEPA Buyer as required.
 - vi. All change orders which list items covered by RSMeans must be supported by an RSMeans spreadsheet.
- e. **Alternative Method of Costing:** This method covers any product and/or service not covered by catalog pricing, published price list, line-item price list, automated system for pricing, or is a product and/or service due to the projects or applications specifications, conditions and /or requirements that need to be custom designed, developed, manufactured and/or produced to meet the requirements of an individual, project or sole source. The alternative pricing is calculated as follows:
- i. The Bidder must prepare, issue and receive three written quotes from available suppliers and select the supplier that offers the products and services that meet the stipulated requirements and specifications, offers the best value, and the most cost effective solution. All quotes must be made available upon request.
 - ii. The Bidder must indicate the percent of overhead and /or markup as part of their response to be added to these costs to obtain the normal and customary retail price.
 - iii. The AEPA price is calculated by taking the product and services to cost to the Contractor plus the indicated percent of profit/overhead to equal the normal and customary retail price. The Contractor will then subtract the approved AEPA discount to obtain the AEPA price. Example: item cost \$1,000; percent of profit/overhead of 20% equals retail price of \$1,200; less the AEPA discount of 10% or \$120 equals the AEPA price of \$1,080.
2. **Secondary Pricing Strategies (Catalog Bids only, see Part B for category designation):** Bidders are required to offer Customized Price Lists (Catalog Bids ONLY) and encouraged to offer Hot Lists and Volume Discounts as follows:
- a. **Customized Price List:** Bidders are required to offer customized price lists to Participating Entities for items within the Bidder's Commercially Available Catalog for Catalog Bids ONLY (not pertinent to Line Item Bids). Customized price lists shall be allowed under the following conditions:
 - i. Items within the Vendor Partner's Commercially Available Catalog may be included on

- the customized price list providing they are not already on the Core Item list.
- ii. Items are to be determined by the Participating Entity; Vendor Partner may object to up to ten (10) of the suggested items proposed by the customer and must offer substitutes until an agreement of the customized list is reached.
 - iii. Items on the customized price list shall be sold with an additional discount (deeper than what was originally bid on the non-core or catalog discount)
 - iv. Items may not include special order or customized service products unless agreed to by the Vendor Partner.
- b. **Hot List Pricing:** Bidders are invited, at their option, to offer a selection of products/services, defined as a Hot List, at greater discounts than those listed in the standard catalog or core list discounts. Special, time-limited reductions are permissible under the following conditions: The price reduction is available to all AEPA Member Agencies equally. The price reduction is for a specific time period, no less than thirty (30) days. May be used to discount and liquidate close-out and discontinued products/services as long as those items are clearly labeled as such. The original price for products/services is not exceeded after the time limit. The AEPA Category Committee and all AEPA Member Agencies shall be notified of any special or time limited price reduction. New prices must be on record fifteen (15) days prior to any offer of the new prices being proposed or offered to AEPA Member Agencies and Participating Entities. Pricing for all Hot List items must be updated on the Vendor Partner's online catalog and submitted to all AEPA Member Agencies in an electronic format that can be posted to websites, emailed and shared with Participating Entities/Buyers.
- c. **Volume Price Discounts:** Bidders are encouraged to offer additional pricing discounts that may be offered for a group of agencies in a local geographic area that desire to combine requirements (one time purchase or annual spend), i.e. local city, county, school district(s), etc. and/or for large one time purchases. Additional volume price discounts are permissible under the following conditions: Discounts should be tiered and based on spend ranges as established by the Bidder on the Pricing Forms. Volume determination shall be determined between the Vendor Partner and the individual Buyers on a case-by-case basis. All additional discounts are to be offered equally to all AEPA Member Agencies and Participating Entities and be based on the Volume Price Discounts originally bid providing the same or similar volume commitment, specific needs, terms and conditions, a similar time frame, seasonal considerations and provided the same manufacturer support is available to the Vendor Partner.

Prime Vendor Partner: For the purpose of this bid, a Vendor Partner will be considered a prime Vendor Partner and not a Subcontractor. Any Vendor Partner paid directly by the AEPA Member Agency or Participating Entity is a prime Vendor Partner; a Vendor Partner pays a Subcontractor. Prime Vendor Partners using Subcontractors are responsible for all actions of its Subcontractors.

When a brand name product is specified and is only available for a single source, Bidders are encouraged to offer alternative products which they believe to adhere to and comply materially, functionally and operationally equal to or better than the brand name product specified. Any Bidder believing a specification is unnecessarily restrictive, shall indicate such in the form of a question during the solicitation process and prior to bid due date. The fact that a manufacturer or supplier chooses not to produce or supply the commodity, supply, material, equipment, software or services to meet these specifications will not be considered sufficient cause to adjudge these specifications as restrictive. If the Bidder deviates from these specifications, reasons must be stated for such deviation and state why, in their opinion, the commodity, supply, material, equipment, software or services they bid will render equivalent reliability, coverage, performance and/or service. Failure to detail all such deviations may comprise sufficient grounds for rejection of the entire bid.

Values placed on trade-in products are between the Buyer purchasing the new unit and the Vendor Partner.

Type of Bids: Due to the various types, kinds and levels of products and services solicited by AEPA in its IFBs; the various pricing methodologies and/or methods utilized and offered to price the various products and services offered; and the type of contracts that results from any one of AEPA's/bids, AEPA has established the following two (2) types of bids.

1. Catalog Bid: A catalog bid is utilized when the products and /or services solicited are clearly identified with set and specific characteristics, attributes and configurations that are identifiable as a stand-alone single unit and can be listed and priced as a single unit with options that can be added to enhance and/or improve its operation and functionality. The Bidder offers a fixed discount(s) off retail price or prices in a Commercially Available Catalog. The discounts may be for the entire Catalog for specific products, product lines, manufacturers or category of products as determined by the Bidder. See the Pricing section for detailed information on Catalog pricing.

2. **Line Item Bid:** A Line-item bid is utilized when the products and services solicited cannot be identified or listed as a single unit; consists of a number of different variable and configurations, it is necessary to identify the specific project or application; the end product or solution is made of individually priced elements or components and the end product's or solutions' cost is derived by the Vendor Partner specially prepared and providing a quote based on the project's terms, conditions and requirements. See the Pricing section for detailed information on Line-Item pricing.

Vendor Partner: Bidder who has been approved and awarded a contract for the delivery of construction, tangible personal property, supplies, or services in response to this IFB.

Vendor Partner Contact: Vendor Partner will designate one individual who will represent them to the AEPA, its AEPA Member Agencies during the contract period. This contact person will correspond with each AEPA Member Agency for technical assistance, problems, or questions that may arise. If other staff, distributors and/or independent Vendor Partners will be performing the sales or support functions for different geographical areas (states), Vendor Partner shall include instructions and contact information that can be distributed to AEPA Member Agencies upon approval of this bid.

Warranty: Vendor Partner warrants that all commodities, supplies, materials, equipment, software and service delivered under this contract shall conform to the specifications of this contract. All items should carry a warranty equal to the intended life cycle or a minimum 12-month manufacturer's warranty that includes parts and labor unless otherwise specified and agreed to. The manufacturer has the primary responsibility to honor a manufacturer's warranty; a distributor or dealer agrees to assist the purchaser reach a solution in a dispute with the manufacturer over a warranty's terms. Any extended manufacturer's warranty will be passed on to the Buyer. For example, if a voice board has a three-year warranty, but the board is in a turnkey system that has a one-year warranty, the voice board's three-year warranty must be honored by the manufacturer and the Vendor Partner. All extended warranties must be passed on, without exception. If, upon discovery, the Vendor Partner charges a Buyer for a replacement part that the Vendor Partner actually received at no cost under a warranty, the Vendor Partner will rebate the amount billed and the Buyer reserves the right to cancel the contract.

ASTM F 1632-10 Standard Test Method for Particle Size Analysis and Sand Shape Grading of Golf Course Putting Green and Sports Field Rootzone Mixes - This test method covers the determination of particle size distribution of putting green and other sand-based root- zone mixes. Particles larger than 0.05 mm (retained on a No. 270 sieve) are determined by sieving. The silt and clay percentages are determined by a sedimentation process, using the pipet method. This procedure was developed for putting green rootzone mixes, those assumed to have sand contents of 80 % by weight or greater. This test method is used to determine the impact-attenuation characteristics of natural turfgrass and soil playing surface systems with a lightweight portable apparatus. This test method can be used to compare the impact attenuation characteristics of natural playing surface systems, as well as assessing the effects of management practices on the impact attenuation characteristics. This test method also can be used to assess the compatibility of natural playing surfaces by recording g-max values or penetration of successive impacts, or both. This test method provides a procedure for assessing impact attenuation characteristics in the field, on both actual playing surfaces and research plots.

9.1.39.	<p>Components for Synthetic Turf Systems to include but not limited to:</p> <ol style="list-style-type: none"> 1. Synthetic Turf Types: There are several different types of synthetic turf available. They are distinguishable through the use of different fibers and different construction. Differentiated by construction are the tufted or the knitted synthetic turf systems. Both systems are comprised of synthetic fibers with primary and secondary backing systems and a resilient shock absorbing system. The shock absorbing system can consist of infill, a padding system, or a combination of both. 2. Fiber: Typically, the fiber used in synthetic turf is textured and/or non-textured polypropylene, polyester, polyethylene, nylon or other suitable performing hybrid or copolymer in tape form or monofilament. Minimum fiber sizes are 50 microns for polypropylene or polyester, 100 microns for tape form (slit-film) polyethylene, 140-300 for monofilament polyethylene (shape dependent) and 500 denier for nylon. Fiber sizes for hybrids or copolymer will comply with the most closely related fiber type. Ideally, all fibers should be of the same chemical composition, shape, and texture. Fibers should be compliant to ASTM guideline for total lead content. 3. Fiber: Typically, the fiber used in synthetic turf is textured and/or non-textured polypropylene, polyester, polyethylene, nylon or other suitable performing hybrid or copolymer in tape form or monofilament. Minimum fiber sizes are 50 microns for polypropylene or polyester, 100 microns for tape form (slit-film) polyethylene, 140-300 for monofilament polyethylene (shape dependent) and 500 denier for nylon. Fiber sizes for hybrids or copolymer will comply with the most closely related fiber type. Ideally, all fibers should be of the same chemical composition, shape, and texture. Fibers should be compliant to ASTM guideline for total lead content. 4. Primary Backing Systems Material: The primary backing materials are of a woven or non-woven fabric in one or more layers which are utilized in the tufting process, or of high strength polyester multi-filament fiber utilized in the knitting process. This backing material provides the initial dimensional stability for the system. 5. Secondary Backing Systems Material: The secondary backing materials are applied through a coating process with a single or multiple applications of one or various materials. 6. Perforations: Depending on the final construction of the turf system, the system may or may not be permeable to water. Perforations are typically required of fully coated system backings to provide adequate vertical drainage throughout the system. Some turf systems may allow for drainage without perforations by employing a process of partial coating or other system designs. Developments in coating systems have provided for lighter weight and aqueous permeable chemicals; however, the drainage criteria must be met. 7. Infill Materials: The most recent generation of synthetic turf systems utilizes a long pile height and needs to be supported with infill materials for directional stability and structural integrity, as well as resiliency. The infill materials commonly used are EDPM, TPE, natural cork, ground fibers from coconut shells, coated and non-coated silica sand, crumb and coated rubber, other suitable materials, or combinations of sand, rubber, or other suitable materials
9.1.40.	<p>Synthetic Turf Performance</p> <ol style="list-style-type: none"> 1. Traction: The surface should provide good traction in all types of weather with the use of conventional athletic type shoes applicable to the sports and/or activity specified. 2. Rotational Resistance: The surface should allow for twisting movements as is common

Item	Description
	<p>in athletic activities. Rotational resistance measures the ability of the user to perform twisting motions when in contact with the surface.</p> <ol style="list-style-type: none"> 3. Slip Resistance Component: The system should enable a predictable range of movement between the user and the surface uniformly throughout. The surface should balance traction and slippage by way of the sliding coefficient. 4. Surface Abrasiveness: The field surface should have fibers and infill materials that minimize skin abrasions. 5. Impact Attenuation (g-max): The field surface should have the ability to adequately absorb player impact with the surface. The g-max and force reduction tests are two tests typically used. G-Max values may vary from location to location on a playing surface. Such variances shall be taken into account when setting maximum test values. A maximum, not-to-exceed limit should be specified for the life of the warranty. The STC's guideline is that g- max should be below 165 for the life of the field. 6. Surface Stability (vertical deformation): The surface should provide adequate stability so that the athlete can maintain body control to help prevent or properly control contact between athletes. This is an important consideration that should be balanced with the surfaces' ability to absorb impact. If the surface is too soft, the stability provided by the field may not be optimal for player movement and body control. 7. Ball-Surface Interaction: The synthetic turf playing field should provide consistent and predictable ball performance reaction characteristics. 8. Surface Uniformity: The synthetic turf playing field should be as level as practical. The synthetic surface shall provide a true and uniform playing surface throughout. 9. Ball Bounce: The synthetic turf field should provide a ball bounce as close to the optimal playing characteristics of the sport or sports. The published standards for the regulatory organizations as applicable for each sport should be referenced. 10. Ball Roll: The synthetic turf field should provide a ball roll as close to optimal playing characteristics of the intended sport or sports. The published standards for the regulatory organizations as may be applicable for each sport should be referenced. 11. Appearance: Unless otherwise dictated by design, the synthetic turf should have a consistent color, texture, and shade without significantly noticeable streaks or other irregularities when observed in any direction.

9.1.43.	<p>Other Considerations:</p> <ol style="list-style-type: none"> 1. The synthetic turf supplier, unless the base is part of their scope of work, should perform an inspection of the field planarity base on to which the synthetic turf system is to be installed and to examine the finished surface for required compaction, water permeability, and grade tolerances. After any discrepancies between the required materials, application, and tolerance requirements noted have been corrected, the owner's representative (architect/engineer) should review and approve for compliance with documents. The acceptance of the base construction should be included in the certification for warranty validation. 2. Extra Materials: the synthetic turf manufacturer and installation contractor can provide extra sections of synthetic turf material for future repairs. If necessary, this should include materials for all colors used with any lines, markings, and logos. Quantities to be predetermined. This allows for materials from the same manufacturing run to be utilized for minor repairs.
9.1.44.	<p>Drainage System Components</p> <ol style="list-style-type: none"> 1. The system chosen will depend on the use of the field, climate, amount of rainfall, and other factors. 2. The drainage system may include but not limited to the synthetic turf, pad, base materials, and collector pipes that collect and remove storm water from the playing field. The design of the drainage system is dependent upon local conditions, climates, and site constraints. The Rational Method, Hydrograph Analysis, or Time Series Method may be used to determine the rainfall run-off that must be accommodated by collector pipes. 3. Site Conditions: Rainfall duration intensity curves can be developed from the National Weather Service Technical Paper TP-40 Rainfall Frequency Atlas for the United States or coordinated with the local weather statistics at the location of the project site. Otherwise, unless agreed to by the end user, the design storm frequency should be as required by local regulations. Where no local regulation exists, a minimum 5-year design storm frequency is recommended for playing fields at grade. For fields requiring pump stations, a more conservative design frequency that is compatible with the design capacity of the pump station should be used. 4. Flow Time: The time interval for water to flow through the complete system to the collector pipes is based on permeability tests conducted in the laboratory for the design of the complete system. Flow through the base material can be enhanced by the use of composite drainage materials or lateral drain pipes that intercept the normal flow of water in the complete system and flow directly to the collector pipes. Flow rate into the lateral drainage system is dependent on the amount of available open space for water to enter the pipe. The geotextile cover on many composite drains can have varying effects on how fast water can enter the system over time. Care should be taken in evaluating these products and how the chosen base materials can affect water in-flow over time. 5. Collector Pipes: Collector pipes are typically perforated polyvinyl chloride (PVC) or polyethylene (PE) pipes. Size and type of perforations are dependent upon the size of the pipe. If perforations are larger than the smallest aggregate in the base material, then a geo-textile sock filter may be used to encapsulate the pipe care should be taken to ensure that the openings in the geo-textile fabric are compatible with the granular smaller components so that they do not block the pores and reduce water flow. A qualified civil or geotechnical engineer should be consulted to determine the suitability of using a product with a geo-textile sock in conjunction with the selected base materials as they can clog the sock over time and severely impede the performance of the system. Additionally, the compressive strength of various systems

Item	Description
	<p>can differ greatly, and care should be taken to keep construction traffic off the systems until enough stone has been placed and compacted.</p> <p>6. The expected performance evaluation and the systems used should undergo an independent engineering analysis.</p>
9.1.45.	<p>Base Materials</p> <ol style="list-style-type: none"> 1. The aggregate base on which the synthetic turf is installed provides a structurally sound foundation for field construction, and a media for drainage of the field. The base materials should contain the necessary components and characteristics to satisfy local conditions. A good geotechnical report will provide essential information for a firm and stable base for the synthetic turf. 2. Soil Separator: Depending on the local site conditions, a geo-textile fabric may be placed over the entire sub-grade and within the pipe trenches prior to the installation of the base materials to minimize contamination of the aggregate and possible clogging of the perforated drainage pipes. Where soil conditions warrant, a polyethylene, PVC, or other impermeable sheet liner may be used in lieu of the geo-textile to inhibit storm water infiltration into the subsoil. 3. Aggregate: The aggregate materials utilized to construct the field base must be a properly graded washed crushed stone to provide a balance between stability and permeability. A highly fractured material is desirable to provide the surface stability required for the synthetic turf surfacing, supplemental padding or porous paving as applicable. The graded aggregate particle sizes must be tightly controlled to fall within the bandwidth for all specified sieve sizes with just enough fines to provide stability while still allowing for sufficient drainage. Minimum stability and permeability requirements should be determined and confirmed by an independent certified laboratory prior to construction of the base course. 4. Compaction: The base materials should be thoroughly compacted to prevent differential settlement across the field area. Minimum compaction levels typically should not be less than 95% density as measured by a standard proctor test. Special attention should be given to backfill compaction of any utility trenches that cross the field area. Care should also be taken not to over compact, which could affect drainage. 5. Pavement: If pavement is required by design, the base materials may be porous or conventional asphalt. This material is installed over a permeable aggregate base and a subsurface drainage system. The porous pavement material must be manufactured with tight quality control on asphalt content, as well as the gradation of the aggregate used in the mix. This aggregate should have a limited amount of fines to allow for efficient water permeability. Use of conventional asphalt paving will require a sloped field with either a crown or a cross slope. Consideration should be given to the use of a drainage mat or an elastic layer pad system between the turf backing and the surface of the pavement. This, along with the installation of periodic interceptor drains, should allow for horizontal water movement below the field's surface. Without the use of these materials, the infill layer will become saturated during periods of heavy rainfall and there may be migration of the infill materials with the surface water movement. 6. Water permeability rates for both the field's surfacing and the field base materials should be designed to accommodate the local weather patterns and storm water management regulations. The permeability of both the field surface and the base materials will typically decrease over the life of the field. An adequate factor of safety should be utilized to provide initial infiltration rates for the completed field above those required by the local weather conditions.
9.1.46.	<p>Shock Absorbing Resilient Underlayment Systems</p> <ol style="list-style-type: none"> 1. In situ Cushion Layer (elastic layer pad): If included in the design, these cushion systems should be installed in place with specialized paving equipment.

Small rounded pea gravel aggregate or other suitable materials can also be incorporated with the rubber and urethane materials. The firmness of the system can be adjusted with the size and the proportions of the rubber granules and aggregate materials, as well as with the amount of polyurethane binder used and the thickness of the layer. 3. Performance Characteristics: The selection of the cushion layers should be closely coordinated with the performance characteristics of the synthetic turf utilized. The cushion layers should provide shock absorption without compromising footing and surface stability. 4. Prefabricated Cushion Layers (Pad): If included in the design, these cushion layers are rolls or tiles of resilient material installed under and occasionally adhered to the synthetic turf backing. <ol style="list-style-type: none"> a. Physical Characteristics: Prefabricated cushion layers are typically comprised of rubber, polyurethane foam, or other suitable materials. The rubber pads are SBR rubber fibers or granules bound together with a polyurethane binder and usually come as roll or piece goods and should be permeable. The foam cushion layers are typically polyurethane or polyvinyl chloride and should be water permeable for drainage. b. Performance Characteristics: The selection of the cushion layers should be closely coordinated with the performance characteristics and requirements of the synthetic turf system utilized. The cushion layers should provide shock absorption without compromising footing and/or surface stability. c. Water Permeability Rate: The system is to be permeable by design with adequate drainage, perforations through all of the cushioning layers to provide for adequate drainage through the system as specified.
9.1.47.	<p>Irrigation System:</p> <ol style="list-style-type: none"> 1. The installation of a manual or automatic irrigation system can be considered for synthetic turf installations. Guidelines on whether synthetic fields are watered are determined by factors such as region, climate, turf material, player traffic type, and level of games played. 2. It is recommended that the design be reviewed and approved by a recognized irrigation consultant or landscape designer.
9.1.48.	<p>Seams:</p> <ol style="list-style-type: none"> 1. Each panel or roll should be attached to the next with a seam to form the playing substrate of the field. Seams should be glued with a supplemental backing material or sewn with high strength sewing thread. The bonding or fastening of all system material components should provide a permanent, tight, secure, and hazard-free athletic playing surface. 2. Adhesive: Synthetic turf adhesives should be applied by experienced, professional installers. The adhesives should provide a strong, hazard-free, and durable bond between the adjacent turf panels or sections and to be usable for installation under variable weather conditions. The adhesive should also be resistant to water, fungus, and mildew. Synthetic turf adhesives include: one- part adhesives (urethanes), two- part (epoxy or urethane), hot melt, and water- based (latex). 3. Seaming Tape: The tape is comprised of a fabric that should be installed below the backing material on both sides of a seam or inlay. The fabric used for seaming tape should provide dimensional strength and enough surface texture and width to bond well with the adhesive and the turf backing material on each side of the seam.

Pockets that occur as a result of stone segregation during installation should be removed and replaced. After correct placement, each lift shall be uniformly compacted with a self-propelled roller to achieve the specified density. 4. The field base materials should be thoroughly compacted to prevent any significant differential settlement across the area of synthetic turf surfacing. The appropriate moisture content must be maintained in the base materials to allow for optimal levels of compaction. 5. (This does not apply to sewn seams). 3. Resilient Infill: If required by design, the infill material should be applied when in a dry condition and should not be applied unless the synthetic turf is also dry. The infill material should be applied in consistent layers with multiple applications. It is critical to insure that synthetic fibers are not trapped underneath the infill. After application of each layer, the synthetic turf should be dragged and/or brushed according to the manufacturer's recommendations in order to lift the fibers and distribute the infill material into the turf system in a consistent manner.

9.1.70. **INFILL Materials**

1. Infill Materials: The most recent generation of synthetic turf systems utilizes a long pile height and needs to be supported with infill materials for directional stability and structural integrity, as well as resiliency. The infill materials commonly used are sand, rubber, other suitable materials, or combinations of the following:
2. EPDM (Ethylene Propylene Diene Monomer) is a polymer elastomer with high resistance to abrasion and wear and will not change its solid form under high temperatures. Typical EPDM colors are green and tan. EPDM has proven its durability as an infill product in all types of climates. Its excellent elasticity properties and resistance to atmospheric and chemical agents provide a stable, high performance infill product.
3. TPE (Thermo plastic elastomer) infill is non-toxic, heavy metal free, available in a variety of colors that resist fading, very long lasting, and 100% recyclable and reusable as infill when the field is replaced. TPE infill, when utilizing virgin--- based resins, will offer consistent performance and excellent g-max over a wide temperature range.
4. Organics: There are several organic infill utilizing different organic components, such as natural cork and or ground fibers from the outside shell of the coconut. These products can be utilized in sports applications as well as for landscaping.
5. Silica Sand: This product is a natural infill that is non-toxic, chemically stable, and fracture resistant. Silica sand infills are typically tan, off-tan or white in color and depending upon plant location, may be round or sub-round in particle shape. As a natural product there is no possibility of heavy metals, and the dust/turbidity rating is less than 100. It can be used in conjunction with many other to provide a safe and more realistic playing surface. The round shape plays an integral part in the synthetic turf system. Silica sand have a high purity (greater than 90%) to resist crushing and absorption of bacteria and other field contaminants. Silica sand can either be coated with different materials as a standalone product or can be used to firm up in combination with traditional crumb rubber infill systems.
6. Coated Silica Sand: This class of infill consists of coated, high purity silica sand with either a soft or rigid coating specifically engineered for synthetic turf.
7. These coatings are either elastomeric or acrylic in nature (non---toxic) and form a bond with the sand grain sealing it from bacteria to provide superior performance and durability over the life of a field. Coated sand is available in various sizes to meet the application's needs.
8. Crumb Rubber: Two types of crumb rubber infill exist: Ambient and Cryogenic. Crumb rubber infill is substantially metal free, and, according to the STC's Guidelines for Crumb Rubber Infill Used in Synthetic Turf Fields, should not contain liberated fiber

	<p>in an amount that exceeds .01% of the total weight of crumb rubber, or .6 lbs. per ton.</p> <p>9. Coated Rubber: Both ambient and cryogenic rubber can be coated with colorants, sealers, or anti---microbial substances if desired. Coated rubber provides additional aesthetic appeal, reduction of dust by products during the manufacturing process and complete encapsulation of the rubber particle.</p> <p>10. Hybrid: Constitutes the use of sand, rubber, or other suitable materials in various combinations. 9.2.2.	<p>General Requirement for Seeded and Sodded Athletic Fields</p> <ol style="list-style-type: none"> Base Grading <ol style="list-style-type: none"> Native soil fields high in silt and clay are not suitable for intensive use because they provide poor drainage and easily compact during use. Therefore, native soil will likely have to be excavated from the site. If topography permits, sand can be placed directly on the surface without excavation after level grading at a considerably reduced cost. If excavation is necessary, it should be performed so that the finished grade at time of planting conforms to the sidelines or track area. Optimum grading depth for high-quality fields should be 16 inches. This depth will be replaced with 4 inches of base material (pit-run gravel) and then 12 inches of sand. Drain tiles are typically trenched into the subsoil at the bottom of this grading depth. Bases should be graded flat or have a crown of 6 inches from the center to the sidelines. The drain lines are trenched, and the drains should be covered with fine gravel or coarse sand material before the sand is installed. Base Material <ol style="list-style-type: none"> "Base material" is defined as sand or pit-run gravel (naturally occurring deposits of sand and gravel) placed over the drain lines and the graded sub-base. Base materials can include pit-run gravel with a maximum of 2 to 3 percent total silt and clay. Typical specifications for pit-run gravel are listed in Table 1. Other materials may include pea gravel or coarse sand, with particles ranging from No. 8 to No. 3/8 screen. Try to maintain textural uniformity in the profile. The depth of base material can vary from 4 to 12 inches. Deposit base material over the field to avoid disruption of the base grades and to prevent damage to the drainage lines. During installation, never run wheeled equipment across drainage lines. The base material can be brought to grade with light, tack-type equipment or light grading equipment. Normal grading operations can be used to bring the field to grade, but never heavily compact the base material. <p>Table 1. 9.2.3.	<p data-bbox="326 176 586 205">Subsurface Drainage</p> <ol style="list-style-type: none"> <li data-bbox="375 212 1520 411">1. Installation of drainage lines is necessary when water tables are too close to the surface and must be lowered. Drainage should also be installed when subsoils are impermeable or so slowly permeable that turfgrass root zones remain saturated for extended periods. Subsoils that are moderately permeable (1/2 inch per hour or greater) do not require extensive drainage installation. A standard percolation test conducted at about 30 inches deep will help determine the need for drainage lines. <li data-bbox="375 417 1520 512">2. When drainage is necessary, install drain lines on 15-foot centers arranged longitudinally on the football field. This spacing will allow free movement of vehicles during the construction process and will facilitate rapid water movement into the drain lines. <li data-bbox="375 518 1520 579">3. Install drain lines 16 to 24 inches below the grassed surface at a 1- to 2-percent minimum grade. <li data-bbox="375 585 1520 821">4. Drainage trenches should be 6 to 8 inches wide and should be dug with laser-controlled machines. This will ensure the proper grade and depth of drain lines. Drainage trenches should be dug with a wheel ditcher with a cleaning shoe, which leaves a V-shaped, clean, and graded trench bottom. If other types of trenchers are used, the contractor should cut a level (flat) bottom and excavate 2 inches deeper than the required invert elevations and place 1/8-inch minus to 5/16-inch minus pea gravel 2 inches deep, leveled to grade for placement of the drain lines. <li data-bbox="375 827 1520 921">5. Try to select trenchers that will place the base material into a truck or trailer, or as far away from the trench as possible for easier removal and to prevent it from falling back into the trenches. <li data-bbox="375 928 1520 989">6. Remove from the site all material dug from the base or uniformly spread it over the area if it does not interfere with the final base grades. <li data-bbox="375 995 1520 1056">7. Drain lines can be placed longitudinally from end to end on naturally sloping terrain or crowned fields, but this is not practical on flat terrain. <li data-bbox="375 1062 1520 1092">8. The herringbone method is a typical alternative to longitudinally oriented drain lines. <li data-bbox="375 1098 1520 1262">9. Typically, the field should be divided from the center and trenched in each direction, reducing the length of run in half. Since a perimeter drain should be installed around the football field to facilitate drainage of both the field and the running track, these longitudinal drain lines can be coupled with the perimeter drain and discharged into storm sewers or other suitable sites <li data-bbox="375 1268 1520 1398">10. Drain Lines Types <ol style="list-style-type: none"> <li data-bbox="467 1304 1442 1333">a. Drainage lines are manufactured with slits 360 degrees around the tubing. <li data-bbox="467 1339 1520 1398">b. Drainage lines with holes only on one side at 45-degree angles. This type always places the holes downward. <li data-bbox="375 1404 1520 1499">11. During installation, attempt to keep soil off the drain lines and trenches. Carefully cap blind ends and properly connect and tape all joints to prevent entrance of soil material or animals. <li data-bbox="375 1505 1520 1566">12. Drainage lines spaced on 15-foot centers should be installed with 3- or 4-inch, semi-rigid drainage tubes with slits or drilled holes to facilitate inflow of water. <li data-bbox="375 1572 1520 1667">13. After the drain lines are in place, backfill trenches with pea gravel (1/8 to 5/16 inch) or coarse sand to a depth of 2 to 4 inches over the top of the drain tubing to avoid migration of fine sand particles into the drain line, causing clogging of the drains. <li data-bbox="375 1673 1520 1768">14. Attach filter devices and wrapped around the tile or placed over the tile to prevent migration of the fine particles since they can clog the filter with fine particles and seal the drain lines. <li data-bbox="375 1774 1520 1869">15. Extend drainage lines through the end ends of the field and tie in with the perimeter drains near the running track. The drainage line surrounding the running track will intercept all field drains and should be 6 inches in diameter. <li data-bbox="375 1875 1520 1944">16. Install catch basins around the perimeter of the field over the 6-inch drain at strategic locations for rapid evacuation of water from running tracks.

9.2.4.	<p>Irrigation Installation</p> <ol style="list-style-type: none"> Irrigation is essential on sand-based fields. Irrigation systems should be designed and installed by competent irrigation specialists. Automatic irrigation systems with safety pop-up heads are best for sand-based athletic fields. Irrigation water can be more carefully controlled from this type of system. Install irrigation heads at a grade somewhat higher than the finished surface; after the soil has settled and the grass has become well established, these heads can be lowered to their proper final height. 																					
9.2.5.	<p>Sand Selection</p> <ol style="list-style-type: none"> The sand rooting medium specifications are listed in Table 2 below. Sand particles should fall between the ranges of No. 16 and No. 60 screen; however, sands with most of the particles between a No. 60 and No. 140 screen may be used for the rooting medium. Always specify sand by sieve size. Surface sand depth will vary from 4 to 12 inches depending upon the quality of the base material. Pit-run materials with high proportions of properly sized sand will allow the use of perhaps as little as 4 inches of finest quality sand for the surface. The addition of organic material, mixed off-site into the surface sand medium, is optimal. Materials such as well-composted organic matter or fibrous sphagnum peat moss are acceptable for the organic matter amendment. Organic matter particle sizes should range from 1/8 to 3/16 inch. Avoid all materials that are coarser or finer than those indicated. Under no circumstances should decomposed peat material be used as an organic amendment on high traffic sports fields. If organic materials are included with the sand top mix, do the premixing off-site with bucket loaders or other mixing equipment to get a homogeneous mixture of sand and organic matter, then place the mix over the playing surface. Incorporate no more than 20 percent organic material by a loose volume with the surface mixture. It is best to have samples of both the sand and organic material sent to a qualified soil testing lab to ensure the best sand and organic material combination that will give the optimum water holding capacity and drainage for the field. Each batch of root-zone mix should be tested before it is placed on the athletic field. Bring the surfacing or rooting medium to a flat grade over the playing surface and moisten to permit easier grading and movement without severe rutting. Fields built to these specifications do not need to be crowned because of the porous root-zone medium and installed drain lines. Practice care and caution to avoid damage to installed sprinklers and drains. Do not use compaction devices on the surface material except for normal grading and tillage equipment. <p style="text-align: center;">Table 2. 9.2.6.	<p>Turfgrass</p> <ol style="list-style-type: none"> 1. Seeding the Field <ol style="list-style-type: none"> a. Must be able to grow in the AEPA Member State. b. If the site is not sodded, seeding rates for football and other sports fields should be 4 to 6 pounds per 1,000 square feet of certified seed. c. Mixtures should for the type of athletic field and usage by the AEPA Member. 2. Turfgrass Establishment <ol style="list-style-type: none"> a. Nutrient applications should be based on soil tests. b. Do not apply fertilizer materials until the field is brought to its final grade. c. Lightly rototill all fertilizing materials and soil amendments into the top 4 inches of the final mix. d. After the fertilizer materials have been incorporated, no surface sand movement should be allowed. e. Fertilizers the field and slightly moisten the field and roll with a light roller or with a Brillion drill or suitable lightweight packing device to slightly firm the surface prior to seeding. 3. Planting <ol style="list-style-type: none"> a. Use a Brillion drill or comparable landscape seeder for to uniformly spreads the seed and presses it into close contact with the soil surface. b. Divide the seed in half and sow in opposite directions. This will ensure fewer skips in the planting. c. In areas of considerable wind movement, hydroseeding with grass seed and approximately 1,200 pounds of fiber mulch per acre has been most successful in preventing the blowout of seed and sand. Another advantage of hydroseeding is that additional starter fertilizer can be added to the hydroseeder's tank mixture and applied at the time of seeding. Broadcast methods of planting are less desirable than the methods mentioned. d. After planting with a Brillion drill, no subsequent rolling is necessary. The addition of organic mulches to the surface is not necessary if automatic irrigation is available. Planting can be done anytime during the normal growing season in the Pacific Northwest. The ideal time is late summer or mid-spring. After the seed has germinated, or immediately before, apply a quick-release nitrogen source, such as urea ammonium nitrate or ammonium sulfate, at the rate of 1 pound of product per 1,000 square feet to provide soluble nitrogen for the emerging seedlings. e. After the seed has been planted, it is important that the surface be kept continuously moist. This is one of the most important steps in establishing an athletic field. Exercise extreme care not to overwater the field, since nutrient leaching will occur. Apply frequent, small amounts of water until germination and seedling emergence is complete; these applications must be made frequently (i.e., 6 to 8 times per 24 hours) to ensure surface dampness at all times. Uneven germination and possibly no germination will occur if the surface dries.

In case of clay subsoil add a high-quality compost. g. Lightly moisten the soil if the soil is dry at the time of sodding. h. The sod should be placed in a brick-like pattern, staggered so the edges do not line up. i. Minimize the number of edges that are exposed that could lead to desiccation. j. Such site condition as: expansive soils or plastic soils and use of base course materials consisting of these types of soils can create problems and frost action is exaggerated where frost susceptible materials exist with moisture available to generate frost heave. It is, therefore, necessary for Offeror in cooperation with the AEPA Member in ensure that a complete and accurate site inspection/investigation has been performed to identify soil conditions existing at the site and to take these conditions into account in designing the project. Paving operations should provide a mat that is smooth, dense and of the proper thickness, slope and plane. 5. The leveling course should be placed such that the longitudinal joints of the leveling course are offset from that of the base course. Transverse joints should be offset a minimum of 24”. 6. In placing each succeeding pass after the initial one, the screed of the paver should be set so that it overlaps the preceding pass by 2” and be sufficiently high so that when compacted, a smooth joint is produced. Prior to pinching the joint, the excess material should be pushed onto the edge of the new pass with a lute. Excess material should be removed and wasted. 7. Breakdown rolling should begin as soon after the placement as the mixture will allow without undue displacement. No delays in rolling should be permitted. To have U.V. inhibitors to prevent grass from fading. 3. Seams can either be taped, glued or nailed and shall provide a resilient continuous surface over the entire project surface. 4. Synthetic Turf Types: There are several different types of synthetic turf available. They are distinguishable through the use of different fibers and different construction. Differentiated by construction are the tufted or the knitted synthetic turf systems. Both systems are comprised of synthetic fibers with primary and secondary backing systems and a resilient shock absorbing system. The shock absorbing system can consist of infill, a padding system, or a combination of both. 5. Fiber: Typically, the fiber used in synthetic turf is textured and/or non-textured polypropylene, polyester, polyethylene, nylon or other suitable performing hybrid or copolymer in tape form or monofilament. Minimum fiber sizes are 50 microns for polypropylene or polyester, 100 microns for tape form (slit-film) polyethylene, 140-300 for monofilament polyethylene (shape dependent) and 500 denier for nylon. Fiber sizes for hybrids or copolymer will comply with the most closely related fiber type. Ideally, all fibers should be of the same chemical composition, shape, and texture. Fibers should be compliant to ASTM guideline for total lead content. 6. Fibers should be compliant to ASTM guideline for total lead content. 7. Primary Backing Systems Material: The primary backing materials are of a woven or non-woven fabric in one or more layers which are utilized in the tufting process, or of high strength polyester multi-filament fiber utilized in the knitting process. This backing material provides the initial dimensional stability for the system. 8. Secondary Backing Systems Material: The secondary backing materials are applied through a coating process with a single or multiple applications of one or various materials. 9. Perforations: Depending on the final construction of the turf system, the system may or may not be permeable to water. Perforations are typically required of fully coated system backings to provide adequate vertical drainage throughout the system. Some turf systems may allow for drainage without perforations by employing a process of partial coating or other system designs. Developments in coating systems have provided for lighter weight and aqueous permeable chemicals; however, the drainage criteria must be met. 10. Infill Materials: The most recent generation of synthetic turf systems utilizes a long pile height and needs to be supported with infill materials for directional stability and structural integrity, as well as resiliency. The infill materials commonly used are EDPM,

The field surface should have the ability to adequately absorb user impact with the surface. 5. Surface Uniformity: Synthetic turf should be uniform and as level as practical. 6. The alternative pricing is calculated as follows:

- i. The Bidder must prepare, issue and receive three written quotes from available suppliers and select the supplier that offers the products and services that meet the stipulated requirements and specifications and the most cost effective solution. All quotes must be made available upon request.
- ii. The Bidder must indicate the percent of overhead and /or markup as part of their response to be added to these costs to obtain the normal and customary retail price.
- iii. The AEPA price is calculated by taking the product and services to cost to the Contractor plus the indicated percent of profit/overhead to equal the normal and customary retail price. The Contractor will then subtract the approved AEPA discount to obtain the AEPA price. Example: item cost \$1,000; percent of profit/overhead of 20% equals retail price of \$1,200; less the AEPA discount of 10% or \$120 equals the AEPA price of \$1,080.

Progress payments are allowed on purchases for goods and services under the following conditions: The Buyer and the Vendor Partner agree to the terms of the progress payments prior to issuing a purchase order; the purchase order describes the amounts to be paid and the date of payment; the Buyer has a satisfactory method of verifying progress described in writing in a letter or on the purchase order; that payments will only be made when actual goods and/or services are verified/received; and that any such payments be made in full compliance of Buyer's local board rules and any and all other applicable state rules and regulations.

1. California, Monterey County Office of Education dba CalSave

1) Governing Law and Venue

The laws of the State of California govern the Contract and prevail in the interpretation and administration of the Contract. California-specific Terms and Conditions prevail over any General Terms and Conditions. Each and every provision of law and clause required by law to be included in the Contract shall be deemed to be inserted herein, and the Contract shall be read and enforced as though it were included. If through mistake or otherwise any such provision is not included, or is not currently included, then upon application of either party the Contract shall be physically amended to make such inclusion or correction.

The venue for any litigation arising out of or related to the Contract shall be with either the Superior Court in and for the County of Monterey, State of California or the Federal District Court for the Northern District of California, San Jose Division.

2) Authority

For California, this bid is issued under the authority of the elected Monterey County Superintendent of Schools, who administers the Monterey County Office of Education (MCOE), located at 901 Blanco Circle, Salinas California, 93912. In this document, MCOE may be referred to as Agency, being distinct from other parties who may use this contract who are hereinafter referred to as Local Education Agencies (LEAs), regardless of their hierarchy or their political and organizational status as schools or municipalities.

3) CalSAVE, Administration, and Agent

Contracts awarded and Awarded Contractors/Vendors will automatically be part of the CalSAVE program, and by bidding a vendor must agree to participate. CalSAVE is the cooperative purchasing program founded by the Monterey County Office of Education and administered by the Epylon Corporation under a contract with MCOE, in cooperation with the California County Superintendents Educational Services Association (CCSESA). MCOE is the lead agency for all Contracts, and the Monterey County Superintendent of Schools is the authority for the solicitation, evaluation and award of all contracts. Epylon serves as MCOE's agent, but only the Monterey County Superintendent of Schools has the authority to award contracts. Correspondence and communication related to the contract award or administration of the program should be directed to Epylon, 630 San Ramon Valley Blvd., Suite 210, Danville, CA 94526.

MCOE reserves the right to change agents or to change the contact name of existing Agent's personnel administering the contract. If Agent or Agent's personnel change, Awarded Contractors/Vendors will be notified with new instructions.

4) Transaction Fees

Transaction Fees are the funding source for the operation of the self-supporting CalSAVE cooperative purchasing program. Awarded Contractors/Vendors shall be required to pay a Transaction Fee for all purchases by LEAs made through the awarded Contract. For the purpose of this bid through Monterey County Office of Education and all Contracts awarded using this document, the Transaction Fee shall be 2 percent of Net Sales, which means gross sales less returns and cancelled orders within 30 days, shipping and sales and other taxes (excluding taxes based on net income). Transaction Fees will not be charged to or paid by the buyers themselves. Neither Awarded Contractor/Vendor nor its designated authorized reseller(s) shall include any additional amount corresponding to the Transaction Fees in the awarded Contract prices. This Transaction Fee applies to all orders, regardless of the method used to submit the order, or the quantity or dollar amount of the order.

Epylon will collect the full Transaction Fee on behalf of the CalSAVE program, unless otherwise advised by Epylon. The Contractor/Vendor will make all participation fee payments within two weeks after sending the quarterly report. Checks are to be made payable to the Epylon Corporation and sent to 630 San Ramon Valley Blvd., Suite 210, Danville, CA 94526.

Instead, the cost of products, services, licenses and goods sold under this contract in such jurisdictions shall be the same as for all school districts in all other counties of California. However, any LEA using this contract where Section 4 fees are not permitted shall be required to pay a 2 percent fee for use of the contract, imposed by MCOE on the authority of Public Contract Code Section 20118 and 20652, which allows MCOE to charge reasonable costs to the public corporation or agency for furnishing the services incidental to the purchase of items under contract.

B. Additional Member Agency Terms and Conditions for Construction Products and Services

1) Intended for Personal Property

An award by the Monterey County Superintendent of Schools under this solicitation will be for the purchase of equipment, materials, supplies, services or repairs to be furnished, sold, or leased in accordance with Public Contract Code 20111 and 20650. Awards shall include allowance for installation and assembly services incidental and necessary for use of the equipment, materials, supplies and repairs purchased or leased. When any services or repairs fall into a category of Public Works as defined in Public Contract Code 22002, an LEA may use this California contract only up to \$14,999 for labor and services, but for an unlimited dollar amount for any supplies, materials, equipment or personal property to be staged and ready for use in a local Public Works project.

2) Public Works Limitations

When Public Works services cost \$15,000 or more, an LEA, under most situations, must bid itself independently for the services and labor related to the public work, but may use this contract for the contracted supplies, material or equipment related to the project. If circumstances allow, LEAs may also combine this competitively bid contract with other alternative authorities for Public Works projects as may be allowed by law, such as Public Contract Code 22030, Education Code 17406 or Government Code 1466. LEAs should consult with their own legal counsel to see if such statutes apply to their Public Works projects.

C. Procedure for Processing Orders

1) Start date

Once the award is made to the Contractor/Vendor and signatures have been placed on the contract from both parties, the Awarded Contractor/Vendor is authorized to begin selling to eligible Agencies. MCOE will begin informing LEAs of the Contract once the Contract has been signed.

2) Prices and Requests for Quotes

The Awarded Contractor/Vendor, in cooperation with MCOE's agent, must make provision for LEAs to quickly ascertain bid prices by posting prices, posting a link or contact for prices, distributing catalogs and price lists, responding to requests for quotations, or participating in eCommerce.

The 2 percent Transaction Fee on all sales is a cost of doing business to the vendor and the requirement for the fee is publicly disclosed in these bid documents for the edification of all buying agencies and LEAs. Transaction fees should not appear as a line item on a quotation or on listed bid pricing. The final price quoted or displayed must be inclusive of the participation fee on all pricing and quotations.

3) Submission of Orders and Delivery

After entering into an agreement with MCOE, an LEA electing to use this Contract will enter into a separate contract with the Vendor by way of a purchase order or separate contracting document ("Separate Contract"). Purchase orders will be issued by participating LEAs to contractor/vendor.

LEAs will fax or mail purchase orders directly to the CalSAVE office fax at (866) 488-3729), unless other arrangements have been made and agreed to by the CalSAVE Administrator. LEAs may also use Epylon eCommerce software for transmission of purchase orders. Standard business practice is for all purchase orders received by 3:00 p.m. Pacific Time to be logged and forwarded to the appropriate vendor on the same day received, unless unusual circumstances occur. It is the responsibility of the awarded/Vendor contractor to track any purchase order received directly from an LEA and to include that order on quarterly reports.

Awarded Contractor/Vendor will deliver goods, services and corresponding invoices directly to the participating LEAs and receive payments directly from the participating LEAs as per bid specifications.

D. Agencies Allowed to Purchase under the Member Agency

1) Other Agencies' Right to Purchase.

CalSAVE is a self-supporting contracting program led by the Monterey County Office of Education. Contracts are made available to all California public school districts, private and non-public schools registered with a county office of education or state Department of Education, charter schools, community college districts, eligible state agencies, non-profits (particularly those such as PTAs buying on behalf of schools or government), and any other agency allowed by law – all referred to as LEAs.

Subject to the following terms and conditions, the Monterey County Office of Education (MCOE) consents to LEAs purchasing items at the same unit price(s) or pricing formula under the terms and conditions of this Contract, as may be authorized by Sections 20118 and 20652 of the Public Contract Code or other legal authority:

a) Any other agency (LEA) authorized by law to use this Contract for its own purchase(s) from the Awarded Contractor/Vendor or their authorized resellers shall by default enter into a standard agreement with MCOE, which *inter alia* will include the terms, conditions, and information set forth in this paragraph *a* and paragraphs *b* through *i* below.

After entering into a standard agreement with MCOE, an Other Agency electing to use this Contract will enter into a separate contract or purchase order ("Separate Contract") with the contractor/vendor. The Separate Contract is subject to and includes and/or incorporates all applicable terms of this Contract and the specific requirement that the Awarded Contractor/Vendor comply with the provisions set forth in the paragraph regarding payment of the 2 percent Transaction Fee (or the non-conforming jurisdiction fee) to be collected by the Epsilon Corporation. MCOE will not be a party to any Separate Contract, but will be considered a third party beneficiary of such Separate Contract.

- a) The Awarded Contractor/Vendor understands and agrees that failure or refusal to comply with the provisions set forth in this agreement regarding payment of the 2 percent Transaction Fee in conjunction with any Separate Contract or any other use of this Contract by an "Other Agency" is grounds for cancellation of the Contract. The Contractor/Vendor also understands and agrees that if the Contract is cancelled for this or any other reason, MCOE may give notice of such cancellation by any other means appropriate to inform LEAs of that cancellation.
- b) The MCOE waives any right it may have to require any LEA using this Contract to draw its warrants for the purchase(s) in its favor and consents to each agency making such payment(s) directly to the contractor/vendor.
- c) Sales tax and freight/shipping charges included in the Contract apply to the MCOE only. Additional sales tax and freight/shipping charges may be required on purchases by any LEA and are outside the scope of this Contract, unless specifically addressed elsewhere in Part A or Part B of the Terms and Conditions.
- d) This Contract and any Separate Contract are for the purchase of the items covered by Contract. An LEA may, however, exercise its authority under Education Code section 17597 or 81645 or other legal authority to sell and lease back any item owned by, or to be owned by, it pursuant to any Separate Contract. The contractor/vendor agrees to take any and all actions requested by any LEA that are necessary to effect any such transfer, by way of example only, accepting payment under the Separate Contract from any third party to whom any such transfer is made.
- e) Both the contractor/vendor and any LEA using this Contract agree that the MCOE makes no representation that use of this Contract by any Other Agency is, in fact, authorized by law. In this regard, the MCOE suggests that, at a minimum, Contractor/Vendor and any LEA considering such use consult with their own legal counsels before doing so.
- f) Both the contractor/vendor and any LEA using this Contract agree to defend, indemnify and hold the MCOE, the Monterey County Superintendent of Schools, and the Monterey County Board of Education and its members, as well as all of their respective officers, employees and agents, free and harmless from any claims, liabilities, costs, penalties, or interest arising out of any such use.
- g) MCOE reserves the right to cancel the whole or any part of this contract due to failure by the contractor to carry out any obligation, term or condition of the contract. MCOE will issue written notice to the contractor for acting or failing to act in any of the following:
 - a. The vendor fails to adequately perform the services set forth in the contract
 - b. The vendor fails to make progress in the performance of the contract and/or gives MCOE reason to believe that the contractor will not or cannot perform to the requirements of the contract
 - c. The contractor fails to observe any of the terms and conditions of the contract

d. The contract fails to pay Transaction Fees

e. The contractor fails to follow the established procedure for purchase orders, invoices and receipt of funds as stipulated by the MCOE. MCOE shall follow the following procedure if the contract is to be terminated:

- Step 1 - Issue a warning letter of concern outlining the violations and length of time to correct the problem(s).
- Step 2 - Issue a letter of intent to cancel the contract, if the problem(s) is not resolved by a given date.
- Step 3 - Issue letter to cancel the contract. Upon receipt of the written notice of concern, the contractor shall have ten (10) business days to provide a satisfactory response to MCOE.

Failure on the part of the contractor to address adequately all issues of concern may result in contract cancellation.

2) Other Agencies, Constitutionally Independent Agencies, and Out-of-State Agencies

Other agencies and out-of-state agencies and LEAs may use the contract as allowed by California Government Code Section 6502, which says, "If authorized by their legislative or other governing bodies, two or more public agencies by agreement may jointly exercise any power common to the contracting parties, even though one or more of the contracting agencies may be located outside this state. It shall not be necessary that any power common to the contracting parties be exercisable by each such contracting party with respect to the geographical area in which such power is to be jointly exercised. For purposes of this section, two or more public agencies having the power to conduct agricultural, livestock, industrial, cultural, or other fairs or exhibitions shall be deemed to have common power with respect to any such fair or exhibition conducted by any one or more of such public agencies or by an entity created pursuant to a joint powers agreement entered i

2. Colorado - Colorado BOCES Association (CBA)

A. *Additional Agency Terms and Conditions*

Advertising: CBA will require a marketing flier, in electronic format, and timely updates from each vendor promoting the contract and AEPA/CBA relationship. CBA will assist in the development of the marketing flier and other appropriate materials which will include logos representing the vendor/AEPA/CBA. This flier will be for distribution and dissemination to all qualified customers through the CBA website and other appropriate and available methods.

Sales to Qualified Customers: Boards of Cooperative Educational Services (BOCES) in Colorado are legislatively created cooperative organizations directed by Colorado state statute 22-105 to serve all qualified agencies in a cooperative manner. BOCES are governed by publicly elected officials and by state and federal laws. No agency is obligated to use these services and contracts, but they find the benefits of low price and the satisfied bidding process most advantageous. Qualified agencies in Colorado include all public or private educational institutions, K-12 and higher education, all non-profit organizations, and all county or local governmental agencies. CBA requires that all participating vendors offer the Agency contract opportunities to all qualified customers.

B. *Procedure for Processing Orders:* Once the award is made to the vendor.

- CBA will inform its members of the contract by:
 - i.* Including the contract in the agency database that is available on the CBA website
 - ii.* Announcing the award through normal communication channels, CBA member presentations as well as regular electronic and direct mail communications.
 - iii.* Offering the opportunity to the vendor to publish their marketing information on the CBA website link to cooperative purchasing opportunities.
- A listing of CBA members, institutional names, contact names, addresses and phone numbers is available to the vendors through the CBA website. At this point the vendor must contact the members and qualified customers; and the customers have the right to contact the vendors directly. Note: CBA requires the awarded vendors to take ownership and actively promote the contract in cooperation with CBA to all members and qualified customers.
- When the customer identifies a desired product or service as available through the AEPA/CBA contract and agrees on price as presented to the customer by the awarded AEPA/CBA vendor, the customer then issues to the vendor a purchase order for that item or service.
- The awarded price must include an additional two percent (2%) administrative fee in the total cost (not as a separate line item), based on the total cost of goods and services including installation. This fee is to be forwarded by the vendor to CBA after the sale and payment is made to the vendor. Payment shall be made to CBA on a quarterly basis along with the complete sale report as specified in the general terms and conditions.
- The sale and transaction may continue without delay or anticipation of the CBA denial of said transaction.
- The administrative fee percentage (2%) is based on the total sale of goods and services including installation and must be included in the original cost quoted to the customer. In the event of a lease, the total administrative fee for the value of goods and services shall be paid to CBA by the vendor at the front end of the lease.
- Vendor makes all deliveries and installation of products and services. CBA does not warehouse items nor provide services.

3. Connecticut, Capitol Region Education Council (CREC)

A. ADDITIONAL MEMBER AGENCY GENERAL TERMS AND CONDITIONS

Affirmative Action - The Contractor must have an employment policy that there shall be no discrimination against anyone on the grounds of race, color, religious creed, age, marital status, national origin, ancestry, sex, mental retardation, physical disability or sexual orientation in the hiring, upgrading, demotions, recruitment, termination and selections for training, in any manner prohibited by the laws of the United States or of the State of Connecticut. The Contractor further agrees to be an "affirmative action-equal opportunity employer."

Applicability of Contract Provisions to Connecticut Participants - The Capitol Region Education Council (CREC) is the AEPA Member Agency. Any entity that uses the contract awarded by CREC under this document is referred to as a "Participant." The bidder that is awarded the contract by CREC is referred to as the "Contractor."

Conflict of Interest

The Contractor shall disclose any relationship with a CREC employee that would not be considered an "arms-length" or independent transaction, as described below. This disclosure must be made in writing to CREC for an evaluation. CREC will respond to this disclosure in writing.

A CREC employee (including independent contractors for purposes of this definition) placing an order or recommending a vendor must disclose any relationship with that vendor which would not be considered an "arms-length" or independent transaction. This disclosure must be made in writing to CREC for an evaluation. CREC will respond to this disclosure in writing.

For a transaction to be considered "arms-length" or "independent", a CREC employee should not be influenced, dependent upon, guided or controlled by a vendor into choosing that vendor, or item to purchase; nor should it appear to a third party that a CREC employee made a purchasing decision which appears to be based upon a personal relationship between the CREC employee and vendor.

The following are examples when a transaction is NOT considered arms-length or independent: (1) when there exists a personal relationship between a CREC employee and a vendor, (2) when there exists the potential for a personal benefit to a CREC employee, or (3) the parties to a business deal are dependent upon one another for "something" other than the purchase itself.

In addition, the Contractor shall, if given a copy of the potential Participant's conflict of interest policy, follow the process in that policy, or otherwise disclose to a potential Participant any relationship that would not be considered an "arms-length" or independent transaction with that Participant, as described above. This disclosure must be made in writing to the chief official (for example, the Superintendent at a board of education) at the potential Participant.

Determination of the existence of a conflict of interest does not prohibit CREC and/or a Participant from entering into the contract and purchase order, respectively.

Financing Arrangements - Any financing arrangements (including lease purchasing arrangements) will be made directly between the Contractor and a Participant. Financing arrangements may be subject to additional laws, rules and regulations, terms and conditions not described in this document and are subject to separate negotiation with each Participant that is interested in such an arrangement. Each Participant should seek its own legal advice prior to entering into a financing arrangement. CREC must receive a report annually summarizing the executed lease purchases along with the summary of the customer purchases. CREC will not collect lease payments or be involved

in the terms and conditions of the lease. All lease arrangements are between the Contractor and the Participant only.

Freedom of Information Act - The Contractor acknowledges that CREC and some Participants are subject to the Freedom of Information Act, Connecticut General Statutes Sections 1-200 et seq., and submitted to CREC and/or such Participants may be made available to the public under the provisions of the Freedom of Information Act.

Incorporation of Bid Documents - The bid documents, including all appendices executed by Contractor that have been accepted by CREC (the "Bid") are specifically incorporated into this Contract.

Independent Contractor - The Contractor shall not be held or deemed in any way to be the agent or employee of CREC and/or a Participant. It is the intention of the parties that the Contractor shall be and is to be considered an independent contractor.

Marketing and Advertising - Contractor agrees to provide CREC with a copy or proof sheet of all advertisements, customer communications or promotional material for prior approval.

Modification to Bid Language in the AEPA Invitation for Bid - The Bidder by submitting its bid hereby declares that this Bid is made without any connection with any other person or persons making any proposal for the same items, that it is in all respects fair and without collusion or fraud and that no person acting for or employed by CREC or a Participant is directly or indirectly interested in the proposal or in the goods or services to which it relates, or in any portion of the profits therefrom.

When Contractor and/or its agents will be on an Illinois Customer's premises (whether for delivery, installation, the provision of contractual services, or otherwise), Contractor shall also comply in all respects with: all background check requirements set forth at 105 ILCS 5/10-21.9; the Illinois Smoke Free Illinois Act, 410 ILCS 82/1 *et seq.*, and the Illinois Firearm Concealed Carry Act, 430 ILCS 66/1 *et seq.*

Any contractual payment requested of an Illinois Customer shall be invoiced, processed, and remitted to a Contractor in accordance with the requirements and provisions of the Illinois Local Government Prompt Payment Act, 50 ILCS 505/1 *et seq.*

This Agreement shall be construed and incorporated in accordance with the laws of the State of Illinois, regardless of any choice of law provision that might otherwise authorize construction of its terms in accordance with the law(s) of another state, states, or federal law.

By entering into this Agreement with an Illinois Customer, the Contractor's signature on the executed contract shall serve as Contractor's certification of Contractor's compliance with the foregoing laws and all requirements thereunder.

Entire Agreement and Construction

The Agreement, as modified by these Illinois Terms & Conditions, represents the entire agreement between Contractor and the Illinois Customer, and supersedes all prior negotiations or agreements, written or oral, which are not included herein. This Agreement may only be amended by written instrument executed by the Illinois Customer and Contractor. In the event of a conflict between the Agreement, as modified by these Illinois Terms & Conditions, and a proposal from Contractor, the terms of this modified Agreement will take precedence.

Each party has reviewed and approved the Agreement, and no rule of construction that resolves ambiguities against the drafting party will be employed in the interpretation of this Agreement.

Dispute Resolution.

Any dispute arising in any manner hereunder shall be subject to resolution by litigation, unless all

involved parties consent to an alternative means of dispute resolution. Venue for any legal action brought hereunder shall be the Illinois state circuit court of the county in which the Illinois Customer's administrative office is located or (if different and only if the Illinois Customer so elects) the Illinois state circuit court of the county where the Project is performed. Any provision of the General Terms purporting to change, limit, restrict, or shorten any Illinois period of repose and/or the duration of any applicable Illinois statute of limitation shall be of no force or effect against an Illinois Customer, it being understood by the parties that the Illinois periods of repose and statutes of limitation applicable to the subject matter hereof shall govern actions relating to this Agreement. No provision from the General Conditions shall limit, restrict, or shorten the duration of any period of repose or statute of limitation applicable under Illinois law.

Termination of the Agreement.

The Illinois Customer may terminate this Agreement at any time, in whole or in part, with or without cause, upon providing written notice to Contractor. If this Agreement is terminated by the Illinois Contractor for cause, the Contractor shall be liable to the Owner for any increase in cost incurred by the Owner in replacing the goods under contract and/or completing the contractual work, and for any additional or other damages the Illinois Customer suffers. In the event this Agreement is terminated by the Illinois Customer solely for the Illinois Customer's convenience, Contractor shall be compensated for items properly provided and/or work properly rendered through the date of termination, as can be documented to the reasonable satisfaction of the Illinois Customer. The Illinois Customer shall have no liability to Contractor beyond the date of termination. In no event shall Contractor be compensated for anticipated profit or lost opportunity.

Insurance and Indemnification Provisions.

Contractor hereby agrees to indemnify and hold the Illinois Customer, its board members, officers, agents, employees, administrators, attorneys, and any other parties designated by the Illinois Customer (hereinafter collectively called the Indemnitees@) harmless from all losses, claims, liabilities, injuries, damages and expenses, including (but not limited to) all attorneys= fees and defense and court costs and expenses, that the Indemnitees may incur arising out of, or occurring in connection with, the performance, acts, omissions, negligence, willful and/or wanton behavior, and/or breaches by Contractor of its duties and obligations under or pursuant to this Agreement. This indemnification obligation shall not be limited by a limitation on amount or type of damages, compensation or benefits payable by or for the Contractor or a Subcontractor under workers= or workmen=s compensation acts, disability benefit acts or other employee benefit acts.

Contractor shall procure, at no expense to the Illinois Customer, the insurance coverages set forth in the General Conditions. In each such instance, Contractor shall, by endorsement, name the Illinois Customer as an additional insured and shall provide copies of said policies and endorsements to the Illinois Customer prior to commencement under this Agreement.

Funding Contingencies for Multi-Year Projects.

All contracts with Illinois Customers that call for performance, or otherwise extend, beyond the Illinois Customers' current fiscal year, are, and shall be, expressly contingent upon annual appropriations. In the event an Illinois Customer's entry into an Agreement with Contractor constitutes a lease purchase (whether for financing purposes or otherwise), that Agreement shall be subject to the provisions of 105 ILCS 5/10-22.25a in addition to all other terms set forth in this Agreement.

Warranties and Claims.

No provision(s) set forth in the General Conditions shall serve to limit the Contractor's liability with respect to damages of any sort (whether actual, incidental, consequential, or otherwise) suffered by an Illinois Customer, nor will any disclaimer of warranties be effective against an Illinois Customer.

Attorney Fee Provisions.

No provision providing for the payment of prevailing party costs and expenses (including legal fees) resulting from litigation or other method of dispute resolution shall be applicable to Illinois Customers.

Automatic Renewals.

No provision calling for automatic renewals or "evergreen" renewals, (wherein the term of the agreement automatically renews for a period beyond the initial term unless a party provides affirmative advance notice of termination to the other party) shall be effective in an Agreement with an Illinois Customer, it being the parties' understanding, instead, that the contractual arrangements with Illinois Customers will terminate upon completion of the initial term or satisfaction of the original scope, unless the parties subsequently and affirmatively agree to supplemental renewal provisions.

Successors and Assigns; No Subcontracting.

Contractor shall not assign any rights under, or interest in, this Agreement, nor may Contractor subcontract any duties arising hereunder, without the prior written consent of the Illinois Customer. This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns.

Kansas Mandatory Contract Provisions

Terms Herein Controlling Provisions: It is expressly agreed that the terms of each and every provision in this attachment shall prevail and control over the terms of any other conflicting provision in any other document relating to and a part of the contract in which this attachment is incorporated. Any terms that conflict or could be interpreted to conflict with this attachment are nullified.

Kansas Law and Venue: This contract shall be subject to, governed by, and construed according to the laws of the State of Kansas, and jurisdiction and venue of any suit in connection with this contract shall reside only in courts located in the State of Kansas.

Termination Due To Lack Of Funding Appropriation: If, in the judgment of the Director of Accounts and Reports, Department of Administration, sufficient funds are not appropriated to continue the function performed in this agreement and for the payment of the charges hereunder, State may terminate this agreement at the end of its current fiscal year. State agrees to give written notice of termination to contractor at least 30 days prior to the end of its current fiscal year, and shall give such notice for a greater period prior to the end of such fiscal year as may be provided in this contract, except that such notice shall not be required prior to 90 days before the end of such fiscal year. Contractor shall have the right, at the end of such fiscal year, to take possession of any equipment provided State under the contract. State will pay to the contractor all regular contractual payments incurred through the end of such fiscal year, plus contractual charges incidental to the return of any such equipment. Upon termination of the agreement by State, title to any such equipment shall revert to contractor at the end of the State's current fiscal year. The termination of the contract pursuant to this paragraph shall not cause any penalty to be charged to the agency or the contractor.

Disclaimer Of Liability: No provision of this contract will be given effect that attempts to require the State of Kansas or its agencies to defend, hold harmless, or indemnify any contractor or third party for any acts or omissions. The liability of the State of Kansas is defined under the Kansas Tort Claims Act (K.S.A. 75-6101 et seq.).

Anti-Discrimination Clause: The contractor agrees: (a) to comply with the Kansas Act Against Discrimination (K.S.A. 44-1001 et seq.) and the Kansas Age Discrimination in Employment Act (K.S.A. 44-1111 et seq.) and the applicable provisions of the Americans With Disabilities Act (42 U.S.C. 12101 et seq.) (ADA) and to not discriminate against any person because of race, religion, color, sex, disability, national origin or ancestry, or age in the admission or access to, or treatment or employment in, its programs or activities; (b) to include in all solicitations or advertisements for employees, the phrase "equal opportunity employer"; (c) to comply with the reporting requirements set out at K.S.A. 44-1031 and K.S.A. 44-1116; (d) to include those provisions in every subcontract or purchase order so that they are binding upon such subcontractor or vendor; (e) that a failure to comply with the reporting requirements of (c) above or if the contractor is found guilty of any violation of such acts by the Kansas Human Rights Commission, such violation shall constitute a breach of contract and the contract may be cancelled, terminated or suspended, in whole or in part, by the contracting state agency or the Kansas Department of Administration; (f) if it is determined that the contractor has violated applicable provisions of ADA, such violation shall constitute a breach of contract and the contract may be cancelled, terminated or suspended, in whole or in part, by the contracting state agency or the Kansas Department of Administration.

Contractor agrees to comply with all applicable state and federal anti-discrimination laws.

The provisions of this paragraph number 5 (with the exception of those provisions relating to the ADA) are not applicable to a contractor who employs fewer than four employees during the term of such contract or whose contracts with the contracting State agency cumulatively total \$5,000 or less during the fiscal year of such agency.

Acceptance Of Contract: This contract shall not be considered accepted, approved or otherwise effective until the statutorily required approvals and certifications have been given.

Arbitration, Damages, Warranties: Notwithstanding any language to the contrary, no interpretation of this contract shall find that the State or its agencies have agreed to binding arbitration, or the payment of damages or penalties. Further, the State of Kansas and its agencies do not agree to pay attorney fees, costs, or late payment charges beyond those available under the Kansas Prompt Payment Act (K.S.A. 75-6403), and no provision will be given effect that attempts to exclude, modify, disclaim or otherwise attempt to limit any damages available to the State of Kansas or its agencies at law, including but not limited to the implied warranties of merchantability and fitness for a particular purpose.

Representative's Authority To Contract: By signing this contract, the representative of the contractor thereby represents that such person is duly authorized by the contractor to execute this contract on behalf of the contractor and that the contractor agrees to be bound by the provisions thereof.

Insurance: The State of Kansas and its agencies shall not be required to purchase any insurance against loss or damage to property or any other subject matter relating to this contract, nor shall this contract require them to establish a "self-insurance" fund to protect against any such loss or damage. Subject to the provisions of the Kansas Tort Claims Act (K.S.A. 75-6101 et seq.), the contractor shall bear the risk of any loss or damage to any property in which the contractor holds title.

Information: No provision of this contract shall be construed as limiting the Legislative Division of Post Audit from having access to information pursuant to K.S.A. 46-1101 et seq.

The Eleventh Amendment: "The Eleventh Amendment is an inherent and incumbent protection with the State of Kansas and need not be reserved, but prudence requires the State to reiterate that nothing related to this contract shall be deemed a waiver of the Eleventh Amendment."

No part of the funds provided through this contract shall be used to influence or attempt to influence an officer or employee of any State of Kansas agency or a member of the Legislature regarding any pending legislation or the awarding, extension, continuation, renewal, amendment or modification of any government contract, grant, loan, or cooperative agreement.

A. Additional Member Agency General Terms and Conditions that apply for all categories

The Green River Regional Educational Cooperative, Inc. (GRREC) is one of eight educational cooperatives in Kentucky, all of which are participants in the AEPA bids. GRREC serves as contact agency for all AEPA correspondence for all eight educational cooperatives. For the Kentucky Educational Cooperatives, the collective bidding process is conducted consistent with KRS Chapter 45A, the Kentucky Model Procurement Code. Contracts with GRREC shall include the provision granting GRREC employees the right to access to the Contractor's records.

Vendor Contact: Vendor will designate to GRREC one individual who will represent them to Kentucky Bidding Cooperative members during the agreement period. This contact person will correspond with each ordering member for technical assistance, problems, or questions that may arise. Include instructions if different contacts for different geographical areas are needed; this information will be distributed to Kentucky Bidding Cooperative members upon award of this bid.

The following Federal Clauses are required as a part of KY bid documents:

1. **CLEAN AIR/CLEAN WATER**
 - A. Vendor Partner agrees to comply with all applicable standards, orders or regulations issued pursuant to the Federal Water Pollution Control Act as amended (33 U.S.C. §§ 1251 et seq). Vendor Partner agrees to report each violation to the USDA and the appropriate EPA Regional Office.
 - B. Vendor Partner agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. §§ 7401 et seq. Vendor Partner agrees to report each violation to the USDA and the appropriate EPA Regional Office.
2. **SUSPENSION AND DEBARMENT**

Vendor Partner understands that a contract award (see 2 CFR 180.220) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." By signing and submitting its bid or proposal, the bidder or proposer certifies as follows: The certification in this clause is a material representation of fact relied upon by GRREC. If it is later determined that Vendor Partner knowingly rendered an erroneous certification, in addition to remedies available to GRREC, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment. Vendor Partner agrees to comply with the requirements of 2 CFR 180.220 while the above-referenced contract is valid. Vendor Partner further agrees to include a provision requiring such compliance in its lower tier covered transactions.
3. **LOBBYING**

Vendor Partner will comply with the Byrd Anti-Lobbying Amendment (31 U.S.C. § 1352) and the New Restrictions on Lobbying and has signed and attached to this Addendum the Certificate Regarding Lobbying and, if applicable, the Disclosure of Lobbying Activities (Forms SF-LLL) and annually will sign and submit a certificate, if applicable, Form SF-LLL to GRREC.
4. **PROCUREMENT OF RECOVERED MATERIALS PURSUANT TO 2 C.F.R. § 200.322**

Vendor Partner agrees to comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act.
5. **BUY AMERICAN**

"Domestic Commodity or Product" are defined as an agricultural commodity that is produced in the United States and a food product that is processed in the United States using substantial agricultural commodities that are produced in the United States. "Substantial" means that over 51 percent of the final processed product consists of agricultural commodities that were grown domestically.

Products from Guam, American Samoa, Virgin Islands, Puerto Rico, and the Northern Mariana Islands are allowed under this provision as territories of the United States.

The Buy American provision (7 CFR Part 210.21(d)) is one of the procurement standards School Food Authorities ("SFAs") must comply with when purchasing commercial food products served in the school meals programs.

Buy American: AEPA Member Agencies or Participating Entities participating in the federal school meal programs are required to purchase domestic commodities and products for school meals to the maximum extent practicable. Domestic commodity or product means an agricultural commodity that is produced in the US and a food product that is processed in the US substantially (at least 51 percent) using agricultural commodities that are produced in the US.

Federal regulations require that all foods purchased for Child Nutrition Program be of domestic origin to the maximum extent practicable. While rare, two (2) exceptions may exist when: the product is not produced or

Manufactured in the US in sufficient, reasonable and available quantities of a satisfactory quality, such as bananas and pineapple; and competitive proposals reveal the cost of a domestic product is significantly higher than a non-domestic product.

ALL products that are normally purchased by Vendor Partner as non-domestic and proposed as part of this contract must be identified with the country of origin. Vendor Partner shall outline their procedures to notify GRREC when products are purchased as non-domestic.

Any substitution of a non-domestic product for a domestic product (which was originally a part of the solicitation), must be approved, in writing, by GRREC, prior to the delivery of the product to the AEPA Member Agency or Participating Entities. Any non-domestic product delivered to the AEPA Member Agencies or Participating Entities, without the prior, written approval of GRREC will be rejected.

Vendor Partner must affirm its willingness to assert its best and reasonable efforts to ensure compliance with this federal rule.

6. COST REIMBURSEMENT CONTRACTS

- B. Contractor will separately identify for each cost submitted for payment to the school food authority the amount of that cost that is allowable (can be paid from the nonprofit school food service account) and the amount that is unallowable (cannot be paid from the nonprofit school food service account); or (B) Contractor will exclude all unallowable costs from its billing documents and certify that only allowable costs are submitted for payment and records have been established that maintain the visibility of unallowable costs, including directly associated costs in a manner suitable for contract cost determination and verification;

C. Procedure for Processing Orders

Once the award is made to the Contractor/vendor, GRREC and Kentucky's other cooperatives will inform their members (school districts and other entities) of the contract by: 1) including the contract in the Current Bids section on their websites and 2) publishing the contract information in catalogs disseminated to all members. A list of members, contact names, addresses and phone numbers is made available to the Contractor. At this point the Contractor/vendor contacts the members and members may contact the Contractor/vendor. When the member identifies a product or service, it will issue a purchase order for that item to the vendor. The vendor's price will include a two percent (2%) administrative fee that the vendor will collect from the member and remit to GRREC on a quarterly basis. Municipal and county governments, and other governmental, quasi-governmental, or nonprofit organization price will reflect a two percent (2%) administrative fee. On the occasion that an AEPA contract awarded by Kentucky is utilized by public school and public non-school entities in other states, purchases in these instances will also reflect a two percent (2%) administrative fee. The vendor will also compile and provide to GRREC a quarterly report showing all purchases made by Kentucky members (with specific detail as to what purchases were made by which members) under this contract. Further, if no purchases are made in any given quarter, the Vendor shall remit a "No Activities" statement to GRREC for that quarter. The vendor will also produce and provide to GRREC an annual summary report for all purchases made under this contract for a period of beginning with the award of the contract through December 31st and all consecutive annual periods if contract is extended. The vendor will make all administrative fee payments to the GRREC by the 15th of the month following the end of the quarter (i. e. April 15th, July 15th, October 15th and January 15th). All checks are to be made payable to GRREC and sent to GRREC, 230 Technology Way, Bowling Green, KY 42101 and Attention: Bids Coordinator. GRREC may designate another agent for collecting an administrative fee that will be negotiated with vendor for e-commerce transaction. GRREC will share information from the quarterly and annual reports and distribute the administrative fee among the other KY Educational Cooperatives according to membership.

A conflict of interest may include, but is not limited to, a financial ownership interest in, or employment with Contractor or Subcontractor by a Participating Entity' Board member, administrator, or employee or their family member. A "family member" means a person's spouse or spouse's sibling or child; a person's sibling or sibling's spouse or child; a person's child or child's spouse; or a person's parent or parent's spouse, and includes these relationships as created by adoption or marriage. 2. Termination of Buyer's Purchase Order

Default is defined as the failure of a Contractor to fulfill the contract, including but not limited to, not honoring bid prices, failure to deliver on time, or the unauthorized substitution of items or failure to comply with any or all of the specifications and/or terms and conditions contained in this solicitation or the contract/purchase order of a Participating Entity.

Should the Contractor fail to satisfactorily resolve the default, the contract/purchase order may be terminated with thirty (30) days written notice. In that event, the Contractor shall be held liable to the Participating Entity for all costs and expenses incurred by the Participating Entity arising out of said default. Notwithstanding the foregoing, each Participating Entity may terminate their contract/purchase order, with or without cause, or discontinue purchasing from the Contractor at any time.

3. Iran Economic Sanctions Act

Public Act 517 of 2012, commonly known as the "Iran Economic Sanctions Act" (the "Act"). The Act provides that beginning April 1, 2013, an "Iran Linked Business" is not eligible to submit a bid on a request for proposal with a "public entity" (OS). The Act also requires that a person that submits a proposal in response to an OS request for proposal must certify to the public entity that it is not an Iran Linked Business. This requirement applies to all requests for proposals issued by OS, and not just to construction projects.

The Act defines an Iran Linked Business as:

- a. A person engaging in investment activities in the energy sector of Iran, including a person that provides oil or liquefied natural gas tankers or products used to construct or maintain pipelines used to transport oil or liquefied natural gas for the energy sector of Iran;
- b. A financial institution that extends credit to another person, if that person will use the credit to engage in investment activities in the energy sector of Iran.

If the OS determines, using credible information available to the public, that a person or entity has submitted a false certification, OS must provide written notice to the person or entity of its determination and of its intent not to enter into or renew the contract. The notice must include information on how to contest the determination. The notice must also specify that the individual or entity may become eligible for future contracts with the public entity if the activities that caused it to be an Iran Linked Business are ceased.

4. Taxes

The Participating Entities are exempt from State Sales Taxes and such taxes shall not be included in any solicitation prices. Exemption certificates will be provided upon request.

Failure on the part of the Contractor to comply with said guidelines and regulations shall, upon reasonable notice, constitute grounds for a Participating Entity to revoke and otherwise terminate the contract and all obligations of the Participating Entity hereunder.

The contracted vendor will be required to work with CPC's participating agencies and require that an architect's signature or certification is noted on the specifications as required by Minnesota Statute §326.12 subd. 3. With certain exceptions, Minnesota Rules part 1800.5200, subpart 1, requires a licensed architect or engineer to prepare and certify specifications for building alterations or renovations. If the contract price increases after the bond is provided, the participating agency may consider obtaining additional bonds from the Vendor.

The Vendor will deliver the performance bond to the eligible participating agency at the time the contract is executed between the agency and the Vendor. Work will not commence between the Vendor and the eligible participating agency until the performance bond is received by the participating agency and a copy has been sent to CPC via email (info@purchasingconnection.org). The Vendor will be responsible for providing CPC with a copy of all contracts and bonds in accordance with CPC purchasing procedures. Should the Vendor fail to satisfactorily perform the contract, the bonding company that provided the performance bond will be required to pay the dollar amount of the bond to the participating agency.

It is the Vendor's responsibility to ensure that they can obtain the required bonding for all construction products based on an awarded contract arising from this solicitation. Payment will not be issued for any project for which the required bonds have not been received.

CPC may assist in the development of the marketing flier and material (if requested by vendor), but in all cases shall have authority to review and approve any marketing materials. If a web site is used, the link will be made available from the CPC web page. Any web page or link, or other marketing tool shall be dedicated to AEPA information only.

The administrative fee shall be based upon the total cost of goods and/or services including installation costs. The administrative fee shall not be listed as a separate line item on the quote. All sales and transactions may continue without delay or in anticipation of the CPC purchase order verification.
 - iii.  - vi. CPC requires that all participating vendors offer the contract opportunity to all CPC participating agencies.
5. **Express Online Marketplace:** CPC provides participating agencies with an online purchasing platform called Express, powered by EqualLevel. Through Express, agencies are able to search for and purchase items. Essentially, Express is a one-stop shop for many of CPC's commodity based contracts. A Vendor does not have to have an e-commerce site to be included in Express. Express offers integration into two (2) of the main K-12 school financial systems in Minnesota, CPC expects growth in the number of agencies utilizing the marketplace and the volume of sales to grow significantly. CPC will work with the Vendor to determine if the contract agreement is suitable for the online platform. If deemed suitable, CPC will require integration into Express within a timely manner.

14. Missouri, Cooperating School Districts of the Greater St. Louis Area, (CSD)

A. Additional Agency Terms and Conditions

Lease and Rentals: Vendor may allow EDPLUS members to enter into rental, lease, or lease purchase agreements, providing such agreements are in compliance with Missouri statutes and State Department of Education policies, rules and regulations. EDPLUS must receive a copy of the executed leasing documents prior to processing a purchase order. EDPLUS will not collect lease payments. Bidder agrees that leases will be in compliance with the Uniform Commercial Code. All terms of leasing must be included in the proposal, with interest rates described as related to a government standard. Bidder must indicate in its response to this solicitation if the shipping costs for the return of leased or rented equipment are the responsibility of the EDPLUS member, and what that cost will be. No sale of a contract to a third party will be made without first informing EDPLUS and the EDPLUS member of the sale. If Bidder sells a lease contract to a third party, the cost of return must not be greater than the cost of return to the original vendor. A 2% administrative fee must be included in the lease cost based on the total value of the goods purchased. This fee is referred to under ordering process.

B. Procedure for Processing Orders

(1.) Once the award is made to the vendor, EDPLUS will inform its members (and non-members eligible to purchase from EDPLUS) of the contract by announcing the award in its periodic newsletter and other EDPLUS presentations as well as regular electronic communications.

(2.) EDPLUS may require a marketing flier from each vendor promoting the contract and AEPA relationship. EDPLUS will assist in the development of the marketing flier and material. This flier will be for distribution as well as posting on the EDPLUS website and disseminated to potential customers. Note: EDPLUS requires the awarded vendor to take ownership and actively promote the contract in cooperation with EDPLUS to all qualified customers.

(3.) When the member identifies a desired product or service as available through the AEPA contract and makes a purchase on the EDPLUS online Marketplace or agrees on price as presented to the member by the awarded AEPA vendor, the member then issues to the vendor a purchase order for that item or service.

(4.) The purchase order must include an additional two percent (2%) administrative fee in the total cost, based on the total cost of goods and service including installation and freight if applicable. This fee is to be forwarded by the vendor to EDPLUS after the sale and payment is made to vendor. Payment shall be made to EDPLUS on a quarterly basis along with complete sales history during that period.

(5.) Vendor makes all deliveries and installations of products and services. EDPLUS does not warehouse items nor provide services.

(6.) All participating vendors agree to and are subject to audit proceedings of AEPA member sales.

C. Members Purchasing Under the Agency

We take great pride in the fact that EducationPlus is providing a complete line of purchasing services to our 50+ member school districts and hundreds of additional school districts, educational institutions, and nonprofit organizations throughout Missouri and Illinois. Our goal is to promote efficient use of educational dollars, and simultaneously provide an ongoing market for those vendors doing business with EducationPlus. EducationPlus serves schools and political subdivisions in Missouri and Illinois.

D. Governing Law

MO. REV. STAT. §70.220. 1. Any municipality or political subdivision of this state, as herein defined, may contract and cooperate with any other municipality or political subdivision, or with an elective or appointive official thereof, or with a duly authorized agency of the United States, or of this state, or with other states or their municipalities or political subdivisions, or with any private person, firm, association or corporation, for the planning, development, construction, acquisition or operation of any public improvement or facility, or for a common service; provided, that the subject and purposes of any such contract or cooperative action made and entered into by such municipality or political subdivision shall be within the scope of the powers of such municipality or political subdivision.

15. Montana, Montana Cooperative Services (MCS)

General Standards: Purchases by public entities in excess of \$80,000 are subject to public bid; purchases under this amount are subject to requirements of public contracts. See Sections 7-5-2301 and 7-5-2304, Montana Code Annotated (Counties); Sections 7-5-4302 and 7-5-4303, Montana Code Annotated (Municipalities).

Note: purchases of less than \$80,000 are not subject to public bid requirements, which provides local government entities with considerable flexibility to make purchases. Public bidding requirements do not appear to prohibit local government entities who are members of AEPA or MCS from soliciting bids from approved vendors for purchases in excess of \$80,000.

Local Government Cooperative Purchasing Authority: Local governments may also elect to purchase cooperatively through the Montana Department of Administration in lieu of soliciting their own bids. 51 A.G. Op. 15 (2006). Procurement by government entities generally falls within the Montana Procurement Act, Section 18-4-101, MCA, et seq.

Local Governments are authorized to adopt and implement the rules and standards of the Act:

18-4-124. Local government adoption of procurement provisions -- alternative project delivery contracts. (1) A political subdivision or school district may adopt any or all parts of this chapter and the accompanying rules promulgated by the department.

Local governmental entities and school districts are specifically authorized to purchase cooperatively in the public interest:

18-4-401. Definitions. As used in this part, the following definitions apply:

(1) "Cooperative purchasing" means procurement conducted by or on behalf of more than one public procurement unit.

"Local public procurement unit" means a county, city, town, or other subdivision of the state or a public agency of any such subdivision; public authority; educational, health, or other institution; to the extent provided by law, any other entity that expends public funds for the procurement of supplies and services; and any nonprofit corporation operating a charitable hospital.

"Public procurement unit" means a local or state public procurement unit of this or any other state, including an agency of the United States, or a tribal procurement unit.

"State public procurement unit" means a state department, agency, or official that expends public funds for the procurement of supplies and services.

"Tribal procurement unit" means a tribal government, tribal entity, or official of a tribal government located in Montana that expends tribal funds or funds administered by a tribe for the procurement of supplies and services to the extent provided by tribal or federal law.

18-4-402. Cooperative purchasing authorized. The department may participate in, sponsor, conduct, or administer a cooperative purchasing agreement for the procurement of any supplies or services with one or more public procurement units in accordance with an agreement entered into between the participants independent of the requirements of part 3. Cooperative purchasing may include purchasing through federal supply schedules of the United States general services administration, joint or multiparty contracts

between public procurement units, open-ended state public procurement unit contracts that are made available to local public procurement units, and competitive contracts established by for-profit, not-for-profit, or nonprofit cooperative entities. (emphasis added).

Note: Cooperative purchasing by local governmental entities may require entering into an agreement with the Montana Department of Administration. This requirement does not appear to preclude local entities from participating as members of purchasing groups.

Local governmental entities are authorized to enter agreements with each other in order to purchase cooperatively.

7-11-104. Authorization to create interlocal agreements -- issuance of bonds for joint construction -- hiring of teacher, specialist, or superintendent. One or more public agencies may contract with any one or more other public agencies to perform any administrative service, activity, or undertaking or to participate in the provision or maintenance of any public infrastructure facility, project, or service, including the issuance of bonds for the joint construction of a facility under 20-9-404, the hiring of a teacher or specialist under 20-4-201 or a superintendent under 20-4-401, or the hiring of or contracting with any other professional person licensed under Title 37, that any of the public agencies entering into the contract is authorized by law to perform. The contract must be authorized and approved by the governing body of each party to the contract. The contract must outline fully the purposes, powers, rights, obligations, and responsibilities of the contracting parties. (emphasis added).

School and school district cooperative purchasing authority: Schools and school districts are specifically authorized to purchase cooperatively utilizing qualifying purchasing entities:

"A [school] district may enter into a cooperative purchasing contract for the procurement of supplies or services with one or more districts. A district participating in a cooperative purchasing group may purchase supplies and services through the group without complying with the provisions of [soliciting public bids and awarding a contract] if the cooperative purchasing group has a publicly available master list of items available with pricing included and provides an opportunity at least twice yearly for any vendor, including a Montana vendor, to compete, based on a lowest responsible bidder standard, for inclusion of the vendor's supplies and services on the cooperative purchasing group's master list." Section 20-9-204(4), Montana Code Annotated (emphasis added).

Note: Montana's AEPA member, Montana Cooperative Services, meets all of the statutory requirements of Section 20-9-204(4), MCA, with respect to cooperative purchasing groups.

Cooperative purchasing is another tool in the bag for local governmental entities, including school districts, to acquire services and supplies at better prices than may otherwise be available. Membership in MCS provides access to AEPA-approved vendors as well as in-state suppliers who have been carefully vetted for reliability and quality.

CONFLICT OF INTEREST

An ESCNJ employee (including independent contractors for purposes of this definition) placing an order or recommending a vendor must disclose any relationship with that vendor which would not be considered an "arms-length" or independent transaction. This disclosure must be made in writing to the Business Administrator and/or Chief Financial Officer for an evaluation. The Business Administrator and/or the Chief Financial Officer will respond to this disclosure in writing.

For a transaction to be considered "arms-length" or "independent", an ESCNJ employee should not be influenced, dependent upon, guided or controlled by a vendor into choosing that vendor, or item to purchase; nor should it appear to a third party that an ESCNJ employee made a purchasing decision which appears to be based upon a personal relationship between the ESCNJ employee and vendor.

The following are examples when a transaction is NOT considered arms-length or independent: (1) when there exists a personal relationship between an ESCNJ employee and a vendor, (2) when there exists the potential for a personal benefit to an ESCNJ employee, or (3) the parties to a business deal are dependent upon one another for "something" other than the purchase itself.

The Contractor shall disclose any relationship with an ESCNJ employee that would not be considered an "arms-length" or independent transaction, as described above. This disclosure must be made in writing to the Business Administrator and/or the Chief Financial Officer for an evaluation. The Business Administrator and/or the Chief Financial Officer will respond to this disclosure in writing.

In addition, the Contractor shall, if given a copy of the potential New Jersey Participant's conflict of interest policy, follow the process in that policy, or otherwise disclose to a potential New Jersey Participant any relationship that would not be considered an "arms-length" or independent transaction with that New Jersey Participant, as described above. This disclosure must be made in writing to the chief official (for example, the Superintendent at a board of education) at the potential New Jersey Participant.

Determination of the existence of a conflict of interest does not prohibit ESCNJ and/or a New Jersey Participant from entering into the contract and purchase order, respectively.

In addition, if any third party obtains a judgment against CES, its Members and Participating Entities based upon Contractor's trade secret infringement relating to any product or services provided under this Agreement, the Contractor agrees to reimburse CES, its Members and Participating Entities for all costs, attorneys' fees and the amount of the judgment. The bidder will provide "tail" coverage at the completion of any contract entered into by CES or its Members for a minimum of 12 months, or the maximum time period reasonably available in the marketplace. Ordering Process: Contractor agrees to adhere to CES' ordering process(es).

Ownership of Materials and Documents: CES, its Members or Participating Entities shall be the sole owner of all right, title and interest, including copyright, in and to all software, plans, diagrams, facilities, and tools (hereafter "**materials**") which are originated or created through Contractor's work pursuant to this Contract. Contractor, for valuable consideration herein provided, shall execute all **documents** necessary to assign and transfer to, and vest in CES, its Members or Participating Entities all Contractor's rights, title and interest in and to such original **materials**, including any copyright, patent and trade secret rights which arise pursuant to Contractor's work under this Contract.

Patent and Copyright Infringement: Contractor will, at their expense, defend CES and its Members and Participating Entities against any claim that any equipment or software supplied hereunder (even if such equipment or software are modified by CES or its Members, subject to the last paragraph of this section) infringe a patent or copyright in the United States, or a U.S. Territory, and will pay all costs, damages and attorney's fees that a court finally awards as a result of such a claim. To qualify for such a defense and payment, CES must:

1. Give Contractor prompt written notice of any such claim after becoming aware of such claim.
2. Allow Contractor to control and fully cooperate with Contractor in the defense and all related settlement negotiations.

CES will be reimbursed for all expenses incurred by CES in fully cooperating with Contractor as specifically requested by contract. CES is not required to incur any expenses specified in this paragraph, which are not reimbursable, by the Contractor. If any CES Member and Participating Entities are involved by any party in any way, the same provisions that apply to CES in this paragraph will apply to the CES Member or Participating Entity. Contractor's obligation under this section is conditioned on CES' agreement that if the subject of such a claim, CES will permit the Contractor, at its expense and option, either to procure the right for CES and its Members or Participating Entity to continue using the equipment and/or software, or to replace or so modify with equipment or software which are functionally equivalent so that they become non-infringing. If neither of the foregoing alternatives is available on terms which are reasonable in Contractor's judgment and satisfactory to CES, CES will request its Members or Participating Entity to return the equipment or software on written request by Contractor at Contractor's expense.

Contractor agrees to refund CES, its Members or Participating Entities a refund for returned equipment as depreciated unless otherwise mutually agreeable in writing. The depreciation will be an equal amount per year over six (6) years. In the event that Contractor's written request for return is made after full depreciation, the Contractor will pay CES, or its Members who purchased the equipment, an amount equivalent to the fair market value of the returned equipment. If CES, or any of its Members or Participating Entities, fails to return the equipment, the Contractor is not obligated to that Member under this clause.

Contractor will have no obligation with respect to any such claim based upon a Member's or Participating Entity's modification of the equipment or software or combination, operation or use with apparatus, data or programs not furnished by Contractor. However, one Member's or Participating Entity's action will not preclude Contractor's obligation to others not having modified their equipment or software.

Payment by CES: CES will make every effort to collect payment from Members or Participating Entities for the purchase of goods and services within thirty (30) days after the receipt of goods or services and a correct invoice of amount due, unless a good faith dispute exists as to any obligation to pay all or a portion of the account. Any offer that requires payment in less than forty-five (45) days shall not be considered. CES must first receive payment from the Member or Participating Entity in order to process payment to the Contractor. Any Contractor whose business would be in jeopardy due to slow payments is encouraged not to respond. It has been CES' experience that public agencies always pay, but many are slow in processing payments.

Payments by Member or Participating Entities: For the purchase by a Member or Participating Entity directly from the Contractor for goods and services that have been received and accepted. Payment from the Member or Participating Entity to the Contractor will be made within forty-five (45) days after the receipt of a correct invoice, unless a good faith dispute exists as to any obligation to pay all or a portion of the account. If a dispute arises or an agency's account becomes delinquent, the Contractor is encouraged to contact and request assistance from CES. Any offer that requires payment in less than forty-five (45) days shall not be considered.

Payment of Administrative Fee: When a CES Members or Participating Entities issue payment directly to the Contractor for goods and services received and accepted. The Contractor will, upon receipt of payment from a CES Member or Participating Entity, issue payment to CES for an administrative fee in an amount equal to two percent (2%) of the total invoice amount.

Price List: The AEPA Contractor will submit to CES and/or its Members and Participating Entities (if requested) or make available on its website all applicable pricing for all products and services proposed, approved, and awarded under this solicitation. Price lists submitted must be in accordance and comply with the AEPA's terms, conditions, and the requirements of the CES purchasing process utilized to facilitate eligible procurement agencies' staff to place and process orders. When utilizing any of the pricing methodologies identified and required within this solicitation, such discounts and pricing will include the CES two (2%) percent administrative fee, must be submitted in the format required, and can be audited by CES.

Public Record: All documents associated with this AEPA contract will become the property of CES and be a matter of public record available for review, after the final award notification according to the "New Mexico Inspection of Public Records Act" (NMSA 1978, Chapter 14, Article 2). All proposals may be reviewed under the supervision of CES staff by appointment, from 9:00 a.m. to 4:00 p.m., Monday through Friday, at 4216 Balloon Park Road NE, Albuquerque, New Mexico, 87109.

Safety Measures: Contractor will comply with all federal and state of New Mexico safety regulations.

Severability: The provisions of this contract are severable to the extent that any provision or application held to be invalid will not affect any other provision or application of the contract, which may remain in effect without the invalid provision or application.

1. The unit or pro-rata order price for the delivered and accepted portion; and
2. A reasonable amount, not otherwise recoverable from other sources by Contractor as approved by CES with respect to the undelivered or unaccepted portion of the service, provided compensation shall in no event exceed the total contract price.

In such cases, the contractor agrees to hold CES harmless for any deficiency of payment. If any payment is delayed beyond forty-five (45) days from the due date, the contractor agrees not to charge CES interest on the late payment

Progress Payments for Construction: All progress payments must be invoiced through CES. It is the responsibility of the CES using agency and/or its designee to review and approve any estimates of work completed. If the CES using agency or their designee issues a written statement to the contractor per 57- 28-5 NMSA 1978 A. "If an owner receives an improperly completed invoice, the owner shall notify the sender of the invoice within seven days of receipt in what way the invoice is improperly completed, and the owner has no further duty to pay on the improperly completed invoice until it is resubmitted as complete..." The contractor will not begin a project for which the site is not prepared or in the condition agreed upon in writing by the CES Member or Participating Entity, unless contractor decides to accept the site as is and is willing to perform the preparation work necessary at no cost, or until the CES Member or Participating Entity has included the cost of site preparation in a purchase order to CES. After the specific job order contract award, any change in subcontractors must be approved by CES and the CES Eligible Agency, otherwise, the Offeror will be guilty of violation of the Subcontractors Fair Practices Act and subject to the penalties provided therein.

NMSA 1978, for work faithfully performed and properly invoiced can result in the suspension or cancellation of this contract.

8. Subcontractor's labor used must be of a standing or affiliation that will permit the work to be carried on harmoniously, without delay and will not cause any disturbance, interference or delay to the progress of the project. Subcontractor and lower-tier subcontractors will not employ anyone whose employment might be objected to by prime Contractor or Member.
9. It is the responsibility of the Contractor to inform all suppliers and subcontractors that this contract is a cooperative purchasing contract and that the CES Eligible Agency must make payments to CES before CES can issue progress payments to the Contractor. The Contractor must provide CES with all subcontractors and suppliers information utilized for any individual project performed.

Upon acceptance and approval of the Vendor's offer by AEPA, NDESC will independently consider the offer and conduct a conference call with the Vendor to determine if the Vendor is able to meet the necessary requirements for construction related products and services, according to [Chapter 48-01.2 of the North Dakota Century Code](#), and to enter and execute a contract in the state of North Dakota. Once NDESC and the Vendor are able to confirm that business is able to be conducted in North Dakota, NDESC will make a final decision to complete the contract execution process.

For all quotes provided to participating agencies, for construction related projects, products and services, the contracted vendor must also send a duplicate quote to NDESC. The quote provided to NDESC must include the contact information of the participating agency.

Performance Bond (for construction and/or installation related projects): Performance bonds will be required on all projects valued at fifty-thousand dollars (\$50,000) or more in North Dakota. All performance bonds will be issued by a corporate surety authorized to do business in the state in which the work will be conducted and by a surety listed in the US Treasury Circular 570. Performance bonds will be posted by the Vendor and submitted to the specific participating agency for the assigned project. Should the contract be the result of a piggyback agreement, performance bonds will reflect each state's bonding requirements.

The Vendor will execute a performance bond in an amount equal to one hundred percent (100%) of the value specified in the contract between the participating agency and the Vendor, unless the participating agency requires less to be posted. This bond will protect all persons supplying labor and material to the Vendor for the performance of the work provided in the contract. Subcontractors who may work on the contract may have to provide the Vendor with a performance bond. If the contract price increases after the bond is provided, the participating agency may consider obtaining additional bonds from the Vendor.

The Vendor will deliver the performance bond to the eligible participating agency at the time the contract is executed between the agency and the Vendor. Work will not commence between the Vendor and the eligible participating agency until the performance bond is received by the participating agency and a copy has been sent to NDESC via email (info@purchasingconnection.org). The Vendor will be responsible for providing NDESC with a copy of all contracts and bonds in accordance with NDESC purchasing procedures. Should the Vendor fail to satisfactorily perform the contract, the bonding company that provided the performance bond will be required to pay the dollar amount of the bond to the participating agency.

It is the Vendor's responsibility to ensure that they can obtain the required bonding for all construction products based on an awarded contract arising from this solicitation. Payment will not be issued for any project for which the required bonds have not been received.

4. Procedure for Contract Award, Notification and Processing Orders

Once the award is recommended by the AEPA Review Committee, NDESC considers the recommendation based on the value of the potential contract for its participating agencies. Participating agency is defined as any city, county, public or private educational agency, nonprofit or governmental agency that is a participant of NDESC. In the event of an award by the Board of Directors, NDESC will inform its members of the award and contract by the following methods along with contract instructions and ordering process.

- a. The contract is listed and promoted on the NDESC website (www.ndesc.org).
- b. Announcing the award in NDESC newsletters.
- c. NDESC will publish the contract and marketing information through a hard copy marketing flier and electronic email. Contracts are promoted through PDF and a hard copy product catalog distributed at statewide trade shows and agency meetings on a regular basis. NDESC will require a marketing flier, brochure, or other similar marketing pieces, in an editable, electronic format, from each vendor promoting the available contract with the vendor, and/or a web page or link. NDESC may assist in the development of the marketing flier and material (if requested by vendor), but in all cases shall have authority to review and approve any marketing materials. If a web site is used, the link will be made available from the NDESC web page. Any web page or link, or other marketing tool shall be dedicated to AEPA information only.
- d. When the member identifies a desired product or service, the member and the vendor may negotiate with each other to establish a description of items and/or services. The vendor shall quote a price to the member, in writing, using AEPA established discounts and including the two percent (2%) administrative fee in the quoted price. The administrative fee shall be based upon the total cost of goods and/or services including installation costs. The administrative fee shall not be listed as a separate line item on the quote. When a member decides to purchase through the NDESC-AEPA contract, the member issues the purchase order directly to the vendor. The purchase order must include the total invoiced cost, based on
 - i. The total cost of goods, service, and installation, including the 2% administrative fee.
 - ii. Notification will be made to the vendor in the event the purchase order is not in compliance with the contract and adjustments will be made at that time. NDESC and the vendor will mutually resolve any issues with regard to past purchases. The purchase orders are to continue to be processed and viewed as approved unless notified by NDESC otherwise. All sales and transactions may continue without delay or in anticipation of the NDESC purchase order verification.
 - iii. Once all the items and services on the purchase order have been delivered to the member in a complete and satisfactory manner, the vendor then files a copy of the final invoice, which is available to NDESC by request in support of the quarterly sales summary. The invoice is to be marked "Copy".
 - iv. Vendor makes all deliveries and installations of products and services. NDESC does not warehouse items or provide installation services.
 - v. This administrative fee is to be paid by the vendor to NDESC, quarterly, within 20 working days after the end of each fiscal quarter. The AEPA vendor shall also submit to NDESC a sales report, in Excel format, listing the following information:
 1. Name of purchasing agency
 2. Address of purchasing agency
 3. Date of purchase
 4. Invoice number
 5. Amount of purchase
 6. Administrative fee generated by sale
 7. Savings generated by sale
 8. This report shall include all sales made and payments received by the vendor in said quarter. The sales report shall be emailed to Jane Eastes at jeastes@lsc.org and copied to Lori Mittelstadt at lmittelstadt@lsc.org. The administrative fee payment shall be delivered to Jane Eastes, NDESC, 1001 East Mt. Faith, Fergus Falls, MN 56537. The check shall be made out to North Dakota Educators Service Cooperative.
 - vi. NDESC requires that all participating vendors offer the contract opportunity to all NDESC participating agencies.

5. **Express Online Marketplace:** NDESC provides participating agencies with an online purchasing platform called Express, powered by EqualLevel. Through Express, agencies are able to search for and purchase items. Essentially, Express is a one-stop shop for many of NDESC's commodity based contracts. A Vendor does not have to have an e-commerce site to be included in Express. NDESC expects growth in the number of agencies utilizing the marketplace and the volume of sales to grow significantly. NDESC will work with the Vendor to determine if the contract agreement is suitable for the online platform. If deemed suitable, NDESC will require integration into Express within a timely manner.

21. Oregon, Intermountain Educational Service District (IMESD)

A. Additional Agency Terms and Conditions – all categories

Intermountain Education Service District (“IMESD”) is an educational service district organized under the laws of the STATE OF OREGON. Pursuant to Oregon Law ORS 279A and IMESD is authorized to cooperate with other entities and in such regard is authorized to cooperate with them in the purchasing of goods and services pursuant to these contract documents. As other entities cooperate with IMESD to take advantage of the goods and services made available pursuant to these contract documents, the terms and conditions of any such sales shall be in accordance with the contract documents.

Additionally Senate Bill 3184 enables Oregon's Education Service Districts to offer the services they provide to component school districts to other organizations. For the past 10 years, the InterMountain ESD (formerly Umatilla-Morrow ESD) has been a leader in expanding revenue available for schools and IMESD programs by providing these services outside of 19 local school districts. (Reference: [ORS 334.185](#))

Under Oregon public contracting rules, each individual public agency will have its own local rules it must adhere to, in addition to statewide public contracting laws. InterMountain Education Service District does not presume that its cooperative purchasing program will necessarily comply with every agency's internal public contracting rules. We always advise potential customers to review the bid solicitation carefully and recommend review by their legal department and/or procurement personnel to assure that contracting laws are complied with.

ADVERTISING AND MARKETING: Bidders must demonstrate they possess the necessary resources and have a proven track record to market, offer, obtain, deliver, install and provide the sales and technical support services to IMESD and its participating agencies within the state of Oregon in a timely and cost effective manner.

APPLICABLE LAW AND VENUE: Any dispute arising out of any of the contract documents, or out of their performance, shall be decided by litigation in the Circuit Court of the State of Oregon in the county of Owner's residence, the parties consenting to jurisdiction in said court and permanently waiving jurisdiction in any other court, state or federal. In the event of litigation the prevailing party shall be entitled to an award of reasonable attorney's fees and costs at trial and upon any appeal thereof.

In the event that the successful bidder breaches a term of condition of a contract awarded, the IMESD may terminate the contract. In addition to the right to terminate due to the successful bidder's breach, and all other rights and remedies contained in other provisions, the IMESD reserves all its rights and remedies at law and in equity available due to the breach.

HAZARDOUS CHEMICALS: The Successful bidder shall supply current MSDS for all products as required below even if these sheets have been supplied in previous years.

The agencies participating on IMESD agreement will need MSDS and labels for certain products defined as hazardous chemicals by the State of Oregon in accordance with ORS 654.025(2) and 656.726(3). The successful bidder has the responsibility to determine such products and to provide MSDS and labels for such products. The MSDS shall be received by the IMESD by or at the time of the initial shipment of such products.

These requirements have been determined by the State of Oregon Workers Compensation Department, and published as Oregon Administrative Rules 437, Division 2 Hazard Communication. This document is available from Hazard Communication Coordinator, Accident Prevention Division, State of Oregon, Labor and Industries Building, 350 Winter St. NE, Salem, OR 97310, phone: (503) 378-3272 or (800) 922-2689 any local Accident Prevention Division Office.

HOLD HARMLESS: Bidders shall indemnify, hold harmless, and defend the IMESD from any and all liabilities, settlements, losses, penalties, costs, expenses, attorney fees (including attorney fees on appeal) in collection with any action, suit or claim based upon or allegedly based upon, resulting from or allegedly resulting from the successful bidder's negligence, omission, activities or services provided pursuant to a contract awarded to such bidder.

LAW OF THE STATE OF OREGON: Any contract between the IMESD and a bidder shall be entered into within the State of Oregon, and the laws of said state, whether substantive or procedural, shall apply to the contract.

In addition to any requirements listed, vendor shall comply with all, current, applicable state, federal and local laws, regulations and ordinances. If through mistake or otherwise any such provision is omitted then submission by either IMESD or the vendor-partner the contract shall be amended to make such inclusion or correction. IMESD Also reserves the right to amend the contract resulting from state law changes. Vendor-partners will be sent written notification of such changes.

SEVERABILITY: The parties agree that if any term or provision of a resultant contract is declared by a court of competent jurisdiction to be illegal or in conflict with any law the validity of the remaining terms and provisions shall not be affected,

and the rights and obligations of the parties shall be construed and enforced as if the Contract did not contain the particular term or provision held to be invalid.

TAXES: Taxes, whether State or Federal, shall not be included in bid prices. Our Employer Identification No: 93-6000924 indicated our tax exemption status as a political subdivision. Contractor must certify compliance with the Oregon tax laws in accordance with ORS 305.385 when applicable.

D. Procedure for Agencies Processing Orders under IMESD in Oregon

Once the award is made to the vendor, IMESD will market these contracts by: 1) including the contract on the IMESD website, 2) announcing the award in flyers, and 3) attending vendor events throughout school year. A list of schools, contact names, addresses and phone number can be accessed through the Oregon Department of Education website. At this point the vendor contacts schools and schools may contact the vendor. When the school/agency identifies a product or services and agrees on price it issues to Vendor a purchase order for that item or service, referencing the AEPA Bid number. The purchase order must include an additional one percent (2%) administrative fee in the total to be forwarded by the vendor to IMESD after the sale. All participating vendors agree to and are subject to audit proceedings of IMESD member sales.

Upon receipt of the purchase order, the vendor provides the goods or service listed on the purchase order. It is important to remember the vendor makes delivery to the member unless other arrangements are made in cooperation with IMESD. When all items and services on the purchase order have been delivered to the member in a complete and satisfactory manner, vendor then invoices the member for the goods and service. This invoice includes the additional one percent (2%) administrative fee to the total amount invoiced of the goods or service provided by the vendor. This percent is based on the total sales of goods or services. The member then pays the vendor including the one percent (2%) administrative fee. IMESD then invoices the Vendor for the 2% administrative fee based on the sale of goods and services collected by the vendor.

E. Agencies Allowed to Purchase under IMESD in Oregon

The InterMountain Education Service District (IMESD) participates in a national non-profit organization, the Association of Educational Purchasing Agencies (AEPA), which is a procurement vehicle. AEPA goals include working to secure multi-state volume purchasing contracts with benefits that are measureable, cost-effective and continuously exceed our state member's expectations. InterMountain Education Service District is the member agency representing Oregon in AEPA through an IMESD board approved Memorandum of Understanding between all participating states that are all political subdivisions related to K-12 education. All AEPA bids have been advertised by IMESD in Oregon.

Pursuant to Oregon Law, ORS 279A, InterMountain Education Service District is authorized to offer these contracts to other government entities including school districts, state universities, community colleges, special districts, local and state government.

There is no fee or annual dues to become an IMESD agency member to purchase. InterMountain Education Service District's contract management efforts are funded by a nominal administrative fee paid by the vendor based on sales volume.

PREVENTION OF ENVIRONMENTAL POLLUTION: Section 3301 of the Pennsylvania Commonwealth Procurement Code requires that all invitations for Bids and requests for proposals for construction projects issued by any governmental agencies shall set forth any provision of Federal and State statutes, rules, and regulations dealing with prevention of environmental pollution and the preservation of public natural resources that affect the Project. A Notice of said provisions prepared by the Pennsylvania Department of Environmental Resources under Act 247 of 1972, 52 P.S. § 1612 (repealed) is available from Jeffrey L. Kimball, Cooperative Purchasing Services Director at the Keystone Purchasing Network, 90 Lawton Lane, Milton, PA 17847. His telephone number is 570-523-1155 x2130, and his e-mail address is jkimball@csiu.org. Said Notice is hereby incorporated by reference. Contractor is hereby notified and agrees to comply with the terms of all statutes, rules and regulations enumerated in the Notice.

ARCHITECTURAL SERVICES: For those Members who are Pennsylvania Public School Districts, and whose projects require architectural or engineering services, your attention is directed to Section 7-751.1 of the Pennsylvania Public School Code (24 P.S. § 7-751.1), which requires a public school district to engage an architect/engineer that is independent from the Vendor/Contractor's architect/engineer.

MULTIPLE PRIME CONTRACTORS: For those Members who are Pennsylvania Public School Districts, your attention is directed to Section 7-751 of the Pennsylvania Public School Code (24 P.S. § 7-751), which requires a public school district to use separate prime Contractors for plumbing, heating and ventilating, and electrical work. To the extent a school district's project extends beyond general construction services, the school district will need to separately bid plumbing, heating and ventilating, and electrical work, and should consult with its individual solicitor for compliance with Section 7-751. For other Members who are subject to multiple prime requirements under applicable bidding laws, such Members should consult with their individual solicitors for compliance with said requirements.

D. Procedure for Processing Orders

Once the award is made to the Contractor/vendor, KPN will inform its members of the contract by: (1) including the contract in the agency database that is available on the KPN website, (2) announcing the award in its periodic newsletter, and (3) publishing the contract information in a catalog disseminated to all members. A list of members, institution names, contact names, addresses and phone number will be made available to the vendor in an electronic format. At this point the Contractor/vendor contacts the members and members may contact the Contractor/vendor. When the member identifies a product or service it issues a purchase order for that item to the vendor. The vendor's price to its members will include the following administrative fees: currently 2% (two percent) on all supplies, equipment and construction, rental or lease, annual subscription fee, etc.; and others administrative fees as approved by KPN and will be collected from the member or other qualifying purchaser. KPN reserves the right to adjust the administrative fee at any time during the duration of the contract and any renewal period or to modify the administrative fee based on volume of purchase. If the administrative fee is reduced do to the size of the project the vendor will show the adjustment on the quote. The vendor will also compile a quarterly report showing all purchases made by KPN members under this contract. The vendor will also produce an annual report for all purchases made under this contract for a period of beginning with the award of the contract through December 31st and all consecutive 12-month periods if contract is extended. The vendor will make all administrative fee payments to KPN by the 15th of the succeeding month of each 3-month period (quarterly) after they have received payment from the member agency and all checks are to be made payable to the Central Susquehanna Intermediate Unit (CSIU) and sent to Keystone Purchasing Network, 90 Lawton Lane, Milton, PA 17847, and Attention: Jeff Kimball. All reporting of purchases will be broken down by entity by state and will show purchaser, total dollar and date of purchase.

E. Agencies Allowed to Purchase under the Member Agency

The Keystone Purchasing Network (KPN) is a cooperative purchasing program operated by the Central Susquehanna Intermediate Unit under various state inter-governmental cooperation laws. Every public school district in the state is eligible to become a member and must complete a membership application with the KPN. No member is obligated to use these services, but they find the benefits of low price and not needing to go through the bidding process most advantageous. Only those members listed on an approved KPN membership list are eligible to purchase under these contracts. This list may change during the contract period and currently includes members from Pennsylvania, Maryland, New York, Delaware, District of Columbia and other Northeast & Mid-Atlantic states. Vendors may choose to offer KPN in other non-AEPA member states where cooperative purchasing laws allow.

Additional members may include other public educational institutions in the state, college, university, community colleges, vocational schools, charter schools, municipal and county governments and other non-profit organizations from Pennsylvania or any other state where a member is located. Membership from other entities is permitted by various intergovernmental cooperative purchasing laws or regulation from their home state.

As member agencies from other states are added to the membership of the KPN the awarded vendor(s) agrees to abide by all state and local laws and/or regulations that may apply to any purchase of products, services or construction by these agencies. KPN reserves the right to market any AEPA contract under any cooperative program name that it may choose in the future on a national basis in any non-AEPA member state.

24. OFFICE OF SMALL BUSINESS-

- a. It is the policy of the County of Fairfax as declared by the Fairfax County Board of Supervisors' adoption of a Small and Minority Business Enterprise Program, April 6, 1981, that Fairfax County and its employees undertake every effort to increase opportunity for utilization of small or minority businesses in all aspects of procurement to the maximum extent feasible.
- b. In connection with the performance of this contract, the Contractor agrees to use his or her best effort to carry out this policy and to insure that small and minority businesses shall have the maximum practicable opportunity to compete for subcontract work under this contract consistent with the efficient performance of this contract.
- c. As used in this contract the term "small business" means a corporation, partnership, or sole proprietorship, or other legal entity formed for the purpose of making a profit, which is independently owned and operated, has either fewer than 100 employees, or less than \$1,000,000 in annual receipts.
- d. As used in this contract, the term "minority business" means a business enterprise that is at least 51 percent owned and controlled by a minority person or persons. Such persons include African Americans, Hispanic Americans, Asian Americans, American Indians, Eskimos and Aleuts; women regardless of race or ethnicity; and persons with a physical impairment that substantially limits one or more of the major life activities of such individuals, a record of such impairment, or who are regarded as having such an impairment.
- e. Contractors may rely on oral or written representations by Subcontractors regarding their status as small and/or minority business enterprises in lieu of independent investigation.
- f. Where Federal grants or monies are involved it is the policy of Fairfax County, through its agents and employees, to comply with the requirements set forth in the U.S. Office of Management and Budget Circular No. A-102, uniform administrative requirements for Grants and Cooperative Agreements with State and Local Governments, as they pertain to small and minority business utilization.

- 27. PARTIAL PAYMENTS**-Unless otherwise specified, partial payments will be made upon acceptance of materials or services so invoiced if in accordance with completion date. However, up to 5 percent (5%) of the value of the entire order may be retained until completion of contract.

PAYMENT FOR EQUIPMENT, INSTALLATION, AND TESTING**-When equipment requires installation (which shall also be interpreted to mean erection and/or setting up or placing in position, service, or use) and test, and where such installation or testing is delayed, payment may be made on the basis of 50% of the contract price when such equipment is delivered on the site. A further allowance of 25% may be made when the equipment is installed and ready for test. The balance shall be paid after the equipment is tested and found to be satisfactory. If the equipment must be tested, but installation is not required to be made by the Contractor or if the equipment must be installed but testing is not required, payment may be made on the basis of 75% at the time of delivery and the balance shall be paid after satisfactory test or installation is completed.

 - (b) a recent record of failure to perform or of unsatisfactory performance in accordance with the terms of one or more contracts; provided, that failure to perform or unsatisfactory performance caused by acts beyond the control of the Contractor shall not be considered to be a basis for suspension or debarment;

 6. The Contractor has abandoned performance or been terminated for default on any other Fairfax County project;

The County of Fairfax acts only as the "Contracting Agent" for these public bodies. It is the Contractors responsibility to notify the public body(s) of the availability of the contract(s). Other public bodies desiring to use this contract will need to make their own legal determinations as to whether the use of this contract is consistent with their laws, regulations, and other policies. Each public body has the option of executing a separate contract with the Contractor(s). A Power of Attorney must accompany the bid bond and must appoint the surety's true and lawful attorney-in-fact to make, execute, seal and deliver the bid guarantee bond. Failure to submit the required bid security with the Bid shall render the bid non-responsive and the bid shall be rejected.
- **Public Works:** State of Washington statute requires workers be paid prevailing wages when employed on public works projects and on public building service maintenance contracts. (RCW 39.04.010, RCW 39.12.010 and 020) It is the contractor's responsibility to be acquainted with and comply with State regulations regarding payment of prevailing wages on public works projects. Prevailing Wages are established by the Washington State Department of Labor and Industries and can be obtained on the web at <http://www.lni.wa.gov/TradesLicensing/PrevWage/WageRates/default.asp> or by contacting Labor and Industries at 360-902-5335. KCDA serves all counties in Washington State. A copy of the applicable prevailing wage rates are also available for viewing at the office of KCDA. Upon request KCDA will mail a hard copy of the applicable prevailing wages.
- **Application:** The Public Works Act regulates wages paid to workers, laborers and mechanics performing public work. It does not apply to work that is clerical, executive administrative or professional in nature. It does not apply to work of a secretary, engineer or administrator, unless they are performing construction work, alteration work, repair work, etc. Prevailing wage application depends on the work that is performed, regardless of the worker's job title. (RCW 39.12.020 and WAC 296-128-510 through 530). Definition: Public Works is all work, construction, alteration, repair or improvement that is executed at the cost of the state or any other local public agency. This includes, but is not limited to, demolition, remodeling, renovation, road construction, building construction, ferry construction and utilities construction. (RCW 39.04.010). Public Building Service Maintenance Contracts: Prevailing wages are also required on all public building service maintenance (janitorial) contracts. (RCW 39.12.020). **Contractors bidding a Public works project exceeding \$1,000,000.00 must declare who their HVAC, Plumbing and Electrical subcontractors will be and submit this information with bid documents in order for the bid to be responsive (RCW 39.30.060).** Such projects also have special considerations pertaining to prefabricated materials (RCW 39.04.370) and use of apprentices (39.04.320).
- **Reciprocity:** In accordance with RCW 39.04.380 any bidding process for public works in which a bid is received from a nonresident contractor from a state that provides a percentage bidding preference, a comparable percentage disadvantage must be applied to the bid of that nonresident contractor. This does not apply to public works procured pursuant to RCW 39.04.155, 39.04.280 or other procurement exempt from competitive bidding.
- **Prevailing Wage:** Definition: Prevailing Wage is the hourly wage, usual benefits and overtime, paid in the largest city in each county, to the majority of workers, laborers and mechanics. The rate is established by the Department of Labor and Industries for each trade and occupation employed in the performance of public work. If Federal funds are used, bidders must comply with provisions of Davis-Bacon Act.
- **Basic procedures:** A Statement of Intent to Pay Prevailing Wages and Affidavit of Wages Paid must be filed and approved for the contractor and all subcontractors. No payments can be made until all Contractors/Vendors have submitted an approved intent form. KCDA cannot release retainage until all Contractors/Vendors have an approved Affidavit of Wages Paid form certified by the Industrial Statistician. (RCW 39.12.030, 040, 042). Costs for filing shall be the responsibility of the Contractor. Once the work is successfully completed, KCDA will release 95% of the project cost and withhold 5% retainage for as dictated by law. The final 5% will be paid when the following is completed: acceptance of project completion to the satisfaction of the KCDA ordering member, followed by receipt of approved Affidavit of Wages Paid Forms, Releases from Washington State Department of Labor & Industries, Employment Security Department and the Department of Revenue.
- **Federally Funded Projects:** In addition to the Federal Requirements of Section III General Terms and Conditions, Davis-Bacon prevailing wage requirements apply to public works construction contracts of \$2000 or more when a project includes any federal funding of any amount. When there is a difference between applicable state and federal prevailing wages for a particular classification of labor, contractors and subcontractors are required to pay the higher of the two prevailing wages. Applicable federal prevailing wage determinations can be found at <http://www.wdol.gov/>. Contractors/Subcontractors must be knowledgeable and adhere to all federal prevailing wage requirements, including but not limited to paying workers weekly and providing certified weekly payrolls for the contractor and subcontractors of any tier as required in the Davis-Bacon Act and applicable U.S. Department

of Labor regulations. Falsification of any prevailing wage payroll records may subject the contractor or subcontractor to civil or criminal prosecution under section 1001 of Title 18 and section 231 of Title 31 of the United States Code. Contractor shall inform all subcontractors of the Davis-Bacon requirements and the prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses. Contractor must coordinate all requirements related to federal funded projects with the KCDA member Agency.

Any contract award will be subject to such terms and conditions, as well as any additional terms and conditions in any purchase order, ancillary agency contract, or construction contract agreed upon by the bidder and the purchasing agency, which must be consistent with and protect the purchasing agency at least to the same extent as AEPA’s terms and conditions. If this agreement is terminated in accordance with this paragraph, the participating agency shall only be required to pay bidder for goods and services delivered to the participating agency prior to the termination and not otherwise returned in accordance with the bidder’s return policy. If the participating agency has paid the bidder for goods and services provided as the date of termination, bidder shall immediately refund such payment(s).

If an alternate provision for termination of a participating agency’s purchase for cause and convenience, including the manner by which it will be effected and the basis for settlement, is in the participating agency’s purchase order, ancillary agreement or construction contract agreed to by the bidder, the participating agency’s provision shall control.

Questions for Bid IFB #020-A - Athletic Surfaces - Natural & Synthetic Surfaces for Sport Fields, Tracks, Courts, Playground & Lanscaping Applications

Question #1

We are interested in submitting a bid for category 3 running track, tennis and athletic courts. And I was wondering if we would have to bid the complete category or can we just submit pricing on the track surfacing portion of the work?

Answers
You may submit pricing for track surfacing only, it is not required to do the complete category. All AEPA required Forms must be completed and submitted.

Question #2

Part B page 2 states that Massachusetts is not participating in this bid, however they have a signature page in part C. Does Part C page 20 need to be signed if Mass is not participating? What documents exactly need to be signed in part C?

Answers
No, you do not need to sign a form in Part C for a state that is not participating in the category. Specifically, Massachusetts is not participating in AEPA Bid #20-A, therefore bid responses do not have to sign Page 20 of Part C. All documents in Part E are required to be signed for a vendor response to be considered responsive by AEPA.

Question #9

I'm looking at the Bid Checklist for AEPA IFB #020-A Natural and Synthetic Surfaces for Sport Fields, Tracks, Courts, Playground and Landscaping Applications. Is there any more required documents beyond Bid Bond, Part C-F, Exhibit A-D? Are you expecting a section before Bid Bond that includes product specification sheets, material data sheets, references, etc?

Part A, Terms and Conditions, E. Bid Submittal, sections 1 & 2 discuss preparation of the bid response and submittal. There may be documents requested within one of the required Parts listed in the Bid Checklist. If so, the expected documents, such as pricing catalogs, specifications, warranty information, etc, will be requested within Part B or Part D and should be uploaded as a part of the bid response. Please note that there is no limit to the amount of information that can be uploaded on Public Purchase.

We received an email response of "The way we are able to assist with these types of credit reference requests is to refer the auditor to www.confirmation.com." If the company is publicly traded, a complete Annual Financial Report from the most recent year is REQUIRED. Alternatively, Bidders may choose to send the Letter of Line of Credit and/or Annual Report by email directly to the AEPA Executive Director, George Wilson, at georgewilson.aepa@outlook.com. FT REF 4	We have engaged FT for several projects in this category (1). We have been very satisfied with their performance. We continue to have a great working relationship with FT
MG REF 2	I would highly recommend MG for synthetic turf field and running track projects.
MG REF 3	The MG was a great partner on our turf replacement project. They were responsive to all of our questions and needs. They installed a great product in a timely fashion and kept us up to date on timeline.
