Extend the Classroom to the Bus

Kajeet SmartBus™

Turn travel time into instructional time. Kajeet extends the classroom and helps improve student behavior, and overall safety, by providing more than just Internet on the school bus.
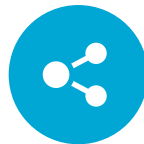

Wi-Fi Equipped Buses:

- Enable students to complete homework online or study on long routes home.
- Keep students engaged, contributing to a reduction in behavior incidents.
- Allow drivers to focus on driving safely, without hazardous distractions.
- Let athletes and school groups learn while traveling to and from school events.
