

Turn-Key Education Broadband™ Plan

Kajeet Complete™

Ensure students succeed by providing **more than just Internet** outside the classroom through safe, affordable access with the Kajeet SmartSpot®.

Our **Kajeet Complete™** Education Broadband plan is a turn-key program designed to fully support your technology initiatives. We manage the data and device controls, default K-12 and CIPA-compliant filtering, reporting, and provide technical support. Simple for students and less work for educators.

“The biggest advantage we’ve seen with Kajeet is the filtering, making sure that we’re CIPA-compliant and being able to manage bandwidth and overage charges. We wanted to make sure [students] were using it appropriately — using it for education and not just streaming entertainment.”

Jeff Mozdierz
Technology Director
Pontiac School District

500MB of Education Broadband
per day per student

On a limited budget? We offer a 200MB plan.
