I. About AEPA

The Association of Educational Purchasing Agencies (AEPA) is a school procurement consortium established in 2000 through a Memorandum of Understanding, and incorporated in 2007 under the state laws of Nevada. Currently, twenty-seven (27) states have joined to issue simultaneous Invitations for Bids (IFB) generating sales in forty-nine (49) states.

AEPA requires that <u>Bidders only respond if they are able to offer prices equal to or lower than what they ordinarily offer on separate, single school district, single state or multi-state contracts that have equal <u>or lesser volume</u>. AEPA's mission is to cooperatively serve our members though a continuous effort to explore and solve present and future purchasing needs. Our goals include working to secure multi-state volume purchasing contracts with benefits that are measurable, cost-effective and continuously exceed our members' expectations. AEPA is committed to accomplish this mission lawfully and ethically, using leading edge technology and futuristic business practices.</u>

AEPA designates one Member Agency per state that is operating legally under the rules and regulations of that state. Any additional agencies that wish to participate will negotiate with the authorized Member Agency and participate through them in a manner in which they mutually agree is not in conflict with AEPA procedures. The Member Agency will be the only agency allowed to represent that state at AEPA and will be the only communication link between AEPA and that state.

Each Member Agency, along with the awarded Vendor Partner, represents, supports and promotes the AEPA contracts within their respective state. While the consortium was initially created to support educational entities, the Member Agency for each state determines which public entities (higher educational institutions, cities, counties, townships, states, etc.) can utilize the competitively bid contracts (see the Summary of State Participation by Bid Category Table).

II. Bid Procedures

A. Issuing Agency

The great benefit to the Bidder is that one response may be prepared for approval by AEPA and award by multiple AEPA Member Agencies and utilized by their Participating Entities located throughout many states. Some of these 27 AEPA Member Agencies have Participating Entities in other non-AEPA states as identified in the Part B - Specifications document. Bidders responding to this IFB will submit their response in the required formats (PDF, Word, Excel) of all files requested along with complete catalogs via Public Purchase by the due date and time of this IFB. Bidders selected in response to this single IFB have the potential to provide products and services to local education agencies serving over 36,000,000 (excludes non-represented AEPA states) students.

Each AEPA Member Agency will individually publish notice of the IFB. Bidders will submit their response online, electronically via Public Purchase (www.publicpurchase.com). Responses will be evaluated by bid oversight committees comprised of AEPA Member Agencies representatives who have indicated they will participate in the category of products and services being solicited, and after AEPA approval, individual AEPA Member Agencies may award contracts to the AEPA Approved Vendor Partners or reject their offers.'

The procurement activities of AEPA are limited to document preparation, distribution of the IFB, initial evaluation, and recommendation for possible approval to AEPA Member Agencies. AEPA consists of agency officials who have agreed to assist one another in meeting the public purchasing needs of local school districts and other political subdivisions.

Contracts awarded through cooperative purchasing must meet the procurement laws of the states of each AEPA Member Agency. When these laws are satisfied, an individual entity using these contracts is deemed in compliance with bidding regulations. As allowed by specific state statutes, they can issue purchase orders for any amount without the necessity to prepare their own IFB, Request for Proposal

(RFP), or Request for Quotations (RFQ). This saves the entity time and allows for economical and efficient purchasing.

State laws that permit or encourage cooperative purchasing contracts do so in the belief that it saves the participants both time and money. Time is saved by having access to volume discounted contracts publicly solicited and being able to purchase what is needed without having to wade through the solicitation process (write solicitation, advertise the IFB, open each response, evaluate and make a selection). Money is saved in procurement cost and lower prices will be the result of volume purchasing. Therefore, a contract issued by a cooperative can be used by hundreds of separate political units; but if it has the same or higher prices than what a single agency or state contract can get through its own bid, a cooperatively bid contract makes no sense.

The AEPA policy for membership permits new agencies to become AEPA Member Agencies upon approval of existing members. If additional Agencies are added, they and their members may procure from existing contracts upon approval of the awarded Vendor Partners and in accordance with their state laws.

H. Contract Award and Implementation

An AEPA oversight committee will perform initial bid response review and evaluation and will prepare and make a recommendation to AEPA for its consideration and approval. Those selected Bidders who are approved by AEPA will then be considered by the individual AEPA Member Agencies for contract award. It should be noted that once AEPA has approved the bid response, a Bidder becomes a "Vendor Partner" for AEPA.

Recommendations for approval by AEPA will be posted to Public Purchase and the AEPA website on November 2, 2018. Bidders who are being recommended to AEPA by the Bid Committees and will have their proposal reviewed at the Spring Meeting, April 7-9, 2019, will be invited to present for 15 minutes, if approved by AEPA, to the group to educate all 27 states on your company, products, etc.

Once the approved Bidders have been notified, it is their responsibility to contact those AEPA Member Agencies (up to 27) who had indicated an interest in participating and send Part C (if applicable), Part D, E and F to each of the participating AEPA Member Agencies. Each AEPA Member Agency will review, evaluate and determine which, if any, it will award contracts to.

It is sole responsibility of the Bidder to perform and complete any necessary research and investigation required to make themselves aware of and comply with this item.

Clarification: As used in this solicitation, clarification means communication with a Bidder for the sole purpose of eliminating minor irregularities, informalities or apparent clerical mistakes in the bid. It is achieved by explanation or substantiation, either in response to an inquiry by the AEPA Member Agency or as initiated by the Bidder. Clarification does not give the Bidder an opportunity to revise or modify its bid.

Commercially Available Catalog: A published paper catalog or an online website that is widely distributed or accessible. It is made available to the general public or schools and contains a verifiable price, along with product descriptions, SKU numbers, and photographs. A commercially available catalog is distinct from a custom catalog or website, whose prices and offerings are tailored to niche audiences.

Competitive Range: AEPA and its AEPA Member Agencies reserve the right to establish a competitive range of acceptable responses as part of the evaluation process as defined herein. Responses below the competitive range will be determined to be unacceptable and will not receive further consideration.

Contract Documents: AEPA Member Agency will review proposed contract documents. Vendor Partner's contract document shall not become part of AEPA Member Agency's contract with Vendor Partner unless and until an authorized representative of an AEPA Member Agency reviews and accepts it.

Construction: Each AEPA Member Agency within their state statutes defines what constitutes construction, identifies the policies, rules, regulations and codes that govern construction projects. AEPA has defined construction as building, altering, repairing, installing or demolishing in the ordinary course of business any road, highway, bridge, parking area or related project; building, stadium or other structure; airport, subway or similar facility; park, trail, athletic field, golf course or similar facility; dam, reservoir, canal, ditch or similar facility; sewage or water treatment facility, power generating plant, pump station, natural gas compressing station or similar facility; sewage, water, gas or other pipeline; transmission line; radio, television or other tower; water, oil or other storage tank; shaft, tunnel or other mining appurtenance; electrical wiring, plumbing or plumbing fixture, gas piping, gas appliances or water conditioners; air conditioning conduit, heating or other similar mechanical work; or similar work, structures or installations. Construction shall also include: leveling or clearing land; excavating earth; drilling wells of any type, including seismographic shot holes or core drilling; and similar work, structures or installations.

Cooperative Procurement: Some individual state procurement codes may contain cooperative purchasing statutes that state any state agency or local public body may either participate in, sponsor or administer a cooperative procurement agreement for the procurement of any services, construction or items of tangible personal property with any other state agency, local public body or external procurement unit in accordance with an agreement entered into and approved by the governing authority of each of the state agencies, local public bodies or external procurement units involved. The cooperative procurement agreement shall clearly specify the purpose of the agreement and the method by which the purpose will be accomplished. Any power exercised under a cooperative procurement agreement entered into pursuant to each state's procurement code shall be limited to the central purchasing authority common to the contracting parties, even though one or more of the contracting, parties may be located in different states.

Cooperative Purchasing Contracts: The Bidder agrees that all the prices, terms, warranties and benefits granted by the Bidder to AEPA Member Agencies or Participating Entities through this contract <u>will be equal to or better</u> than those offered to any present or future customer or cooperative that have equal or lesser volume. If the Bidder shall, during the term of this Contract, enter into arrangements with any customer or cooperative providing greater benefits or terms that are more favorable, the Bidder shall notify the AEPA oversight committee chairman and offer said prices, terms, warranties and benefits to all AEPA Member Agencies. The following shall be noted:

- 1. AEPA and its AEPA Member Agencies reserves the right to accept or reject the Bidder's response if it is determined it does not comply with the above based on their knowledge, investigation review and findings of Bidders' submitted prices.
- 2. In the event the Vendor Partner offers lower prices to another customer or cooperative, AEPA and its AEPA Member Agencies shall notify the Vendor Partner of the deviation and request written justification. Based on AEPA and its AEPA Member Agencies' investigation, review and findings, AEPA reserves the right to take following actions: to request the Vendor Partner to immediately adjust its AEPA's offered prices to match the lower prices offered, to work with the Vendor Partner to mediate and resolve the situation; or to notify the Vendor Partner that it intends to suspend and/or terminate their contract.

Cost of Bid Preparation: Neither AEPA nor any AEPA Member Agency shall reimburse the cost of developing, presenting or providing any response to this solicitation.

Credit Hold: The Bidder must agree not to place the AEPA Member Agency and/or its Participating Entity on "credit hold" without 10-days advanced notice in writing, either by letter, facsimile or email to the AEPA Member Agency and the Participating Entity. The AEPA Member Agencies believes it is better for the Vendor Partner if the AEPA Member Agency places the slow-paying Agency Member on "credit hold;" if a Vendor Partner places the Participating Entity on credit hold, agencies that pay promptly are penalized. If, on the other hand, the Member Agency places the offending Participating Entity on "credit hold", payment is more likely to result and only the offender is disciplined.

Delivery Terms, Conditions and Requirements

- 1. **Delivery:** is to be made within the specified time identified in Part B Specifications for each bid category, unless otherwise stipulated in writing and accepted by all parties (Buyer placing order and Vendor Partner). The Vendor Partner agrees to notify Buyer if an order cannot be processed within the specified period and/or the agreed upon timelines.
- 2. **The title and risk of loss of material or service:** shall not pass to the Buyer purchasing the material or services until it actually receives the material or service at the point of delivery and they have been accepted, unless otherwise provided within this document or individual project's contract.
- 3. **Ownership of products and services:** happens only after receipt and acceptance of delivery by the Buyer. The Buyer will be the determining judge of whether materials and services delivered under the purchase order/contract satisfy the specifications and requirements as identified in the contract/order.

Vendor Partner shall retain title and control of all goods until they are delivered and received. All risk of transportation and all related charges shall be the responsibility of the Vendor Partner. Shipping shall be F.O.B. destination. The Vendor Partner shall file all claims for visible or concealed damage. - 6. **Stored Materials:** Upon prior written agreement between Vendor Partner and Buyer, payment may be made for materials not incorporated in the work but delivered and suitably stored at the site or some other location, for installation at a later date. Vendor Partner agrees to provide proof of coverage and/or addition of Buyer as an additional insured upon Buyer's request. Additionally, if stored offsite, the materials must also be clearly identified as property of Buyer and be separated from other materials. Buyer must be allowed reasonable opportunity to inspect and take inventory of stored materials, on or offsite, as necessary. Until final acceptance by Buyer, it shall be Vendor Partner's responsibility to protect all materials and equipment. Vendor Partner warrants and guarantees that title for all work, materials and equipment shall pass to Buyer upon final acceptance. Payment for stored materials shall not constitute final acceptance of such materials.
- 7. **Improper delivery:** Unless contrary to other parts of this solicitation, if the goods, services or tender of delivery fail in any respect to conform and adhere to the terms, conditions, specifications of the resulting contract based on this solicitation and/or the individual Buyer's contract/order. - **8. Defective Goods:** Vendor Partner agrees to pay for return shipment on goods that arrive in a defective or inoperable condition. Vendor Partner must agree to arrange for return shipment of damaged goods.
- 9. **Liquidated Damages:** The Buyer may suffer financial loss if the project is not substantially complete or products or services are not delivered on the established date. The Vendor Partner (if applicable Surety) shall be liable for and shall pay to the Buyer, not as a penalty, the sums that may be hereinafter agreed upon as liquidated damages per calendar day of delay until the work and/or delivery is determined by Buyer to be complete and/or delivered. Liquidated damages will be determined on a project-by-project basis.
- 10. **No Replacement of Defective Tender:** Every tender of materials must fully comply with all provisions of this contract. If tender is made which does not fully conform, this shall constitute a breach and Vendor Partner shall not have the right to substitute a conforming tender without written consent of all parties involved.
- 11. **Default in One Installment to Constitute Total Breach:** Vendor Partner shall deliver conforming materials in each installment or lot of this contract and may not substitute nonconforming materials. The AEPA Member Agency reserves the right to declare a breach of contract if the Vendor Partner delivers nonconforming materials or services to any Buyer under this contract.
- 12. **Restocking Fees:** A restocking fee may only be charged on products ordered and that have been delivered to the Buyer's site in accordance with the order/contract. Restocking fees in excess of 15% will not be allowed. Restocking fees may be waived, at the option of the Vendor Partner. The Vendor Partner must identify, specify and justify any exceptions or deviations taken.

Deviations or Exceptions to Requirements: Deviations or exceptions stipulated in a Bidder's proposal may result in rendering of the response non-responsive. AEPA and its AEPA Member Agencies reserve the right to determine whether the deviation or exception does or does not serve the interest of or is not advantageous or acceptable to AEPA, its AEPA Member Agencies or Participating Entities.

Disbarment and Suspension: By signature accepting Terms and Conditions, it is certified on behalf of the company and their key employees that neither the company nor its key employees have been proposed for debarment, debarred, or suspended by any State or Federal Agency within the last five (5) years.

Usage depends on the actual needs of the AEPA Member Agencies, their Participating Entities and the marketing by the Vendor Partner.

External Procurement Unit: means any procurement organization not located in a current AEPA Member Agency state which, if located in the state, would qualify as a federal or state agency or a local public body. Vendor Partner shall comply with all applicable standards, orders, or requirements issued under Section 306 of the Clean Air Act (42 U.S.C.) 187 [h], and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251 et. The Vendor Partner agrees that the cost for any item bid or offered on this contract will be uniform for all states, and that any differences in pricing are due to state specific installation and labor costs, AEPA Member Agency's Administrative Fee, etc. The Bidder must provide their pricing as requested utilizing the various pricing methodologies specified. **The Bidder/Vendor Partner must agree that they will not offer or provide a better price to any individual entities or cooperatives with equal or lesser volume than that through AEPA. Bidders are also encouraged to offer OPTIONAL pricing strategies including "Hot List" and "Volume Discounts".

If a new catalog and price list is published during the contract term, the original discounts shall be applied to the new published prices to establish the AEPA price for these core items.
 - iv. **Product Addition/Discontinuation**: New products, within the same scope of work, may be added at the established percentage discounts at any time. Discontinued products may be dropped at any time during the year. In the event a Core item is discontinued by the manufacturer during the term of the contract, Vendor Partner is required to add a functionally equivalent substitute at the same discount structure.
 - b. **Line-Item Pricing:** Line-item pricing is utilized when products and/or services that are broken down in detail by element, component, product categories, product type and each product and/or service is presented as an individual item which needs to be combined with other items to make up a final project or solution. The Bidder offers firm pricing for specific line items in response to this bid; a project's cost is derived by the Vendor Partner preparing and providing a quote based on the project's terms, conditions and requirements based on the line item pricing provided in the bid. The information provided in this bid for each item includes: Product Category, Product Description, Manufacturer, Manufacturer SKU, Vendor SKU, Unit of Measure, Item List Price, AEPA Bid Price.

- specifically detail and document the cause and/or reason for price changes and include any supporting documentation (manufacturer's letter, indexes, etc.). All price changes require approval by the AEPA Member Agencies.
- iii. **Unpredictable Economic Price Adjustment:** If economic price adjustment contingencies occur, Vendor Partner may submit a fully documented request (manufacturer's letter, indexes, etc.) for price adjustment to AEPA Contract Oversight Committee for review and approval by the committee and the AEPA Member Agencies. The documentation must substantiate the cause and/or reason for the requested price increase and demonstrate that it was unpredictable at the time of bid submittal and/or contract renewal and out of the Vendor Partner's control. Pricing will take effect thirty (30) days after approval and acceptance.
- iv. **New Products/Services:** Vendor Partner may submit new products or technologies that are within the original scope of work for the bid, to be added to the contract pending review and approval of the AEPA Bid Oversight Committee and AEPA Membership. Requests should be submitted to the AEPA Contract Oversight Committee thirty (30) days prior to the AEPA Winter or Spring meeting.
- c. **Automated System for Pricing (ASP)**: The method consisting of an ASP and/or software application (RSMeans, Gordian) that is self-contained and consists of a turn-key solution that includes a complete line-item listing of all of the products, supplies, materials, equipment, services, accessories and options with their description, specifications, terms, conditions and associated pricing for each item, sub-assemblies and/or assemblies. The Bidder provides a percent of discount or fixed multiplier/factor to be applied to total project cost to allow for individual state conditions and requirements and to arrive at the AEPA price.
- d. **RSMeans** (Construction Related Bids only): It is important for Vendor Partners to breakout all costs (quantity and price) of all items listed under RS Means or an Alternative Pricing method. This includes all quoted items not on the approved AEPA bid submittal. The following are minimum requirements for using RSMeans for quoting projects to AEPA Member Agencies:
 - i. The Contractors must use the current year and standard cost data. Only the following cost data titles will be excepted,
 - a. Building Construction Cost Data Book
 - b. Facilities Construction Cost Data
 - c. Facilities Maintenance & Repair Cost Data
 - d. Site Work & Landscape Cost Data Book
 - ii. All work proposed under RSMeans must use RSMeans format, even if subcontractors are used.
 - iii. An RSMeans spreadsheet must be submitted to substantiate the quote given to the AEPA Member Agency. The spreadsheet columns must reveal the full RSMeans number and a sufficient amount of the description. This also applies to change orders.
 - iv. Pricing must be done by Location codes. National Average will not be allowed. In order to choose the "closest" location code, the first three (3) numbers of the zip code will be used to determine the city location index in the AEPA Member Agency State.
 - v. The AEPA contract holder factor, bonding cost, AEPA discount and taxes if applicable must be shown as separate line items at the bottom of the RSMeans spreadsheet. This information can be shown on a separate summary sheet. The summary sheet must start with the RSMeans spreadsheet total and show the detail for each of the items stated above. This detail will be provided to that AEPA State Agency and the AEPA Buyer as required.
 - vi. All change orders which list items covered by RSMeans must be supported by an RSMeans spreadsheet.
- e. **Alternative Method of Costing**: This method covers any product and/or service not covered by catalog pricing, published price list, line-item price list, automated system for pricing, or is a product and/or service due to the projects or applications specifications, conditions and /or requirements that need to be custom designed, developed, manufactured and/or produced to meet the requirements of an individual, project or sole source. The alternative pricing is calculated as follows:
 - i. The Bidder must prepare, issue and receive three written quotes from available suppliers and select the supplier that offers the products and services that meet the stipulated requirements

- and specifications and the most cost effective solution. All quotes must be made available upon request.
- ii. The Bidder must indicate the percent of overhead and /or markup as part of the their response to be added to these costs to obtain the normal and customary retail price.
- iii. The AEPA price is calculated by taking the product and services to cost to the Contractor plus the indicated percent of profit/overhead to equal the normal and customary retail price. The Contractor will then subtract the approved AEPA discount to obtain the AEPA price. Example: item cost \$1,000; percent of profit/overhead of 20% equals retail price of \$1,200; less the AEPA discount of 10% or \$120 equals the AEPA price of \$1,080.
- 2. **Secondary Pricing Methods (Catalog Bids only, see Part B for category designation):** Bidders are required to offer Customized Price Lists (Catalog Bids ONLY) and encouraged to offer Hot Lists and Volume Discounts as follows:
 - a. **Customized Price List:** Bidders are required to offer customized price lists to Participating Entities for items within the Bidder's Commercially Available Catalog for Catalog Bids ONLY (not pertinent to Line Item Bids). The original price for products/services is not exceeded after the time limit. The AEPA Oversight Committee and all AEPA Member Agencies shall be notified of any special or time limited price reduction. New prices must be on record fifteen (15) days prior to any offer of the new prices being proposed or offered to AEPA Member Agencies and Participating Entities. All additional discounts are to be offered equally to all AEPA Member Agencies and Participating Entities and be based on the Volume Price Discounts originally bid providing the same or similar volume commitment, specific needs, terms and conditions, a similar time frame, seasonal considerations and provided the same manufacturer support is available to the Vendor Partner.

An awarded company is only approved for the catalog and pricing | Sep 20, 2018 7:51:15 PM CDT discounts that was included in the bid response. AEPA has a written procedure for vendor partners to add to or remove items from a bid catalog. This can be found in Part A. Terms and Conditions under "Pricing" (page 22):

ii. New Catalogs/Price Changes: New catalogs and corresponding nationally published price lists may be submitted throughout the term of the contract and shall be submitted to the AEPA Contract Oversight Committee for review prior to release to all AEPA Member Agencies. Prices may change based on manufacturer's price changes, new published pricing or price lists, but the original discount bid shall remain firm for the duration of the contract.

iii. Core List: In a Catalog Priced bid, a category (i.e. office supplies) may include a "core list" which contains a selection of the most commonly used products/services with the expectation that a deeper discount would be bid for these items. If a new catalog and price list is published during the contract term, the original discounts shall be applied to the new published prices to establish the AEPA price for these core items.

iv. Product Addition/Discontinuation: New products, within the $\,$ same scope of work, may be added at the established percentage discounts at any time. Discontinued products may be dropped at any time during the year. In the event a Core item is discontinued by the manufacturer during the term of the contract, Vendor Partner is required to add a functionally equivalent substitute at the same discount structure.

Question #16

In regards to Question #6 - can you please clarify your answer? Are you wanting the percentage lower than a single agency, larger school district or regional cooperative OR are you wanting the percentage of the discount offered? In the previous submission there was an option to check equal to and lower by.

School Specialty, Inc. Response to Association of Educational Purchasing Agencies Invitation for Bid

AEPA IFB #019-E School & Instructional Supplies Catalog Addendum to Form D

BACKGROUND:

In what year was this business started under its present name?

Under what additional, or former name(s) has your business operated?

School Specialty was incorporated in 1959 as Valley School Supply. The company's sales grew consistently during its first 30 years of existence but began to struggle financially in the mid-1980's due to losses generated by several non-core businesses. In 1988, Dan Spalding, son of one of the founders, joined the company as CEO. Dan sold off many of the non-core businesses and completed a significant number of strategic acquisitions during the next 13 years. School Specialty became publicly traded in 1998 and was reincorporated in the State of Wisconsin on July 20, 2000. School Specialty organized its operating businesses into 2 operating groups — Educational Resources and Publishing. The Educational Resources Group provides the industry's broadest range and deepest assortment of supplies, instructional products and services in the early childhood to the grade 12 market. The Publishing Group provides standards-based curriculum products, supplemental curriculum materials and student assessment and interventions tools. In June 2013, School Specialty reincorporated in the State of Delaware. Mr. Joseph Yorio has been President and Chief Executive Officer at School Specialty, Inc., since April 2014. He is an accomplished executive with over 20 years of experience working with large multi-national corporations in the manufacturing, distribution, supply chain, logistics, and security and defense industries.

ENVIRONMENTAL INITIATIVES

Describe how your products and/or services support environmental goals.

School Specialty is committed to environmental-friendly products and actively works to include items that are produced by "green" manufactures with little natural resource waste.

School Specialty is constantly adding new and innovative products to our catalog inventory that are environmentally friendly (i.e. GreenGuard). GREENGUARD Certification is part of UL Environment, a business unit of UL (Underwriters Laboratories). GREENGUARD Certification helps manufacturers create—and helps buyers identify—interior products and materials that have low chemical emissions, improving the quality of the air in which the products are used. All GREENGUARD Certified products are listed in the UL SPOT Sustainable Product Database.

These items are highlighted to in our catalogs. Where applicable, our Customer Care Team can also suggest environmentally-sensitive product options.

Describe the company's "green" objectives (i.e. LEED, reducing footprint, etc.).

School Specialty believes that the environment is a precious gift. We take our commitment to the environment very seriously given that our environmental choices will help teachers and the students they serve understand the importance of making such a commitment themselves.

Respecting the environment is more than a good business practice — it is the right thing to do. We understand, acknowledge, and accept our responsibility for developing sustainable practices that meet our customers' needs and our financial goals white taking into account the welfare of future generations and their dependence on a healthy environment.

School Specialty is committed to protecting and preserving the earth's natural resources. To carry out this commitment, we have invested resources in 3 areas as part of our commitment to preserving and protecting the environment. These areas include catalog marketing and distribution, office and distribution center operations and merchandising. An overview of each follows:

Catalog Marketing, Distribution & Circulation:

- To support greener marketing, we have a policy in place which encourages the use of recycled content, rejects paper with components from endangered or ecologically-sensitive areas, requires paper suppliers to obtain fiber from forests managed under credible forest certification schemes (SFI, FSC, CSA, PEFC, ATFS) whenever possible, and reduces total paper fiber consumed through best practices in direct marketing and shifting to online channels.
- We purchase paper through a paper broker who regularly reviews paper suppliers and ensures suppliers we select have a clear climate change strategy, have reduced

- greenhouse gas emissions, and are energy efficient.
- School Specialty has partnered with LSC Communications, a leading provider of print communications for the printing of our catalogs.
 - Their EHS Policy informs and guides their Sustainability Leadership Committee, an internal multi-discipline team responsible for reviewing and approving initiatives relating to our Sustainability Approach. LSC's Sustainability Approach is reflected in a variety of practices across four categories: Resource Efficiency They identify, measure, and continuously improve efficiencies associated with consumption and use of energy, raw materials, water, and other resources. For example, LSC has recently been recognized with Waste Water Pretreatment Awards and has joined the Environmental Protection Agency's voluntary SmartWay Partnership to promote energy efficiency throughout our Logistics activities. Green Procurement They extend their influence across the breadth of the supply chain by encouraging sustainable practices among our suppliers and enabling them for our customers. Their international Chain of Custody certifications from the Forest Stewardship Council (FSC), Sustainable Forestry Initiative (SFI) and Programme fo the Endorsement of Forestry Certification (PEFC) reflect this commitment to Green Procurement. Waste Minimization They seek to reduce environmental impacts across the entire scope of our service offering, which spans Premedia, printing, binding, business services and distribution processes. Reduce, reuse and recycle describe a variety of practical, everyday actions that we take in our manufacturing, administrative, and service facilities. Stewardship They strive to learn and share best practices through internal and external education, communication, and through demonstrations of our commitment and progress. LSC has been recognized by Corporate Responsibility Officer Magazine (CRO as one of the 10 Best Corporate Citizens in its Media category, and we have been named multiple times on the Dow Jones Sustainability Index (DJSI). School Specialty has built a direct marketing team with a combined total of over 120 years direct marketing experience at premier direct market companies like Lands End and Mattel. These associates implemented best practices including reduced catalog trim size, reduced average basis weight, improved mailing list hygiene, and improved catalog circulation efficiency.
- In our office location, we mandate the printing on both sides of internal office copy paper. SSI recycles catalogs and marketing material.

Office and Distribution Center Operations

- All office and distribution centers are required to recycle all aluminum, paper, plastic and glass.
- Distribution center recycle all undamaged inbound cartons, corrugate and pallets.
- All purchased corrugate contains a minimum of 60% post-consumer recycled content.
- Corrugate suppliers must obtain their fiber from forests managed under a credible forest certification scheme wherever possible, or have procurement systems that are third party certified. We recognize the following certification schemes as credible: Sustainable Forestry Initiative (SFI), Forest Stewardship Council (FSC), Canadian Standards Association (CSA), Pan-European Forestry Certification (PEFC), and the American Tree Farm System (ATFS).
- School Specialty has been pursuing energy efficient upgrades at all of our facilities including environmental improvements in lighting, mechanical systems (including boilers, HVAC, motors), programmable thermostats and lighting controls.
- Temperatures in all of our buildings have been seasonally adjusted:

Merchandising

School Specialty's entire Merchandising Team (VP, Directors, Category Managers, Merchandise Managers) is focused on working with suppliers to improve our products and the impact on the environment. Every supplier is required to provide information on their products/company, including:

- Green Seal certification
- Recycled product and content of material
- Certification of wood sourcing
- Participation in Leadership and Energy & Environmental Design

This information is utilized to make Approved Supplier/Approved Item decisions on an everyday basis.

INDEPENDENT SUBCONTRACTORS, DISTRIBUTORS, INSTALLERS, ETC.

Selection Criteria for Independent Providers:

School Specialty does not anticipate utilizing any independent providers, including subcontractors, distributors, installers or other independent service providers to perform service under the IFB. The only potential exception to this is if an AEPA ordered furniture and equipment that they desired be installed, School Specialty would utilize the services of an independent installer. All installers are required to meet a strict set of criteria including the requirement to carry certain minimum levels of insurance as well as to hold all required state and local licenses and permits. Finally, we do background checks on the firms. We monitor the work of each independent firm and cease doing business with any firm that fails to meet the expectations of our customers.

Current Subcontractors, Distributors, Installers, Etc.:

School Specialty works with more than 100 independent installation companies in member agency states. These installation partners go through a rigorous selection and approval process. All of these companies are insured, hold applicable contractor licenses and satisfy all state and local legal requirements.

In light of the large number of installers and the fact that furniture is not a significant category in this IFB, we determined not to include the complete list with our response.
