I. About AEPA

The Association of Educational Purchasing Agencies (AEPA) is a school procurement consortium established in 2000 through a Memorandum of Understanding, and incorporated in 2007 under the state laws of Nevada. Currently, twenty-six (26) states have joined to issue simultaneous Invitations for Bids (IFB) generating sales in forty-nine (49) states.

AEPA requires that Bidders only respond if they are able to offer prices equal to or lower than what they ordinarily offer on separate, single school district, single state or multi-state contracts that have equal or lesser volume. AEPA's mission is to cooperatively serve our members through a continuous effort to explore and solve present and future purchasing needs. Our goals include working to secure multi-state volume purchasing contracts with benefits that are measurable, cost-effective and continuously exceed our members' expectations. AEPA is committed to accomplish this mission lawfully and ethically, using leading edge technology and futuristic business practices.

AEPA designates one Member Agency per state that is operating legally under the rules and regulations of that state. Any additional agencies that wish to participate will negotiate with the authorized Member Agency and participate through them in a manner in which they mutually agree is not in conflict with AEPA procedures. The Member Agency will be the only agency allowed to represent that state at AEPA and will be the only communication link between AEPA and that state.

Each Member Agency, along with the awarded Vendor Partner, represents, supports and promotes the AEPA contracts within their respective state. While the consortium was initially created to support educational entities, the Member Agency for each state determines which public entities (higher educational institutions, cities, counties, townships, states, etc.) can utilize the competitively bid contracts (see the Summary of State Participation by Bid Category Table).

II. Bid Procedures

A. Issuing Agency

The great benefit to the Bidder is that one response may be prepared for approval by AEPA and award by multiple AEPA Member Agencies and utilized by their Participating Entities located throughout many states. Some of these 26 AEPA Member Agencies have Participating Entities in other non-AEPA states as identified in the Part B - Specifications document. Bidders responding to this IFB will submit their response in the required formats (PDF, Word, Excel) of all files requested along with complete catalogs via Public Purchase by the due date and time of this IFB. Bidders selected in response to this single IFB have the potential to provide products and services to local education agencies serving over 36,000,000 (excludes non-represented AEPA states) students.

Each AEPA Member Agency will individually publish notice of the IFB. Bidders will submit their response online, electronically via Public Purchase (www.publicpurchase.com). Responses will be evaluated by bid oversight committees comprised of AEPA Member Agencies representatives who have indicated they will participate in the category of products and services being solicited, and after AEPA approval, individual AEPA Member Agencies may award contracts to the AEPA Approved Vendor Partners or reject their offers.'

The procurement activities of AEPA are limited to document preparation, distribution of the IFB, initial evaluation, and recommendation for possible approval to AEPA Member Agencies. AEPA consists of agency officials who have agreed to assist one another in meeting the public purchasing needs of local school districts and other political subdivisions.

Contracts awarded through cooperative purchasing must meet the procurement laws of the states of each AEPA Member Agency. When these laws are satisfied, an individual entity using these contracts is deemed in compliance with bidding regulations. As allowed by specific state statutes, they can issue purchase orders for any amount without the necessity to prepare their own IFB, Request for Proposal

(RFP), or Request for Quotations (RFQ). This saves the entity time and allows for economical and efficient purchasing.

State laws that permit or encourage cooperative purchasing contracts do so in the belief that it saves the participants both time and money. Time is saved by having access to volume discounted contracts publicly solicited and being able to purchase what is needed without having to wade through the solicitation process (write solicitation, advertise the IFB, open each response, evaluate and make a selection). Money is saved in procurement cost and lower prices will be the result of volume purchasing. *Therefore, a contract issued by a cooperative can be used by hundreds of separate political units; but if it has the same or higher prices than what a single agency or state contract can get through its own bid, a cooperatively bid contract makes no sense.*

The AEPA policy for membership permits new agencies to become AEPA Member Agencies upon approval of existing members. If additional Agencies are added, they and their members may procure from existing contracts upon approval of the awarded Vendor Partners and in accordance with their state laws.

B. Voluntary Pre-Bid Conference Call

AEPA will host a voluntary pre-bid conference call on Thursday, September 14, 2017, for any interested Bidders or potential Bidders. The conference call times are set in the following schedule for each of the four contiguous United States time zones. No pre-registration will be required. C. Questions

All questions from Bidders must be submitted online through Public Purchase, AEPA will not accept questions in any other format. All questions received during the IFB process will be available via Public Purchase. All Bidders will be automatically notified through email when AEPA responds to a question asked by a Bidder. It is the Bidders responsibility to check Public Purchase for any questions and answers prior to the bid deadline. Questions received less than fourteen (14) days prior to the bid due date will not be answered.

Should AEPA issue an addenda during the solicitation process, all Bidders will be automatically notified through email of the released addenda. AEPA is not responsible for Bidders not acknowledging the issued addenda and not submitting a response according to those changes.

Questions regarding this IFB after Bid Opening (October 9, 2017) but prior to the approval of the contract, should be submitted to aepa-bids@googlegroups.com.

Questions regarding this IFB after Notification of Approval should be submitted to aepa-president@googlegroups.com.

D. Bidder Qualifications

An essential part of the bid evaluation process is an evaluation to qualify the company being considered. All bids must contain answers, responses and/or documentation to the information requested in the Bid Documents. Any Bidder failing to provide the required information/ documentation may be considered non-responsive, this includes submitting a response not in the proper format.

Bidders, within their response, must demonstrate their ability, capacity and available resources to provide the proposed products and services to all of the AEPA Member Agencies indicating an interest in participating in the categories being solicited. The Bidders are required to communicate and demonstrate within their response they have extensive knowledge, background and at least five (5) years of experience with manufacturing, obtaining, delivering, installing, maintaining and/or supporting the product lines of products, equipment, services or software offered. AEPA and/or its Member Agencies reserve the right to accept or reject newly formed companies or companies failing to demonstrate their abilities or capacity solely based on information provided in the bid response and/or its own investigation of the company.

E. Bid Security

If required, bids shall be accompanied by a satisfactory bid security. This will vary by category and will be noted in Part B. A bidder must include a PDF copy of the bid security with their response on Public Purchase. The Bidder must mail and AEPA must receive the official bid security by the bid due date and time in order to be considered responsive. If a Bidder fails to submit a copy of the bid security via Public Purchase and/or fails to submit the bid security by the due date and time, its response shall be deemed non-responsive and will not be considered.

When a bid security is required, the amount of the bid security for each category will be listed in Part B. An acceptable bid security will have the principal being the Bidder and the Association of Educational Purchasing Agencies listed as the Agency of Record. Bid Security may be a one-time bid bond underwritten by a surety company licensed to issue bid bonds in the state of Nevada and said surety to be approved in federal circular 570 as published by the United States treasury department or the equivalent in cash or an irrevocable letter of credit from a FDIC financial institution. The bid security shall remain in force for one hundred twenty (120) days of bid opening.

F. Bid Submission

1. Preparation of the Bid Response

- a. The IFB is published in multiple parts. Part A contains the terms and conditions that apply to all IFB's in the current series of bids. Part B is the specifications for the bid commodity. The IFB also contains a Bid Proposal Checklist, Forms A – F, all of which are to be filled out in their entirety and submitted online via Public Purchase in their required formats with the Bidder's response. Some bid categories may contain additional Parts or Forms. All Forms should be uploaded as individual forms.
- b. All bid responses shall be on the forms provided by AEPA for each IFB found in Public Purchase.
- c. Bid Forms requiring signatures shall be submitted by the person authorized to sign the bid response. Failure to properly sign the bid documents will result in the response being deemed non-responsive.
- d. In case of an error in extension of prices in the bid, unit prices shall govern.
- e. Periods of time, stated as a number of days, shall be in calendar days, not business days.
- f. It is the responsibility of all Bidders to examine the entire IFB package, to seek clarification of any item or requirement that may not be clear, and to check all responses for accuracy before submitting a bid. Negligence in preparing a bid confers no right of withdrawal after due time and date.
- g. The Bidders' ability to follow the bid preparation instructions set forth in this solicitation will also be considered to be an indicator of the Bidders' ability to follow instructions should they receive an award as a result of this solicitation. Any contract between the AEPA Member Agency and a Bidder requires the delivery of information and data. The quality of organization and

writing reflected in the bid will be considered to be an indication of the quality of organization and writing which would be prevalent if a contract was awarded. As a result, the bid will be evaluated as a sample of data submission.

2. Format of Bid Submittal

- a. Bidders will submit all documents, **in their required formats, individually**, online via Public Purchase by the due date and time of the IFB. **Documents must be submitted individually; one merged document encasing the entire response will NOT be accepted.**
- b. The Bid Security, if applicable, must be submitted following the guidelines mentioned in II. Bid Procedures, E. Bid Security.

H. Contract Award and Implementation

An AEPA oversight committee will perform initial bid response review and evaluation and will prepare and make a recommendation to AEPA for its consideration and approval. Those selected Bidders who are approved by AEPA will then be considered by the individual AEPA Member Agencies for contract award. It should be noted that once AEPA has approved the bid response, a Bidder becomes a "Vendor Partner" for AEPA.

Recommendations for approval by AEPA will be posted to Public Purchase and the AEPA website on **November 10, 2017**. Bidders who are being recommended to AEPA by the Bid Committees and will have their proposal reviewed at the Winter Meeting, **November 27 through November 29, 2017**, will be invited to present for 15 minutes, if approved by AEPA, to the group to educate all 26 states on your company, products, etc.

Once the approved Bidders have been notified, it is their responsibility to contact those AEPA Member Agencies (up to 26) who had indicated an interest in participating and send Forms A and B to each of the participating AEPA Member Agencies. Each AEPA Member Agency will review, evaluate and determine which, if any, it will award contracts to.

AEPA Bi-Annual Meetings: AEPA holds two general meetings each year: one in the Spring (usually in the month of April or May) and the other in the Fall (currently the week after Thanksgiving). A response to this solicitation is an offer to contract with the AEPA Member Agencies based upon the terms, conditions, and scope of work and specifications contained in this invitation. A solicitation does not become a contract unless and until it is accepted, recommended and approved by AEPA and awarded by the individual AEPA Member Agency. A contract is formed when an AEPA Member Agency administrator and, if required, an AEPA Member Agency Board approves and signs the Acceptance of Bid and Contract Award Form (see Form B) document, eliminating the need for a formal signing of a separate contract.

Bid Security must accompany the Vendor Partner's bid response when submitted and uploaded with other bid documents to Public Purchase. If applicable, a hard copy of the bid security must be in the actual possession of AEPA at Oakland Schools, 2111 Pontiac Lake Road, Waterford, MI 48328, on or prior to the exact due date and time mentioned in this bid. Brand Names: The use of the name of a manufacturer, brand, make or catalog number does not restrict the Bidder. Brand names and model numbers are used to indicate the character, quality and/or performance equivalence of the commodity on which bids are submitted. Bidders may submit alternates. However, the AEPA reserves the right to decide whether alternatives to the identified manufacturer and brand are in fact equal to the product, equipment and/or service described in the invitation. It is sole responsibility of the Bidder to perform and complete any necessary research and investigation required to make themselves aware of and comply with this item.

Clarification: As used in this solicitation, clarification means communication with a Bidder for the sole purpose of eliminating minor irregularities, informalities or apparent clerical mistakes in the bid. It is achieved by explanation or substantiation, either in response to an inquiry by the AEPA Member Agency or as initiated by the Bidder. Clarification does not give the Bidder an opportunity to revise or modify its bid.

Commercially Available Catalog: A published paper catalog or an online website that is widely distributed or accessible. It is made available to the general public or schools and contains a verifiable price, along with product descriptions, SKU numbers, and photographs. A commercially available catalog is distinct from a custom catalog or website, whose prices and offerings are tailored to niche audiences.

Responses below the competitive range will be determined to be unacceptable and will not receive further consideration.

Cooperative Procurement: Some individual state procurement codes may contain cooperative purchasing statutes that state any state agency or local public body may either participate in, sponsor or administer a cooperative procurement agreement for the procurement of any services, construction or items of tangible personal property with any other state agency, local public body or external procurement unit in accordance with an agreement entered into and approved by the governing authority of each of the state agencies, local public bodies or external procurement units involved. The cooperative procurement agreement shall clearly specify the purpose of the agreement and the method by which the purpose will be accomplished. Any power exercised under a cooperative procurement agreement entered into pursuant to each state's procurement code shall be limited to the central purchasing authority common to the contracting parties, even though one or more of the contracting, parties may be located in different states.

Cooperative Purchasing Contracts: The Bidder agrees that all the prices, terms, warranties and benefits granted by the Bidder to AEPA Member Agencies or Participating Entities through this contract **will be equal to or better**

Based on AEPA and its AEPA Member Agencies' investigation, review and findings, AEPA reserves the right to take following actions: to request the Vendor Partner to immediately adjust its AEPA's offered prices to match the lower prices offered, to work with the Vendor Partner to mediate and resolve the situation; or to notify the Vendor Partner that it intends to suspend and/or terminate their contract.

Cost of Bid Preparation: Neither AEPA nor any AEPA Member Agency shall reimburse the cost of developing, presenting or providing any response to this solicitation.

Credit Hold: The Bidder must agree not to place the AEPA Member Agency and/or its Participating Entity on "credit hold" without 10-days advanced notice in writing, either by letter, facsimile or email to the AEPA Member Agency and the Participating Entity. [The AEPA Member Agencies believes it is better for the Vendor Partner if the AEPA Member Agency places the slow-paying Agency Member on "credit hold;" if a Vendor Partner places the Participating Entity on credit hold, agencies that pay promptly are penalized. If, on the other hand, the Member Agency places the offending Participating Entity on "credit hold", payment is more likely to result and only the offender is disciplined.

1. **Primary Pricing Strategies:** All Bidders will be required to submit "Primary Pricing" in the form of either "Catalog Pricing" or "Line-Item Pricing" or a combination of these two pricing strategies as defined in Part B, bid specifications. Bidders are also encouraged to offer OPTIONAL pricing strategies including "Hot List" and "Volume Discounts".
 - a. **Catalog Pricing:** Catalog pricing is utilized when the products and/or services solicited are clearly identified with set and specific characteristics, attributes and configurations that are identifiable as a stand-alone single unit and can be listed and priced as a single unit with options that can be added to enhance and/or improve its operation and functionality. The

Bidder offers a fixed discount(s) off retail price, catalog price, published price or list price. The discounts may be for the entire commercially available catalog, for specific products, product lines, manufacturers or category of products as determined by the Bidder.

- a. **Discounts:** Discount offers must clearly identify percent of discount to apply to a commercially available catalog, manufacturer, MSRP, retail or nationally published price lists. Bidders shall identify and stipulate if the discounts apply to the entire catalog/price list, specific product lines, manufacturers and/or categories of products. Bidder shall agree that there will be no reduction in discount(s) during the term of the contract.
 - b. **New Catalogs/Price Changes:** New catalogs and corresponding nationally published price lists may be submitted throughout the term of the contract and shall be submitted to the AEPA Contract Oversight Committee for review prior to release to all AEPA Member Agencies. Prices may change based on manufacturer's price changes, new published pricing or price lists, but the original discount bid shall remain firm for the duration of the contract.
 - c. **Core List:** In a Catalog Priced bid, a category (i.e. office supplies) may include a "core list" which contains a selection of the most commonly used products/services with the expectation that a deeper discount would be bid for these items. If a new catalog and price list is published during the contract term, the original discounts shall be applied to the new published prices to establish the AEPA price for these core items.
 - d. **Product Addition/Discontinuation:** New products, within the same scope of work, may be added at the established percentage discounts at any time. Discontinued products may be dropped at any time during the year. In the event a Core item is discontinued by the manufacturer during the term of the contract, Vendor Partner is required to add a functionally equivalent substitute at the same discount structure.
- b. **Line-Item Pricing:** Line-item pricing is utilized when products and/or services that are broken down in detail by element, component, product categories, product type and each product and/or service is presented as an individual item which needs to be combined with other items to make up a final project or solution. The Bidder offers firm pricing for specific line items in response to this bid; a project's cost is derived by the Vendor Partner preparing and providing a quote based on the project's terms, conditions and requirements based on the line item pricing provided in the bid. The information provided in this bid for each item includes: Product Category, Product Description, Manufacturer, Manufacturer SKU, Vendor SKU, Unit of Measure, Item List Price, AEPA Bid Price.
- a. **Fixed prices:** Prices bid shall be firm until each anniversary date of contract, unless there is an occurrence of one or more economic price adjustment contingencies outlined in the bid. Fixed price offers shall include prices for any and all items.

Vendor Partner's must submit a fully documented written request to the AEPA Contract Oversight Committee thirty (30) days prior to the AEPA meeting. All price changes require approval by the AEPA Member Agencies.
 - c. **Unpredictable Economic Price Adjustment:** If economic price adjustment contingencies occur, Vendor Partner may submit a fully documented request (manufacturer's letter, indexes, etc.) for price adjustment to AEPA Contract Oversight Committee for review and approval by the committee and the AEPA Member Agencies. The documentation must substantiate the cause and/or reason for the requested price increase and demonstrate that it was unpredictable at the time of bid

submittal and/or contract renewal and out of the Vendor Partner's control. Pricing will take effect thirty (30) days after approval and acceptance.

- d. **New Products/Services:** Vendor Partner may submit new products or technologies that are within the original scope of work for the bid, to be added to the contract pending review and approval of the AEPA Bid Oversight Committee and AEPA Membership. Requests should be submitted to the AEPA Contract Oversight Committee thirty (30) days prior to the AEPA Winter or Spring meeting.
- c. **Automated System for Pricing (ASP):** The method consisting of an ASP and/or software application (RSMeans, Gordian) that is self-contained and consists of a turn-key solution that includes a complete line-item listing of all of the products, supplies, materials, equipment, services, accessories and options with their description, specifications, terms, conditions and associated pricing for each item, sub-assemblies and/or assemblies. The Bidder provides a percent of discount or fixed multiplier/factor to be applied to total project cost to allow for individual state conditions and requirements and to arrive at the AEPA price.
- d. **RSMeans (Construction Related Bids only):** It is important for Vendor Partners to breakout all costs (quantity and price) of all items listed under RS Means or an Alternative Pricing method. This includes all quoted items not on the approved AEPA bid submittal. The following are minimum requirements for using RSMeans for quoting projects to AEPA Member Agencies:
 - i. The Contractors must use the current year and standard cost data. Only the following cost data titles will be excepted,
 - a. Building Construction Cost Data Book
 - b. Facilities Construction Cost Data
 - c. Facilities Maintenance & Repair Cost Data
 - d. Site Work & Landscape Cost Data Book
 - ii. All work proposed under RSMeans must use RSMeans format, even if subcontractors are used.
 - iii. An RSMeans spreadsheet must be submitted to substantiate the quote given to the AEPA Member Agency. The spreadsheet columns must reveal the full RSMeans number and a sufficient amount of the description. This also applies to change orders.
 - iv. Pricing must be done by Location codes. National Average will not be allowed. In order to choose the "closest" location code, the first three (3) numbers of the zip code will be used to determine the city location index in the AEPA Member Agency State.
 - v. The AEPA contract holder factor, bonding cost, AEPA discount and taxes if applicable must be shown as separate line items at the bottom of the RSMeans spreadsheet. This information can be shown on a separate summary sheet. The summary sheet must start with the RSMeans spreadsheet total and show the detail for each of the items stated above. This detail will be provided to that AEPA State Agency and the AEPA Buyer as required.
 - vi. All change orders which list items covered by RSMeans must be supported by an RSMeans spreadsheet.
- e. **Alternative Method of Costing:** This method covers any product and/or service not covered by catalog pricing, published price list, line-item price list, automated system for pricing, or is a product and/or service due to the projects or applications specifications, conditions and/or requirements that need to be custom designed, developed, manufactured and/or produced to meet the requirements of an individual, project or sole source. The alternative pricing is calculated as follows:
 - i. The Bidder must prepare, issue and receive three written quotes from available suppliers and select the supplier that offers the products and services that meet the stipulated

requirements and specifications and the most cost effective solution. All quotes must be made available upon request.

- ii. The Bidder must indicate the percent of overhead and /or markup as part of the their response to be added to these costs to obtain the normal and customary retail price.
- iii. The AEPA price is calculated by taking the product and services to cost to the Contractor plus the indicated percent of profit/overhead to equal the normal and customary retail price. The Contractor will then subtract the approved AEPA discount to obtain the AEPA price. Example: item cost \$1,000; percent of profit/overhead of 20% equals retail price of \$1,200; less the AEPA discount of 10% or \$120 equals the AEPA price of \$1,080.

2. Secondary Pricing Methods (Catalog Bids only, see Part B for category designation):

Bidders are required to offer Customized Price Lists (Catalog Bids ONLY) and encouraged to offer Hot Lists and Volume Discounts as follows:

a. Customized Price List: Bidders are required to offer customized price lists to Participating Entities for items within the Bidder's Commercially Available Catalog for Catalog Bids ONLY (not pertinent to Line Item Bids). Customized price lists shall be allowed under the following conditions:

Hot List Pricing: Bidders are invited, at their option, to offer a selection of products/services, defined as a Hot List, at greater discounts than those listed in the standard catalog or core list discounts. Special, time-limited reductions are permissible under the following conditions: The price reduction is available to all AEPA Member Agencies equally. The price reduction is for a specific time period, no less than thirty (30) days. May be used to discount and liquidate close-out and discontinued products/services as long as those items are clearly labeled as such. The original price for products/services is not exceeded after the time limit. The AEPA Oversight Committee and all AEPA Member Agencies shall be notified of any special or time limited price reduction. New prices must be on record fifteen (15) days prior to any offer of the new prices being proposed or offered to AEPA Member Agencies and Participating Entities. Pricing for all Hot List items must be updated on the Vendor Partner's online catalog and submitted to all AEPA Member Agencies in an electronic format that can be posted to websites, emailed and shared with Participating Entities/Buyers.

Values placed on trade-in products are between the Buyer purchasing the new unit and the Vendor Partner.

Type of Bids: Due to the various types, kinds and levels of products and services solicited by AEPA in its IFBs; the various pricing methodologies and/or methods utilized and offered to price the various products and services offered; and the type of contracts that results from any one of AEPA's/bids, AEPA has established the following two types of bids.

1. **Catalog Bid:** A catalog bid is utilized when the products and /or services solicited are clearly identified with set and specific characteristics, attributes and configurations that are identifiable as a stand-alone single unit and can be listed and priced as a single unit with options that can be added to enhance and/or improve its operation and functionality. The Bidder offers a fixed discount(s) off retail price or prices in a Commercially Available Catalog. The discounts may be for the entire Catalog for specific products, product lines, manufacturers or category of products as determined by the Bidder. See the Pricing section for detailed information on Catalog pricing.
2. **Line Item Bid:** A Line-item bid is utilized when the products and services solicited cannot be identified or listed as a single unit; consists of a number of different variable and configurations, it is necessary to identify the specific project or application; the end product or solution is made of individually priced elements or components and the end product's or solutions' cost is derived by the Vendor Partner specially prepared and providing a quote based on the project's terms, conditions and requirements. See the Pricing section for detailed information on Line-Item pricing.

Vendor Partner: Bidder who has been approved and awarded a contract for the delivery of construction, tangible personal property, supplies, or services in response to this IFB.

Vendor Partner Contact: Vendor Partner will designate one individual who will represent them to the AEPA, its AEPA Member Agencies during the contract period. This contact person will correspond with each AEPA Member Agency for technical assistance, problems, or questions that may arise. If other staff, distributors and/or independent Vendor Partners will be performing the sales or support functions for different geographical areas (states), Vendor Partner shall include instructions and contact information that can be distributed to AEPA Member Agencies upon approval of this bid.

Warranty: Vendor Partner warrants that all commodities, supplies, materials, equipment, software and service delivered under this contract shall conform to the specifications of this contract. All items should carry a warranty equal to the intended life cycle or a minimum 12-month manufacturer's warranty that includes parts and labor unless otherwise specified and agreed to. The manufacturer has the primary responsibility to honor a manufacturer's warranty; a distributor or dealer agrees to assist the purchaser reach a solution in a dispute with the manufacturer over a warranty's terms. Any extended manufacturer's warranty will be passed on to the Buyer. For example, if a voice board has a three-year warranty, but the board is in a turnkey system that has a one-year warranty, the voice board's three-year warranty must be honored by the manufacturer and the Vendor Partner. All extended warranties must be passed on, without exception. If, upon discovery, the Vendor Partner charges a Buyer for a replacement part that the Vendor Partner actually received at no cost under a warranty, the Vendor Partner will rebate the amount billed and the Buyer reserves the right to cancel the contract.

The participating agency may terminate or cancel any purchase order under this contract at any time, with or without cause, by providing seven (7) business days in advance written notice to the vendor. If this agreement is terminated in accordance with this paragraph, the participating agency shall only be required to pay vendor for goods and services delivered to the participating agency prior to the termination and not otherwise returned in accordance with the vendor’s return policy. If the participating agency has paid the vendor for goods and services not year provided as the date of termination, vendor shall immediately refund such payment(s).

If an alternate provision for termination of a participating agency’s purchase for cause and convenience, including the manner by which it will be effected and the basis for settlement, is in the participating agency’s purchase order, ancillary agreement or construction contract agreed to by the vendor, the participating agency’s provision shall control.

3. Equal Employment Opportunity

Except as otherwise provided under 41 CFR Part 60, all participating agency purchases or contract that meet the definition of “federally assisted construction contract” in 41 CFR Part 60-1.3 shall be deemed to include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, “Equal Employment Opportunity” (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, “Amending Executive Order 11246 Relating to Equal Employment Opportunity,” and implementing regulations at 41 CFR Part 60, “Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor.”

In addition, vendor shall pay wages not less than once a week.

Current prevailing wage determinations issued by the Department of Labor are available at www.wdol.gov. Vendor agrees that, for any purchase to which this requirement applies, the award of the purchase to the vendor is conditioned upon vendor's acceptance of wage determination.

Vendor further agrees that is shall also comply with the Copeland "Anti-Kickback" Act (40 USC 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each construction completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled.

5. Contract Work Hours and Safety Standards Act

Where applicable, for all participating agency purchases in excess of \$100,000 that involve the employment of mechanics or laborers, vendor agrees to comply with 40 USC 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 USC 3702 of the Act, vendor is required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of the 40 USC 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions that are unsanitary, hazardous or dangerous. These requirements do not apply to the purchase of supplies, materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

6. Right to Inventions Made Under a Contract or Agreement

If the participating agency's federal award meets the definition of "funding agreement" under 37 CFR 401.2(a) and the recipient or sub recipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance or experiments, developmental or research work under the "funding agreement," the recipient or sub recipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

7. Clean Air Act and Federal Water Pollution Control Act

Clean Air Act (42 USC 7401-7671q.) and the Federal Water Pollution Control Act (33 USC 1251-1387), as amended, contracts and sub grants of amounts in excess of \$150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act (42 USC 7401-7671q.) and the Federal Water Pollution Control Act, as amended (33 USC 1251-1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA). When required, vendor agrees to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act and the Federal Water Pollution Control Act.

8. Debarment and Suspension

SAM exclusions contain the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. Vendor certifies that the vendor is not current listed and further agrees to immediately notify AEPA and all participating agencies with pending purchases or seeking to purchase from the vendor if vendor is later listed on the government-wide exclusions in SAM, or is debarred, suspended, or otherwise excluded by agencies or declared ineligible under statutory or regulatory authority other than Executive Order 12549.

9. Byrd Anti-Lobbying Amendment

Byrd Anti-Lobbying Amendment (31 USC 1352), vendors that apply or bid for an award exceeding \$100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 USC 1352. Each tier must also disclose any lobbying with non-Federal funds that take place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

10. Procurement of Recovered Materials

For participating agency purchases utilizing Federal funds, vendor agrees to comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act where applicable and provide such information and certifications as a participating agency may require to confirm estimates and otherwise comply. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds \$10,000 or the value of the quantity acquired during the preceding fiscal year exceeded \$10,000; procuring solid waste management services in a manner that maximizes energy and resource recover, and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

11. Profit as a Separate Element of Price

For purchases using federal funds in excess of \$150,000, a participating agency may be required to negotiate profit as a separate element of the price. See 2 CFR 200.323(b). When required by a participating agency, vendor agrees to provide information and negotiate with the participating agency regarding profit as a separate element of the price for a particular purchase. However, vendor agrees that the total price, including profit, charged by the vendor to the participating agency shall not exceed the awarded pricing, including any applicable discount, under the vendors contract with AEPA.

12. General Compliance with Participating Agencies

In addition to the foregoing specific requirements, vendor agrees, in accepting any purchase order from a participating agency, it shall make a good faith effort to work with participating agency to provide such information and to satisfy requirements as may apply to a particular purchase or purchases including, but not limited to, applicable record keeping and record retention requirements.

Question #6

I noticed was the part about a minimum 1 year warranty on all products, but then in Part B specifications page 3 item 5.1 it says "Vendor partner will warranty all parts and materials for at least 90 days from date of purchase or manufacturers warranty, whichever is longer" So is it 12 months or 90 days?
Also in 5.2 it says "Vendor partner will endeavor to supply products that are made in the United States of America." I am not 100% up to speed on my legal speak, but by endeavor do they mean best effort? How would we show that to be the case?

Aug 24, 2017 9:36:05 AM CDT
By: Zones ,Inc - bidteam@zones.com

In 6.2 it talks about maintaining a minimum monthly overall average fill rate of 95% or above, is that something we can say yes to?
6.3 says orders must be shipped next day after receipt of an order 90% of the time, is that something we can say yes to?

Answers

1. AEPA will only require the specification in Part B, page 3, item 5.1, "Vendor partner will warranty all parts and materials for at least 90 days from date of purchase or the manufacturer's warranty, whichever is longer."
2. AEPA agrees that "endeavor" is the same as "best effort." AEPA may request information on the country of origin for some selection of products.
3. Bidders may answer these questions with a yes, or no. AEPA does not require a numerical answer. If the bidder cannot comply, this must be stated on Form D: Exceptions and Deviations.

Question #12

I was told during the conference call for Technology that you had to be able to offer a discount on every line item or you could not bid. I am reading the Part B-Spec. Page 2 and under Catalog it says we have to offer discount based on OUR entire catalog, not a line by line bid. To find a company that offers computers and Projector lamps, they are two separate commodities and a projector lamp distributor that specializes in that commodity is going to have available better pricing on the lamp then a computer dealer or hardware dealer. I am very disappointed. If the specifications change, please let us all know. Thank you

Question #34  

Based on the inclusion of the "Most Favored Nations" Clause for current and future customers and the automatic price adjustment language, it appears that AEPA is restricting responses to Original Equipment Manufacturers (OEM) as they can maintain a fixed price sheet. In a complex VAR environment, costs and pricing can fluctuate due to sourcing methods, timing, availability and manufacturer promotional offers. Further, customers choose to use a variety of contracts, promotional offers, and transaction types to purchase goods. All of these factors collectively restrict VARS from committing to the risk associated with the Clause as outlined. Would AEPA consider removing this clause in favor of an alternative which limits the application of the best pricing/price adjustment term and conditions to all AEPA Member Agencies.

Answers

AEPA will not change the bid specifications as published. Bidders are requested to state and explain any exceptions or deviations to any specification or bid term in Parts A, B or C on Form D

Question #35  

* In the document, Part B Specifications - Sections 6 and 7 are tables that list out various requirements, does APEA want vendors to provide a narrative response regarding these items or is the list provided as an overview of expectations for the contract? If a narrative is required, are vendors to upload as a separate document or part of the Questionnaire?

Answers

AEPA does not require a separate narrative response to the items in the specifications table in Part B. If a bidder is unable to comply with one or more of the listed specifications, the bidder must describe any exceptions to the bid specifications or terms on Form D.

Question #38

Pursuant to Part A Delivery Terms, Conditions & Requirements Clauses 5 & 5.a., and Part B Clause 6.19, please clarify the acceptance of shipping costs under any resultant contract. Clause 5 states shipping and handling costs vary based on the specific bid category, while Clause 6.19 states orders greater than \$50 shall include free shipping, while orders less than \$50 shall utilize a flat rate regardless of destination. This is problematic as the costs associated with shipping something as substantial as a large format printer are very different from the costs associated with shipping Tablet accessories.

CDW•G Marketing Events – Making Connections through Participation

The CDW•G marketing event schedule is an impressive mix of national and regional events, focused on driving awareness of our value proposition, solution offerings, and contract portfolio. CDW•G attends hundreds of events each year. For example, from July 1, 2016 – June 30, 2017, CDW•G attended 127 events in 28 states related specifically to K-12 and/or State and Local government. A few of these events include:

CDW•G 10x20' booth layout

CDW•G often has booths at these events where AEPA customers can learn more about potential solutions and the scope of the AEPA contract.

3. **Cooperative Marketing:** Describe ways in which this business can collaborate with Member Agencies in marketing the bid.

CDW•G’s goal is to partner with Member Agencies to take an all-encompassing approach to marketing this contract vehicle. In this role, we are open to working with Member Agencies to implement marketing strategies tailored to their states and effectively promote the AEPA contract’s adoption. CDW•G will utilize a number of proven activities to publicize and promote this contract.

Individual Member Websites

CDW•G currently has websites dedicated to each AEPA state contract where members can go to view products, pricing, and contract details. Having individual websites for each state allows us to market the individual contracts, in addition to the larger AEPA contract, and provides AEPA Members a customized

experience. The AEPA page is located at www.cdwg.com/aepe and includes links to each state's individual site.

In addition to the customization, this landing page has nearly all of the same functionalities as our website cdwg.com, with contract pricing listed for each item available on contract. The site requires no login to view, so AEPA Members can easily view the competitive pricing available. The page also allows customers to perform quick product searches and to "comparison shop" by viewing side-by-side product descriptions. Providing device information in a single location takes the hassle out of downloading data from multiple manufacturer websites and allows for easy procurement of in-demand products.

Agency-Tailored Marketing Campaigns

CDW•G has successful marketing campaigns with each of the Member Agencies, customizing our monthly flyers, websites, and sales teams' promotions for each Member Agency. As detailed in the Key Marketing Contacts section, we have dedicated contacts available to help drive and market the AEPA contract. For example, under our current AEPA contract, CDW•G provides a marketing flyer updated monthly that is emailed to all AEPA Member Agencies that have signed our contract. This flyer is emailed to the lead agency in each state that then posts the flyer to their website and sends it out in their monthly marketing campaigns. Our marketing customization has is beneficial in promoting sales and awareness. In addition, CDW•G has availability for Member Agency co-branded/co-funded marketing pieces via EdTech and other flyers.

Capture Manager Support for Quick Adoption

A new addition to our AEPA support team, our Capture Manager, Brian Heidt, spent time prior to the release of this IFB learning the nuances of this contract and the landscape of Member Agencies through researching the current contract and attending several meetings with AEPA members. Some of the activities that were conducted include receiving feedback from Member Agencies during the spring 2017 meeting, which was then communicated to our K-12 sales managers, their directors, and vice president to ensure questions, concerns, and successes were conveyed to those who can directly impact the customer experience of this contract. This information was then used to revise our contract approach to enhance our marketing strategy and increase sales where possible.

Once awarded, Brian will lead the strategic aspects of the contract ramp up to ensure the contract is quickly implemented and thoughtfully presented to customers for adoption. This includes his heavy involvement in a new award marketing campaign, industry events, and managing any contract kickoff activities.

4. **Sales Training:** Explain how your company will educate your sales staff on the AEPA contract including timing, methods, etc.

Please note: Subject to the New Mexico Inspection of Public Records Act (NMSA 1978, Chapter 14, Article 2) (the "Act"), some portions contained herein contain technical information as defined in the Act that is confidential and proprietary and may not be disclosed to a third party without the prior written consent of CDW Government LLC.

Upon award of the AEPA contract, CDW•G will launch a sales training program in person or via online training methods that is required by all Account Managers supporting states who opt-in for this contract. The contract training is led by our Program Managers David White and Mark Ellis, and will include how to market the AEPA Member Agency contract, contract pricing, eligible members, and all contract information that is relative to them selling off of this contract. Each account manager is trained on the contract specific to their respective states, not the national contract, to provide a tailored experience for AEPA Members. This sales training will occur the two weeks prior to the contract launching. In addition, the sales team has

ongoing support throughout the contract to ensure its success. For example, if a deal on pricing arises for a specific state, account managers have access to that information and can communicate it to AEPA customers.

Contract Launch

In addition to training our sales team, our dedicated Program Management team monitors the contract to ensure compliance and the overall success of the contract. This team has a detailed launch plan that follows five key steps:

- **Intake.** In this phase, the Proposal Team does a formal handoff to the AEPA Program Manager. From this handoff, the Program Manager prepares to stand up the agreed upon contract and prepares the contract kick-off.
- **Set-Up and Compliance.** All backend aspects of the contract are set-up, including launching the contract pricing to the AEPA members via our internal contract management system. Customized Premium Pages are created, flow down agreements with services partners are documented, SLA process is defined, and contract stakeholders, such as lead sales resources, are identified.
- **Education.** This is the phase in which the Program Manager takes the sales team through their initial training on the contract. The Program Manager explains critical aspects of the contract to ensure compliance and grow contract sales.
- **Measure.** The Program Manager establishes a reporting cadence in accordance with the AEPA contract.
- **Grow.** The Program Manager provides competitive and practical information on how to sell the contract. This is done through working with the sales team, advocating for special pricing from partners, meeting with Contract Officers to determine customer needs, and identifying potential new customers.

Environmental Initiatives

1. Describe how your products and/or services support environmental goals. _____

CDW•G has our own beGREEN campaign that fosters environmental responsibility as described further in Number Two below. Our partners are leading environmentally responsible IT manufacturers, which have their own sustainability programs and initiatives. In addition, CDW•G is extremely committed to the environment and has implemented the following programs and initiatives:

- Green facilities
 - ISO certified distribution centers
 - Data centers use 100% renewable energy
- Sustainable products (Energy Star rating)
- 100% recyclable packaging
- Recycling programs
 - Paper
 - Aluminum, glass and plastic
 - Universal Waste
 - Corrugate
 - Plastic packaging and shrink wrap
 - Wooden pallets
 - Batteries
 - Toner

- Responsible consumption of paper, water, energy and fuel
- Reduction of waste volumes
- Prevention of pollution

2. Describe the company's "green" objectives (i.e. LEED, reducing footprint, etc.). _____

CDW•G has long been conscious of our impact on the environment, and we have taken significant steps to effectively manage our consumption of resources and lessen our environmental impact. We implemented a "beGREEN" program, which provides coworkers with a platform to reduce, reuse, and recycle in an effort to make CDW•G's operations leaner, more efficient, and more environmentally responsible. CDW•G's beGREEN campaign provides AEPA peace of mind that their supply partner has programs and processes to help conserve, recycle, and lower our carbon footprint. AEPA can be sure that in partnering with CDW•G, you are working with a company that recognizes the importance of responsible environmental management and conservation of resources.

We are committed to managing energy consumption and reducing environmental impact. Our multiple locations participate in our annual Earth Day celebration, intended to educate coworkers on sustainability by providing them with information and products.

Recycling at CDW•G

CDW•G reduces and eliminates waste, when possible, through recycling. All waste is safely and responsibly handled and disposed. Our distribution centers recycle corrugate, shrink wrap, wooden pallets, and paper. Historically, we have recycled approximately 1,300 tons of corrugate, 1500 tons of wooden and plastic pallets, 157 tons of shrink wrap and 250 tons of paper. While fluctuations vary depending on the volume received each year, our recycling efforts have resulted in a consistent reduction in our waste hauls from three times a week to only once per quarter. Due to comingled recycling, the Las Vegas Distribution Center has realized a 96% diversion rate for waste.

Environmental Sustainability

In connection with the beGreen program, we continually improve upon our environmental sustainability. Our distribution centers are ISO 14001 certified – the international standard for environmental management systems. We installed energy efficient lighting and have seen a significant reduction in energy usage in our distribution centers and corporate headquarters. Our distribution centers are also equipped with motion-controlled high bay lighting that powers off the lights after 12-15 minutes of inactivity. Our maintenance crews replace petroleum-based degreaser products, when possible, with a citrus-based cleaner/degreaser that is made from natural products and is better for the environment. Over 95% of our shipments use carriers that are enrolled in the EPA Smart Way Transport Partnership.

Eco-Conscious Packaging

CDW•G is committed to providing maximum protection for your IT assets while they are being shipped to your location. For example, we use environmentally friendly boxes and packing materials that are 100 percent recyclable. Our boxes use 100 percent of the maximum allowable post-consumer recycled product. More than 50 percent of our shipments are sent in the original manufacturer packaging instead of being re-packaged in new boxes. Our main packing material is a plastic pillow filled with air that reduces the amount of packing material needed to fill voids and to securely package the product so that

it arrives safely at your location. Fill-Air packaging is 100 percent recyclable; it maintains its form and can be reused for future shipments.

Independent Subcontractors, Distributors, Installers, etc.

If the Bidder is not the sole provider of all goods and services provided under this contract, the following must be answered:

1. **Selection Criteria for Independent Providers:** Describe the criteria and process by which the business selects, certifies and approves subcontractors, distributors, installers and other independent services.
 CDW•G is the sole provider of goods for this contract.

2. **Current Subcontractors, Distributors, Installers, Etc.:** Provide a list of current subcontractors, distributors, installers and other independent service providers who are contracted to perform the type of work outlined in this bid in the member agency states (listed in Part A of this IFB). Include, if applicable, contractor license information and the state(s) wherein they are eligible to provide services on behalf of this business.
 CDW•G handles product distribution directly most of the time. Occasionally, when stock in our warehouse is not available, we drop ship from one of the large distribution partners in the industry, such as Ingram Micro, Tech Data or Synnex.

Additionally, AEPA members can feel confident in contacting CDW•G for requests for quotes on installations. We work with hundreds of service partners across the nation to support our customers when CDW•G resources are not available. The chart below details a sampling of the partners we work with. Once a project is identified, CDW•G can provide applicable contractor license information. Certain projects may be too complex for the scope of this contract and, in those instances, CDW•G will work with the member to provide quote and appropriate professional service terms under a formal Statement of Work.

Our account teams know their customers’ preferred programs, and we do not “hard sell” our customers any particular programs. In cases where the customer is undecided, we recommend the best solution for their project, similar to the way we offer the best technology solution for the desired outcome. In this process, we take into account a variety of factors including the local benefits of the cooperative, use of grant funds, and additional support from the cooperative, among other factors.

8. **Administrative Fee:** Which of the following best reflects how your pricing includes the individual AEPA Members’ administrative fee. Mark with an “X”.

<input checked="" type="checkbox"/>	The pricing for the products and/or services are the same for each AEPA Member Agency, shipping, handling administrative fee** and other specific state costs are added to arrive at total price offered to the Individual AEPA Member Agency.
<input type="checkbox"/>	The pricing for the products and/or services is inclusive of the administrative fee and therefore the pricing is the same for all AEPA Member Agencies. Shipping, handling and other state specific costs are added to the adjusted AEPA Member Agency’s price.
<input type="checkbox"/>	The pricing for the products and/or services includes all (shipping, handling, administrative fee, other) costs to arrive at a single price for all AEPA Member Agencies.

** CDW-G offers to provide the admin fees as listed Form F of the RFP documents with one alteration: Chromebook sales are offered at a **1% Admin Fee** across the product category. This is necessary due to the relatively low price point for these products and the incredible margin pressure in the category.

9. **Shipping & Handling: Orders that are \$50.00 or more shall include free shipping and handling.** What is the flat rate your company will charge, regardless of where shipped in the continental United States, for orders less than \$50.00? \$ ***

*** CDW•G proposes zero freight charged on orders **over \$300** which travel via ground carrier. Below \$300 and for expedited freight requirements, we offer our competitive freight rates to apply. CDW•G has very aggressive rates from the major carriers who perform delivery: Federal Express and UPS. Those rates are

calculated using the product weight and distance traveled, frequently called a "Zone". AEPA members in Ohio who purchase one cable are going to pay less than an AEPA member in Connecticut who orders a small UPS device.

Freight rates will always be quoted and agreed upon prior to CDW•G placing an order; account managers will actively encourage customers to 'bundle' orders and avoid freight by ordering more than the minimum on each purchase. It is our experience that such bundling ultimately advantages the member additionally by reducing the number of purchase orders and invoices that the agency will be required to process.

10. **Product Returns:** Does your company have a return policy? Yes No

If Yes, describe your return policy and if you charge a restocking fee, what is it? (AEPA allows up to 15% for supplies and up to 25% for equipment). _____

CDW•G Return Policy

Return Privileges

CDW•G allows returns based on the policies of the original product manufacturer. Software is not returnable if the packaging has been opened. If software was distributed electronically, it is not returnable if the licenses were downloaded. For additional information, see CDW•G's full Product Return Policy, submitted with this RFP submission as "Product Return Policy – CDW-G."

Members should contact their account manager to initiate a return. Alternatively, members may contact CDW Customer Relations at 866.SVC.4CDW or e-mail at Customer Relations to initiate a return or for additional information.

Customers must notify CDW Customer Relations of any damaged Products within fifteen (15) days of receipt.

We do not charge a restocking fee within the first 30 days. Under our standard return policy, CDW will charge a fifteen percent (15%) restocking fee after 30 days with some exceptions for returns that are accepted. There are a few exceptions in which the restocking fee would be charged upfront, which would be communicated to purchasers.

11. **Payment Terms:** Will you offer AEPA Buyer's a quick pay discount? Yes No

If Yes, what is the discount? _____% Net _____

12. **Leasing:** Do you offer leasing arrangements under this bid? Yes No

If Yes, remember to indicate the rate factor and other cost factors on Form G – Discount & Pricing Schedules Workbook.

CDW•G provides competitive, comprehensive Leasing and Financing options with flexibility to match our customers' needs. CDW•G works with a large stable of captive and non-captive Financing companies to utilize the best solution based on the product mix being presented.

Leasing options that can be provided include but are not limited to:

- Fair Market Value Leasing – Return the equipment at the end of cycle to refresh, or purchase at the existing Fair Market Value determined at end of lease. Extending the lease is also a consideration.
- 1BO – Financing option that allows for the end user to keep the equipment at the end of lease. This option is also available for Software or Services only purchases.

We are also able to provide flexible terms such as Monthly, Quarterly, or Annual payments. Payments can be deferred for up to 90 days to allow for equipment to be procured before the budget starts.

While CDW•G prefers a quote so we can provide definitive numbers, we suggest using the following Lease Rate Factors (LRF) in estimating what can be provided. To utilize, multiply the LRF by the total purchase to receive the monthly payment amount. If you are looking at annual payment, please advise.

The following is for planning purposes only.

Such Products should be returned to Seller, shipped directly to the manufacturer, or taken to an authorized service center in Customer's vicinity. More information may be provided by the dedicated Seller account manager or by CDW Customer Relations.

- Returned Products Must Be Complete. All Products *MUST BE* returned one hundred percent (100%) complete, including all original boxes, packing materials, manuals, blank warranty cards, and other accessories provided by the manufacturer. 3. Merchandise Damaged in Transit.

4. Credits

Any credit issued by Seller to Customer under this return policy must be used within two (2) years from the date that the credit was issued and may only be used for future purchases of Product and/or Services. Uniform Guidance "EDGAR" Certification
2 CFR Part 200**

When a purchasing agency seeks to procure goods and services using funds under a federal grant or contract, specific federal laws, regulations, and requirements may apply in addition to those under state law. This includes, but is not limited to, the procurement standards of the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, 2 CFR 200, referred to as the "Uniform Guidance" or new "EDGAR". All vendors submitting proposals must complete this EDGAR Certification form regarding the vendor's willingness and ability to comply with certain requirements which may be applicable to specific agency purchases using federal grant funds.

For each of the items below, the Vendor will certify its agreement and ability to comply, where applicable, by having the vendor's authorized representative check and initial the applicable boxes and sign the acknowledgement at the end of this form. If a vendor fails to complete any item of this form, AEPA will consider and may list the response, as the vendors is unable to comply. A "No" response to any of the items below may impact the ability of a purchasing agency to purchase from the vendor using federal funds.

1. Violation of Contract Terms and Conditions

Provisions regarding vendor default are included in AEPA's terms and conditions. Any contract award will be subject to such terms and conditions, as well as any additional terms and conditions in any purchase order, ancillary agency contract, or construction contract agreed upon by the vendor and the purchasing agency, which must be consistent with and protect the purchasing agency at least to the same extent as AEPA's terms and conditions. The remedies under the contract are in addition to any other remedies that may be available under law or in equity.

2. Termination for Cause of Convenience

For a participating agency purchase or contract in excess of \$10,000 made using federal funds, you agree that the following term and condition shall apply:

The participating agency may terminate or cancel any purchase order under this contract at any time, with or without cause, by providing seven (7) business days in advance written notice to the vendor. If this agreement is terminated in accordance with this paragraph, the participating agency shall only be required to pay vendor for goods and services delivered to the participating agency prior to the termination and not otherwise returned in accordance with the vendor's return policy. If the participating agency has paid the vendor for goods and services not year provided as the date of termination, vendor shall immediately refund such payment(s).

If an alternate provision for termination of a participating agency's purchase for cause and convenience, including the manner by which it will be effected and the basis for settlement, is in the participating agency's purchase order, ancillary agreement or construction contract agreed to by the vendor, the participating agency's provision shall control.

In accordance with the statute, vendor is required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specific in a wage determinate made by the Secretary of Labor. In addition, vendor shall pay wages not less than once a week.

SAM exclusions contain the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. Vendor certifies that the vendor is not current listed and further agrees to immediately notify AEPA and all participating agencies with pending purchases or seeking to purchase from the vendor if vendor is later listed on the government-wide exclusions in SAM, or is debarred, suspended, or otherwise excluded by agencies or declared ineligible under statutory or regulatory authority other than Executive Order 12549.

For participating agency purchases utilizing Federal funds, vendor agrees to comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act where applicable and provide such information and certifications as a participating agency may require to confirm estimates and otherwise comply. Executive Summary

The Association of Educational Purchasing Agencies (AEPA) and CDW Government LLC (CDW•G) have a solid business relationship spanning nearly 15 years. Prior to that, many of the AEPA members worked with our same team through a contract with MicroWarehouse, giving us nearly two decades of experience with this unique and valuable cooperative. During this time, we have strengthened this relationship by promoting AEPA's mission to cooperatively serve your members by securing multi-state volume purchasing contracts with benefits that are measurable, cost-effective, and continuously exceed your members' expectations. As a named supplier on the current AEPA technology contract, CDW•G was responsible for nearly \$216M in CY 2016—more than 45% of the total contract portfolio volume managed through AEPA. We feel a large part of this success is our mutual understanding of the level of commitment it takes to make a contract successful. CDW•G continues to meet and frequently exceed AEPA's vendor qualifications in the following ways:

Extensive Educational Experience. CDW has been serving customers in education since its founding in 1984. CDW•G, a wholly-owned subsidiary of CDW, was created nearly 20 years ago to focus solely on the needs of public-sector customers including thousands of K-12 institutions. Our K-12 sales force is dedicated to K-12, not intermingled with sellers focusing on state, local, higher education and K-12 combined. We hire former educators to complement our sales training by teaching the values of K-12 alongside the benefits of the technology and creating practical solutions to integrate technology into meaningful curriculum in the classroom.

CDW•G offers our customers a team of K-12 Education Strategists who are subject matter experts with years of experience in serving schools and learning communities as teachers and administrators. They help lead Customer Education events as a value-added service to increase awareness and build capacity in the K-12 learning community. Along with our internal teams, these strategists are trained by industry thought leaders in concepts of practical and research-based guidance on learning spaces and their design. In addition to our Education Strategists, our dedicated account teams have access to partnerships with vital industry leaders within Educational Technology, Professional Development and Training, and Collaborative Learning Environment Solutions.

If technology in schools is defined by one thing, it's complexity. And we've spent decades simplifying all the complexity for school districts. We take all the diverse technology, all the different components and make it work together seamlessly. We do it better than anyone else, and we've been doing it for years.

Full Range of IT Solution Products and Services. AEPA's contract is unique in its offering to member agencies in that our expansive portfolio provides a depth of product and services not often matched by a single manufacturer, resellers, or local vendors. We hold a long list of specializations, certifications, and awards from many of the 1,100 different manufacturers we work with. We also leverage our OEM relationships to gain pricing advantages for our customers. Our industry position affords us opportunity to secure products when there are channel constraints, frequently acquiring stock when no one else can.

Strong National Presence. CDW•G serves our customers with 26 locations throughout the US and we continue to grow strategically. We have nationwide recognition, with over 250,000 customers in all areas of the public and private sectors. Additionally, CDW currently ranks #199 on the Fortune 500.

Nationwide Distribution Capabilities. CDW•G maintains two strategically located distribution centers with a combined area of nearly one million square feet, each housing more than 100,000 top brand-name products. This allows AEPA Member Agencies to receive their products in an average 3-5 days. Most credit-approved, in-stock orders are shipped same day, with a 99.7% shipment accuracy.

Demonstrated Sales Presence. Each AEPA member has a dedicated Account Manager (AM) whose objective is to exceed that member's expectations. Each AM is backed by large groups of Technology Specialists, Solution Architects, Pre-Sales Engineers, and onsite OEM Representatives, all of whom provide valuable guidance and support. The AM is the first point of contact and will engage additional resources as needed. Our Account Managers are familiar with trends in the education industry that allow them to tailor solutions to each member's specific challenges and needs. CDW•G Account Executives are resources in market around the country who work in tandem with the dedicated account teams and are available for local demonstrations and support to AEPA members as needed.

State of the Art Ordering and Billing Capabilities. AEPA member agencies place their orders in the way that best fits their needs. In addition to telephone, email, chat, and fax, purchasers can utilize their user-friendly, customized websites. Each site provides a plethora of tools, with their own CDW•G Extranet page giving them the ability to create custom reports, manage assets, and retrieve invoices, among many other functionalities.

Summary. CDW•G values our partnership with AEPA and we are committed to continuing to grow our combined market share, providing a cost-competitive solution, excellent customer service, and a vast array of technology solutions of the highest quality for members to choose from. Additionally, we will continue to provide marketing and support for the ongoing success of this contract and AEPA's mission. We will ensure that we are compliant with the contract and will provide comprehensive reporting on time, and process fee payments quickly and accurately.

Choosing the right partner to build your technology services initiative is a major component of the total solution. CDW•G's past performance and experience in meeting the unique requirements of this group of passionate individuals who are dedicated to serving schools, as well as our history of working with AEPA to improve processes and meet your changing needs speaks to our commitment to an ongoing successful relationship.
