# Inspiring the Artist in Every Student.

**We believe in the power of art. Art encourages us to learn, to explore, and to express ourselves in creative, unique, and personal ways.**

We don't see art as an elective. We see it as a pillar of education critical to helping students grow to be well-informed and well-rounded. That's why we've dedicated ourselves to supporting your efforts to empower young minds to think creatively.

We live and breathe art education. We're here to help you encourage creative thinking by providing you with a comprehensive line of affordable, high-quality arts and craft supplies featuring Sax products. But that's just the beginning.

We're also your support team, providing customized art education workshops as well as a blog full of expert tips, lesson plans, and so much more. Together we'll spark creativity, one student at a time.
